PROFESSIONAL SUMMARY

Accomplished IT (Information Technology) Professional **with** 35 years of proven results. Experience includes electronic messaging technology, enterprise-level design, and deployments including Microsoft Active Directory, Exchange, Office 365, and Azure AD using Intune and Autopilot. Excellent communication skills.

WORK HISTORY

NTT Data • Remote

July 23 to Present

Active Directory Engineer

- Joined the organization to provide Active Directory and end-user device MDM enrollment assistance
- Assisted **with** environmental health analysis and resolution using Qualys
- Provided detailed Intune reporting using PowerShell for quick identification of the existing configurations.

GlobalTek Systems LLC • Florida (Public Trust Clearance)

Oct 2007 to Present

IT Adviser / **Principal Architect**

- IT Adviser **with** direct experience aligning IT roadmaps **with** the corporate vision to achieve mission-critical goals.
- Skilled technology leader proficient in strategic thinking and tactical execution provided guidance **with** Microsoft Technologies SCCM (**Security** Center Configuration Manager) Servers and Exchange Servers for On-Premises and **Cloud** solutions.
- Professional understanding of Microsoft Tenants includes GCC & GCC **High** Tenants, Key Microsoft Architectures, Microsoft Intune, Azure Key Vault, Microsoft On-premises to Azure **cloud** environments, Google **Cloud**, and Amazon Web Services.

Saint Jude Medical • China

Mar 22 to Oct 22

****Cloud Management & Automation** - Non-Government/Private Sector**

- Implemented Microsoft 2019 Domain Controllers Virtual Machines within Azure China (Vianet21) Tenant for the client's infrastructure and domain deployment.
- Configured and deployed Microsoft Windows 2018 servers for Azure KMS (Key **Management** Services) services and proof of concept client license activations, also deployed Red Hat Linux servers, and installed GitLab servers.
- Installed and configured NPS (Network Policy Server) servers and integrated them using Azure Multi-Factor **Authentication** (MFA) utilizing MFA Extensions.

National Institute of Health NIH • Maryland (Public Trust Clearance)

Nov 20 to Mar 22

Active Directory Engineer

- Joined organization to provide Active Directory Health Checks for all NIH directory services environments using Quest toolset, Change Auditor, Recovery Manager for AD, and Active Roles.
- Supported business-critical applications and ensured end-user. This includes Office 365 GCC **High** Tenant and Windows 2016, 2019, FIM (Forefront **Identity Management**), and LDAP (Lightweight Directory Access Protocol) services.

Equinix • Dallas

Aug 20 to Nov 21

****Cloud Management & Automation** - Non-Government/Private Sector**

- Perform Azure Active Directory analysis for domain services to ensure a secure computing platform.
- Provide procedures for server consolidations and process documentation for achieving the decommissioning of legacy servers.
- Identify **security** issues to protect the server from outside access.

JNJ • China

June 20 to Aug 20

Active Directory Migration Architect - Non-Government/Private Sector

- Conducted Active Directory **security** analysis for JNJ China for Azure address deployment and configuration in Microsoft Azure and identified **security** vulnerabilities and addressed known issues.
- Deployed Microsoft 2019 Domain Controllers Virtual Machines within the Tenant for the client's infrastructure and domain deployment.
- Configured and deployed Microsoft LAPS (Local Admin Password Solution), Azure patch **management** for domain servers, and Azure Key Vault for securing Microsoft Certificates and Keys \ Secrets.
- Develop a process for Azure tenant recoverability using Microsoft best practices like Break Glass accounts and their proper usage.
- Developed documentation for As-Built documentation for deploying IaaS (Infrastructure as a Service), VPN (Virtual Private Network), Virtual Machines, and Microsoft Load-Balancers for the JNJ Infrastructure in the Azure Tenant.

Ralph Lauren • New Jersey

Feb 20 to June 20

Senior O365 Cloud Architect - Non-Government/Private Sector

- Configured the Office 365 Tenant to facilitate end-user **migration** to the **cloud**-registered domains and assisted **with** the registration of the DNS (Domain Name System) records/ Firewall validation.
- Assist **with** requirements gathering for MDM (Mobile Device **Management**) / Intune deployment of AutoPilot configuration for Windows mobile devices and execution for compliance and configuration policies.
- Designing a data governance policy and procedures for securing devices using Azure Intune Conditional Access Policies for end-users **with** access to resources for day-to-day operations.

