- Go-To-Market Strategy
- Cross-Functional **Leadership** in Matrixed environments
- **E-commerce** Platforms: Shopify, Magento, Recurly
- Feature platforms: rWeb, iOS, Android
- API Back-end services, Machine Learning & IoT Integration
- Data Analytics (Tableau, Adobe, Omniture, Google Analytics)
- Agile **Methodology** (Scrum, Jira, Confluence, Sprint **Planning**)
- Presented strategies to Director, Vice President and President

Lake Forest Graduate School of **Management**

Schaumburg, Illinois

Master of **Business** Administration in Global Marketing,
2017

Purdue University

West Lafayette, Indiana

Bachelor's of Arts in Public Relations & Advertising,
2008

Recent Professional Experience (Last 14 years)

Walmart – Sr. **Product Manager**, Digital Pharmacy (**Remote**)

(April 2023 – Present)

Lead **product** strategy and launches on WMT.com to drive traffic for online prescription orders, store pick-up and door delivery.

- Defined requirements to collect data and eligibility for prescription refill and transfer requests.
- Led weekly calls with compliance and legal to prompt authorization forms during signs up for prescription delivery and required two-step PHI verification
- Collaborated closely with senior **leadership**, marketing, UX, **engineering**, legal, compliance, identity and security **team** to align on feature priorities and execution on new **product** initiatives
- Launched features using A/B tests and Ramp **testing** to monitor KPI's and customers response to enhancements before rollout to 100% of customer traffic
- Optimized homepage features and CX for guest and login users resulting in improved homepage discovery page visits, account creation and online order for store pick-ups and door delivery
- Expanded account preferences for signed-in users to manage profile, HIPPA forms and notification alerts
- Enhanced WMT Pharmacy shopping cart experience to integrate quick add to cart and delivery options: Spark Shopper Home Delivery and 3rd party door delivery vendor, i.e. Uber and Lyft for Rx orders
- Reviewed Tableau analytics and other data insights to identify gaps with online to in-store customer experience to build **product** roadmap for improvements
- Wrote (PRDs) **product development** requirements using Confluence and Jira for quarterly **planning**

Walgreens – Sr. **Product** Owner (**Remote**)

(November 2021 – April 2023)

Developed **product** roadmap to increase bookings and scheduling for immunization and COVID across Omni-Channel: IVR, Web & In-Store.

- Launched mRNA, J&J vaccinations on enterprise platform to allow customers to schedule appointments and upsell for other seasonal and travel vaccines
- Worked closely with **business**, UX, clinical and legal to define VOC strategy, scheduling workflow and post-launch feature enhancements
- Worked in agile environment with scrum **team** (writing epics, features, user stories, requirements, **acceptance** criteria, **planning** sprints, holding ceremonies, **product** demos and retrospectives and grooming backlogs)
- Collected consumer research insights from UX & Adobe analytic data to increase scheduling,

Seeing Thngs – Principal **Product** Owner (**Remote**)

(May 2021 – November 2021)

Created NEW online brand and developed consumer products for store to be acquired and sold.

- Led creative direction for photoshoots; and marketing campaigns for outdoor media and across social media channels to drive customer engagement and digital presence

- Managed execution of weekly email campaigns; seasonal promotions and offerings to drive sales

Motorola Solutions – Mobile **Product Manager** (Hybrid)

(January 2020 – May 2021)

Partnered with Sales, IT, Supply Chain, **Engineering** and **Business** to develop value-based warranty service workflow packages that customers can purchase to repair or replace B2B mobile devices and two-way radios.

- Developed workflow **process** for a new warranty service plan implementation
- Worked with supply chain, go-to-market, **engineering**, and **product** managers to communicate pricing and warranty service features for a given mobile or two-way radio device
- Worked closely with **product** and IT to rollout new **product** enhancements that would increase communication between the call center and first responders and managed maintenance offerings post-launch or device defect repair and replacement
- Worked with **business**, sales and IT to develop a pitch for new **business** opportunities in **product** offerings to reduced customer challenges

Navistar – Sr. **Product** Director, IOT Connected Devices, Payments

(July 2016 – January 2020)

Following the guidance of FMCSA's Hours of Service rules for truck drivers, I owned the end to end **product** lifecycle for Mobile and Web Pass/SaaS applications connected to telematic devices while leading direct reports of **product** managers, **business** analysts and other cross-functional teams; conducted competitive research to drive **product** vision and new **product** initiatives.

