## SUMMARY

I have extensive cross-industry experience (retail, e-commerce, airlines, media & entertainment) with key positions working across time zones with remote teams and global partners in Japan, China, Thailand, India, U.K., France, Germany, The Netherlands, and Canada. I am also very familiar with Agile practices, ceremonies, and tools, including Slack, MIRO, Jira and Confluence. Published author with two patents, Pragmatic Marketing and SAFe 6 Product Manager/Product Owner Certifications.

Technical expertise and technologies include: design of Web Services, SOA, Progressive Web Apps, Digital Media, SaaS, IoT, IoMT, HL7, FHIR, BLE Beacons, Data Analysis, Generative AI, Large Language Models, Omnichannel, Store Beacons, Retail Systems, Post Purchase, Cross-border E-Commerce, Supply Chain, 3PL, Reverse Logistics, Order Fulfillment, OMS, WMS, Airline Operations, A/B Testing, SAFe Agile, Service Design, UX, Analytics, Point of Sale (POS), PCI-DSS, Gift Cards, Digital Wallets, Refunds, Payment Switches and Gateways, Cloud Computing, NFC, OTT Video, VOD, Content Distribution, Mobile Apps, IPTV, Digital Rights Management (DRM).

## PROFESSIONAL EXPERIENCE

### Nike Global Network Engineering – Seattle, WA, Senior Product Manager, 01/2024 - Present

Leading the Product Management discipline on digital business transformation, modernization and simplification of Nike's global telecommunications infrastructure.

- Consolidation of global contact center infrastructure in North America, EMEA, and APLA, including Greater China, by implementing cloud-based contact center as a service (CCaaS)
- Modernization of global network infrastructure through the removal of analog network elements, copper assets (lines, equipment) and transitioning related services to SIP platforms
- Implementation of Nomadic E911 for Nike campuses, retail and distribution centers around the world

### Publicis Sapient - Seattle, WA, Associate Director, Product Management, 08/2019 – 07/2023

Leading the Product Management discipline on digital business transformation, product innovation, IoT, and web/mobile experience strategy engagements for a range of Healthcare, Travel & Hospitality and Retail clients. Key responsibilities include:

- Articulating vision and strategy for client digital products through synthesis of customer needs, market

evolution and growth, and client goals and technology capabilities, including Generative AI Research & Development

- Leading **product** feature definition by articulating **business** and customer requirements, by leveraging inputs such as market research, competitive & comparative analysis, heuristics analysis of current state experience and data insights
- Define team OKR's and KPI's for key outcomes and results and performance indicators
- Driving Collaboration across functional teams (Creative, User Experience, Customer Research and Technology) to ensure client **business** objectives and customer needs are addressed during the design and execution of the **product**

**ACADEMY SPORTS & OUTDOORS:** Selection, and **implementation** of replacement payment gateway as well as token migration and enterprise integration with downstream systems and processes (Order **Management**, Logistics, Fraud, Sales Audit, Treasury and Taxes). **Offshore and Remote teams:** India and Toronto

**UNITED HEALTH GROUP:** **Product management** of an Integrated Specialty Drug **Management** (ISDM) solution, designed to lower specialty drug spend and cost of care by integrating drug **management** strategies from pharmacy benefit and medical benefits into one, coordinated approach. The technology solution, which includes a Recommendations Engine, integrates the pharmacy and medical benefit information and capabilities into a single information pool to improve clinical decision making for complex patients and reduce the administrative burden. **Remote teams:** India

- Identified, analyzed and mapped data sources of truth for a recommendation engine, which provides information to physicians on drug alternatives, dosage and site of care.
- Partnered closely with **business** and engineering leadership, as well as architects, to discover platform integration opportunities between systems for Prior Authorization, Pharmacy Benefits **Management** (PBM), Copay Cards, Rebates, and Medical Claims
- Also created epics, features, user stories and performed backlog grooming using AHA and Rally

**HUMANA:** End-to-end at-home remote patient monitoring solution using Internet of Medical Things (IoMT), Biofourmis, iHealth, FHIR API, GCP, AWS, Azure and Private Cloud. Solution is designed to surface intelligent, real-time, predictive data for patient intervention and improve care **management**, and outcomes. **Remote teams:** Boston, Singapore, India

**MARRIOTT:** Redesign of Marriott.com (mobile, desktop), optimizing for local leisure market and Marriott Bonvoy members. Scope of work also involved migration from in-house platform to Adobe Experience **Manager** (AEM) and integration with Salesforce EverGage. Akamai for content distribution and AWS for cloud. **Remote team:** India

**WAWA:** Design and development of Quick Service Restaurant (QSR) SaaS platform to enable placing catering orders online, for scheduled pickup (BOPIS), along with a Kitchen **Manager** Portal. Scope of work also included creation of a design system and component library. AWS for cloud. **Remote team:** India

**LOWE'S:** Redesigned and launched Omnichannel Returns experience which introduced multi-item returns

setup, eligibility engine, capture of customer sentiment (support for promotions, Rebates and Warranties).