TTM Technologies • Colorado

Mar 19 to Jan 20

Senior O365 Cloud GCC Architect

- Configured Office 365 GCC **High** Tenant to facilitate the end-user **migration** to the **cloud**-registered domains and helped register the DNS records/ Firewall validation.
- Performed the Exchange Hybrid Configuration to assist all City Entities in migrating to the **cloud**.
- Assist TTM project **management** in the completion of a project plan for the next phases of the TTM **migration** efforts to the Office 365 GCC **High** Tenant.

HealthFirst • Lake Mary, FL

Mar 19 to July 19

Active Directory Migration Architect - Non-Government/Private Sector

- Performed Active Directory **security** analysis of HealthFirst directory services to identify **security** vulnerabilities and address known issues.
- Worked closely **with** the Health First Team to create **Cloud** Governance documentation for Office 365 workloads, Microsoft Teams, and OneDrive for Business.
- Review and configure Intune Compliance and Configuration Policies to enforce governance rules for mobile device **management**, including Windows AutoPilot

Abbott Laboratories • Illinois

Aug 18 to Mar 19

Active Directory Migration Architect - Non-Government/Private Sector

- Performed Active Directory Health Checks for all Abbott directory environments to identify **security** issues.
- Provided remediation for Business-critical applications and ensured they were ready to be migrated to a new Active Directory Forest. This included Windows 2003, 2008 R2, and Windows 2012 R2, FIM, and LDAP services.
- Troubleshoot applications that leverage Active Directory Federation Services / SSO **software** and **security** applications **with** Kerberos / Certificate **authentication**.

Ralph Lauren • New Jersey

Mar 18 to Jan 19

Senior O365 Cloud Architect - Non-Government/Private Sector

- Configured the Office 365 Tenant to facilitate end-user **migration** to the **cloud**-registered domains and assisted **with** registration of the DNS records/ Firewall validation.

- Provide guidance for the Hybrid Configuration and migration approach for Ralph Lauren migration to the cloud.
- Designing a data governance policy and procedures for securing devices and providing end-users with access to resources for daily operations.
- Configure and Deploy Azure Application Proxy for Kerberos Authentication and Conditional Access Policies to enforce Multi-Factor Authentication (MFA)

PWC Public Sector · Tampa, FL

Mar 18 to Jul 18

Senior O365 MDM Intune Engineer - Non-Government/Private Sector

- Deploy and design Intune Windows 10 company security policies for enterprise management and create solutions to assist with the management of company security policies.
- Requirements gathering, data analysis, MDM / Intune data modeling with existing infrastructure, and deploying conceptual, logical, and physical end-state.
- Designing a data governance policy and procedures for securing devices and providing end-users with access to resources for day-to-day operations.

City Of Maitland · Orlando, FL (Public Trust Clearance)

Mar 17 to Apr 18

Office 365 GCC (Government Cloud Community) Cloud Architect

- Configured the Office 365 GCC Tenant to facilitate the end-user migration to the cloud-registered domains and helped register the DNS records/ Firewall validation.
- Performed the Exchange Hybrid Configuration to assist all City Entities in migrating to the cloud.
- Install and configure Azure AD Connect (DirSync) and Office 365 for an end-to-end user migration to the cloud.

Tangoe (QTR SYS) · Parsippany NJ

Mar 17 to Mar 18

Senior O365 Cloud Migration Engineer

- Assist in developing the migration approach for 2800 users from Exchange 2003 / 2010 to Office 365 utilizing Hybrid / ADFS (AD Federated Services) infrastructure / MFA, and Conditional Access Policies.
- Coordinated the planning efforts and rollout for the following Microsoft technologies: Office Communicator 2007 R2 migration to Microsoft Lync 2013, Microsoft Teams, Microsoft Intune, and Skype for Business Online.
- Deployed infrastructure message hygiene utilizing Microsoft EOP (Exchange Online Protection), Microsoft RMS (Rights Management Services), and IRM. Also, I used Microsoft Power BI (Business Intelligence) for exporting configurations for Office 365.

Department of Veterans Affairs · Virginia (Public Trust Clearance)

Apr 17 to Apr 18

Cloud Management & Automation GCC

- Developed migration documentation for the Department of Veterans Affairs to migrate into Office 365 GCC tenant for OneDrive also tested eDiscovery processes using Azure Rights Management Services - Office 365 OME to test encryption using transport rules.
- Setup and created training materials for Content Search / eDiscovery using Office 365 Security & Compliance Center.