- Provided **leadership** to direct reports, while providing **coaching**, mentorship, and career **development**
- Conducted competitive market research: identified market barrier to entry, defined unique value proposition and **business** model
- Managed 3+ year roadmap for web and mobile app **development** on the Microsoft Azure Cloud platform; **building** out onboarding experience, ability to add and remove users, user permissions, sign on authentication, warranty **process** and subscription experience
- Led UX and market research teams to conduct focus groups and beta **testing**; Defined User Personas and VOC
- Maintained and developed **product** roadmap
- Managed API integration for payment and Cloud data services to monitor truck HOS data
- Defined and implemented various **product** revenue models via Recurly payment system: subscription, renewals, online purchase and retail store purchase for various Paas/SaaS features
- Developed post-purchase strategy for email communication, and training support
- Worked closely with marketing to develop **product** packaging

GE Transportation – Agile **Product Manager** Consultant

(March 2016 – July 2016)

Developed features, epics, user stories, **test** cases; managed ceremonies, sprint **planning**, groomed backlog and identified defects using Jira and Confluence for a \$30 billion **software** program, Predix, that predicts parts repair service on locomotives. Developed **product** roadmap, reported weekly updates to stakeholders and worked cross-functionally with data scientist and data **engineering** for Agile release cycles while managing direct reports of **business** analyst.

- Developed new **process** documents while managing complex data models for a \$30 billion program
- Used Rally & Confluence to manage creation of user stories, **test** cases, defects and release **planning**
- Developed roadmap strategy for ongoing **product** releases: Functionality and UI conception
- Utilized Predix for Machine Learning Initiatives to better predict parts repair service on locomotives

CVS Health – **Product Manager** Consultant, Digital Pharmacy

(May 2015 – March 2016)

Wrote detailed **product** requirements with cross-**team** dependency to launch digital features for Aetna and Cigna members across caremark.com, iOS and Android mobile platforms to drive Rx refills and My Account visits.

- Created and executed UAT **testing plans** while
- Consistently worked cross-functionally with **Engineering**, Design, QA, PBMs, Marketing and Support to deliver features in-store for pharmacist, and set up branded communication across Email, IVR and SMS communication channels.

Allstate Insurance – Digital Web & Mobile **Product Manager** Consultant

(July 2012 – May 2015)

Performed daily **product** tasks to increase KPIs for roadside insurance sales: wrote **product** requirements, managed direct reports, reviewed UX designs, lead discussions for ux branding requirement with 3rd party vendors, developed a web and mobile (Saas & Paas) **product** roadmap, and reported weekly traffic, downloads and engagement activity using Google Analytics, Omniture, Google Play and iTunes.

- Utilized Reporting tools such as Omniture, Google Analytics, Google Play and iTunes to analyze user traffic, downloads, and engagement activity
- Created BRDs for **product** enhancement features
- Develop tutorial videos, training guides, along with content to build consumer awareness and usage
- Managed a content matrix of How-To training guides and videos for end customers and support **team**
- Lead the **planning** and execution of video commercials and multi-media for BMW, General Motors and internal products.

Motorola Mobility, Inc. – Global Product Manager Consultant

(August, 2011 – July, 2012)

Launched Android mobile products: accessories, devices and apps across the U.S. and global markets: LATAM, APAC, EMEA for motorola.com Desktop and Mobile website, while partnering with Ecom, IT, Content, Social Media, Accessories, Software and Email Marketing teams to execute pricing and shopping cart funnel strategy.

- Worked closely with global vendors such as DraftFCB, Translation Agencies, Elevation, and global in-house marketing teams: accessories, software, ecommerce, IT, web editors, social media and email marketing.
- Utilized CMS system to manage content updates to Motorola.com
- Managed pricing and shopping cart strategy for accessories and mobile devices sold through Motorola.com.
- Worked with marketing team to develop in-store signage and promotion activity for product launches

Hyatt Hotels Corp. – Global Product Manager Consultant

(January, 2011 – August, 2011)

Frequently developed content to A/B test email campaigns, SEO, and search ads to increase KPI results for Hyatt properties landing pages and websites by 5% in mobile and web platforms.

Summary

As an experienced director of **product** strategy, I've managed teams and new **product development** for healthcare, Insurance, Transportation, Telecommunications and Hospitality industry in an agile environment. Working on new technologies such as AI and connected devices, I managed **product** ideation and launch efforts with cross-functional teams from supply chain, **engineering**, to UX and marketing; overseeing a range of activities and tasks pre and post **product** release. My entrepreneurial spirit has allowed me to develop new brands and challenge existing approaches to improve customer experience and **product** solutions. Outside of work I enjoy hiking, traveling and tinkering with products to find new ways to solve consumer problems!
