

Axel Roque

Dallas, GA | 404-717-9404 | axelr1025@gmail.com

OBJECTIVE

Results-driven IT professional with an Associate of Applied Science in Cybersecurity, a Bachelor of Applied Science in Information Technology and a strong background in Security Operations. Experienced in implementing secure solutions, managing IT systems, and leveraging technical expertise to support organizational goals.

EDUCATION

Chattahoochee Technical College, Marietta, GA: AAS-Cybersecurity (Fall 2019-Summer 2021)

Kennesaw State University, Marietta, GA: Bachelor of Science in Information Technology (Fall 2021-December 2024)

HONORS & AWARDS

- Security+ 701 February 2024

EXPERIENCE

Solutions Technician • Benevis August 2024 - Current

- Provide technical support for internal users in an O365 and Citrix environment
- Manage and Perform Lifecycle Management for internal and External end-users
- Triage and manage incoming technical requests by acknowledging tickets or answering a phone queue in a timely manner.

Security Operations • Intern • Georgia Tech Research Institute May 2024 - August 2024

- Streamlined security processes using Splunk and Tenable
- Integrated CrowdStrike SOAR with Jira to automate alert processes and ticket creation.
- Developed dashboards to visualize end-of-life software and improve security posture
- Built dashboards in Splunk to track software end-of-life and automate processes, contributing to the Software Development Life Cycle (SDLC) by improving visibility and efficiency in vulnerability management.

Security • Intern • Precision Medicine Group November 2022 – May 2024

- Organized and managed company digital assets.
- Managed Access for the organization's Box Tenant
- Investigated high-risk emails, websites, and applications for potential threats.
- Facilitated endpoint security solutions using Cisco Umbrella and Carbon Black

Technology and Operations • Cybersecurity Intern • Fiserv June 2021 – August 2022

- Assisted in building infrastructure for Enterprise Role-Based Access Control (RBAC).
- Onboarded applications in a global enterprise using SailPoint.

SKILLS

- Language skills: Native Proficiency in English and Spanish.
- Technical skills: Java, Python, Azure Entra, Microsoft Defender, KnowBe4, Threat Detection, Access Control, Incident Response, Software Development Lifecycle, Anomaly Detection
- Interpersonal skills: Team Collaboration, Communication

PROJECTS

Automated Vulnerability Detection & Asset Tracking

- Developed a Splunk-based automation tool to detect deprecated software versions by analyzing data from Tenable, improving visibility into security risks.
- Created dashboards to track and monitor digital assets, ensuring compliance with lifecycle management practices.
- Worked with key stakeholders to establish a system for logging and monitoring company digital assets, enhancing asset organization.

Threat Analysis & Incident Response Playbooks

- Created and instructed a SOC team on security playbooks to guide incident response for phishing attacks, email verification, and suspicious activity reports.
- Reproduced vulnerabilities and assessed their root causes to provide actionable remediation steps for security teams.

Security Research & CVE Analysis

- Assessed the impact of public CVEs on enterprise environments, determining necessary patches and mitigations.
- Conducted security research to improve threat detection methodologies within Microsoft Defender and Carbon Black.
