Senior Product Manager

SUMMARY: Dynamic **Senior Product Manager** with 10+ years of experience leading hardware and software **product** development, strategic partnerships, and go-to-market execution. Proven ability to define roadmaps, drive cross-functional collaboration, and deliver innovative, revenue-generating solutions. Adept at managing full **product** lifecycles, optimizing processes, and aligning **business** strategy with technical execution to achieve measurable impact.

CERTIFICATION:

Product Strategy | Northwestern University: Kellogg School of **Management** | 2024

EXPERIENCE:

Bertec Corporation - Senior Product Manager | Senior Mechanical Engineer **Seattle, WA | 11/2017 - Present**

- Led the development of three industry-first hardware products, including an instrumented portable pitching mound, while advancing three additional products to mid-development. Balanced technical feasibility, manufacturability, and market demand, resulting in a 30% improvement in delivery timelines and a 20% reduction in project costs, while driving scalability and compliance improvements across the portfolio.
- Spearheaded global **product** launches, refining pricing models, distributor terms, and value propositions to align with market needs. Partnered with sales and **marketing** to execute GTM strategies, leading to a 40% increase in adoption, pipeline expansion, and improved conversion rates.
- Negotiated and managed B2B partnerships, including an MLB analytics collaboration, while securing long-term agreements and optimizing integration processes. Strengthened partner engagement strategies, driving a 3x increase in revenue, retention improvements, and expanded market positioning.
- Managed multiple technical teams of engineers, **product** managers, and UX/UI designers, stepping into interim leadership roles during transitions. Led cross-functional alignment efforts, recruited and mentored 8+ **product** managers, and implemented structured workflows that resulted in a 20% increase in team efficiency and faster decision-making cycles.

Honda R&D Americas - Transmission Design Engineer

Raymond, OH | 5/2012 – 11/2017

- Led transmission integration for the 2017 Honda Odyssey, collaborating with 30+ teams to align vehicle strategy.
- Co-authored Patent #10315515, designing an industry-first pinion shaft for Honda's 10-speed 4WD system, optimizing manufacturability and safety.

EDUCATION:

Bachelor of Science: Mechanical Engineering | Grove City College

Grove City, PA | Graduated 2012

SKILLS:

- **Product Strategy & Lifecycle Management** – Roadmaps | Feature Prioritization | KPI-Driven Decision-Making
- Cross-Functional Leadership – Hardware, Software, UX, Sales, Supply Chain & **Product Marketing**
- Market Research & Competitive Analysis – Data-Driven Insights | Trade-Off Analysis | Customer-Centric Strategy
- **Agile & Product** Execution – Jira | Confluence | Epics, Features & User Stories | Scrum Frameworks
- Hardware, Software & Firmware Integration – Embedded Systems | Cross-Platform Development
- Manufacturing & Compliance – DFM/DFA | CE Certification | Supply Chain & Production Scaling