CSC (Zurich NA) · Schaumburg IL Non-Government/Private Sector

April 17 to June 17

Quest SME (Subject Matter Expert) Migration Engineer - Non-Government/Private Sector

- Participate in and contribute to architectural decisions and changes related to the Exchange 2007 messaging systems.
- I aided and recommended the migration approach and provided training with issue resolution activities for each migration using Lotus Notes Migrator 4.1.1 / QMM 8.14.

BBA Aviation · Orlando Non-Government/Private Sector

Aug 16 to Mar 17

Quest Cloud Migration Architect - Non-Government/Private Sector

- Assist in developing the migration approach for 2500 users from Exchange 2013 to an existing Exchange 2013 On-Premises then migrate to Office 365 tenant of 15000 users cloud environment using Quest Migration Manager 8.13 for both Active Directory / Exchange versions.
- Utilizing the Quest migration toolset to synchronize source objects to existing On-Premises environment rather than using AAD (Azure Active Directory) Connect / Hybrid solutions to sync objects to the cloud.
- Troubleshoot issues surrounding mail route ability / DirSync / AAD Connect for the migration and configured all core components using DMA (Data Migration Assistant) / DSA / MME by Quest.

University of Miami · Miami Non-Government/Private Sector

May 16 to Aug 16

Senior O365 Cloud Migration Engineer - Non-Government/Private Sector

- Configured the Office 365 Tenant to facilitate the end-user migration to the cloud-registered domains and assisted with the registration of the DNS records/ Firewall validation.
- Install and configure Azure AD Connect (DirSync) and Office 365 for an end-to-end user migration to the cloud.

Florida State University • Tallahassee Non-Government/Private Sector

May 16 to Jun 16

Senior O365 Cloud Migration Engineer - Non-Government/Private Sector

- Configured the Office 365 Tenant to facilitate the end-user migration to the cloud-registered domains and assisted with the registration of the DNS records/ Firewall validation.
- Install and configure Azure AD Connect (DirSync) and Office 365 for an end-to-end user migration to the cloud.

District 9th Courthouse • Orlando Non-Government/Private Sector

May 16 to Jun 16

Senior O365 Cloud Migration Engineer

- Configured the Office 365 Tenant to facilitate the end-user migration to the cloud-registered domains and assisted with the registration of the DNS records/ Firewall validation.
- Install and configure Azure AD Connect (DirSync) and Office 365 synchronization of 17,000 user objects for an end-to-end user migration to the cloud.
- Installed and configured the PaaS migration toolset to facilitate user migration and public Folder migration from Exchange 2007 to the cloud.

Disney • Orlando Non-Government/Private Sector

Mar 15 to Jul 16

Senior O365 Cloud Migration Engineer - Non-Government/Private Sector

- I am working as an Office 365 engineer to move 130,000 users to a new Office 365 Hybrid configuration utilizing Microsoft ADFS 2.1 / Forefront Identity Management and PowerShell scripts for migrating accounts.
- Assigned to the Enterprise messaging team to provide third-level resolution for post-migration and co-existence resolution for the Hybrid configuration and multiple Active Directory domains.
- Testing / Building the new rollout Exchange 2013, ADFS 3, SSO, and MFA with conditional access policies for devices being leveraged for the Disney environment.

Abbott Laboratories • Illinois Non-Government/Private Sector

Dec 12 to Mar 15

Active Directory Migration Architect - Non-Government/Private Sector

- Assisted with the migration planning / build to support 90,000 user migrations to one unified platform, leveraging Active Directory Migration tool 3.2
- Build and test ADMT (ad migration tool) infrastructure and create test cases for the proper migration of the Abbott users / SQL Clustered Servers into the AbbVie domain environment.
- Discuss the migration approach with the Business owners as well as provide a migration approach for mission-critical applications.
- Provided remediation for Business-critical applications and ensured they were ready to be migrated to a new Active Directory Forest. This included Windows 2003, 2008 R2, and Windows 2012 R2, FIM, and LDAP services.

EDUCATION

Associate of Arts

Excelsior College – Albany, New York.

ACHIEVEMENTS / CERTIFICATIONS

- Microsoft Certified: Cybersecurity Architect Expert
- Microsoft Certified: Security Operations Analyst Associate
- Microsoft Certified Professional (Windows NT 4.0, Windows 2000, Windows 2003)
- Microsoft Certified Systems Administrator- Windows Server 2000/2003 (Messaging)
- Microsoft Certified IT Professional (Exchange 2007)
- Microsoft Certified Technology Specialist (Exchange 2007)
- Microsoft Certified Systems Engineer (NT 4.0, Windows 2003)