**Remote team:** India

- Designed and launched self-service Order-level and Line Level Cancellation (support for Promotions and Rebates)
- Migration of on-premise post purchase applications to Google Cloud Platform (GCP)

**Lululemon Athletica - Seattle, WA, Senior Product Manager, Omnichannel Retail, 05/2018 – 07/2019**

- Established and led the Post Purchase group, which included 2 development/QA teams (offshore), business analyst, UX researcher and designer.
- Directed execution of business and technology initiatives to support Omnichannel Fulfillment, Returns, Exchanges Reverse Logistics, Refunds, Ship from Store, BOPIS, and Product Reviews
- Develop product roadmap by identifying opportunities, evaluating ROI and prioritizing key initiatives for execution
- Defined team OKR's and KPI's for key outcomes and results and performance indicators
- Partner with key stakeholders to define business requirements, translate requirements into user stories and work closely with engineering team to prioritize backlog. Own communication with leadership and cross-functional teams
- Subject Matter Expert for business and engineering teams and trusted advisor for Senior leadership
- Remote teams: Argentina and Vancouver, BC (Confluence, JIRA, Slack, AWS)

**Alaska Airlines - Seattle, WA, Senior Product Manager, Checkout & Post Purchase, 04/2017 – 12/2017**

Responsible for conversion optimization of the booking path and post-purchase for Alaska Airlines (web & mobile).

- Led Checkout and Post Purchase teams, which included: 2 Product Managers, 2 Development teams (onshore & offshore) Scrum Master, and UX Researcher/Designer
- For the **Virgin America acquisition** - Converted Travel Bank credits to Alaska Airlines My Wallet, implemented new seat maps Airbus fleet, and Integrated FareLogix platform for pricing and merchandising
- Partnered with internal and external partners (Expedia, Allianz) to integrate core product features including Loyalty Programs, Ancillaries (Premium Class, Upgrades, Hotels, Rental Cars) and payment methods
- Created E-Commerce enhancements to the payment and confirmation pages to improve profitability and user experience which included collaboration with design, and marketing on go-to-market lifecycle strategies
- Led competitive watch activities to identify gaps and opportunities to improve traveler experience and engagement
- **Remote teams:** Brazil, India (Confluence, JIRA, Slack)

**Starbucks - Seattle, WA, Digital Product Manager, 07/2016 - 05/2017**

- Re-design and migration of Starbucks.com from .NET to NodeJS platform
- Design and development of Progressive Web App (PWA) with core native features, including Loyalty and Personalization, Gift Card purchase, and Account Create and Sign-in
- Conducted competitive analysis, and analytics to guide roadmap creation, feature prioritization and product planning
- Created epics, user stories and performed backlog grooming using JIRA and Confluence
- Collaboration with internal and external stakeholders, designers and engineers to deliver standard (MC, Visa, AMEX) and alternative payment methods (PayPal, Apple Pay, Chase Pay)
- Deployed re-designed features in the U.S., Canada, Germany, Brazil, UK, and France (Confluence, JIRA, Slack)

**Sinclair Broadcast Group - Seattle, WA, Senior Product Manager, 10/2014 - 06/2016**

Responsible for defining the vision, strategy, and roadmap for Sinclair digital products, including: Content Management Systems, Weather, UGC, Sports, Google AMP, Advertising Platform integration (Google Ad Exchange, OpenX, Yahoo Gemini), linear and VOD discovery for TV Everywhere, OTT (Xbox, ROKU), and mobile APPs. Developed and operationalized best practices related to performance measurement reporting and KPI's as aligned with business objectives and executive stakeholders. **Remote teams:** Ukraine (Confluence, JIRA, Slack, AWS, Akamai)

**Dominion Enterprises - Seattle, WA, Senior Product Manager, Ecommerce & Payments, 09/2013 - 09/2014**

Led development of multi-channel payment product and services (retail, ecommerce, mobile) for the Powersports aftermarket industry. Led the selection, enterprise integration and deployment of payment infrastructure, which included EMV compliant credit card terminals, and payment gateway with point-to-point encryption (P2PE) and tokenization. As product owner, wrote epics, user stories and worked with agile (Scrum, Kanban) teams to manage and prioritize product backlogs. Led go-to-market strategy, product design, contracts, and licensing. **Remote team:** Thailand

**Amazon - Seattle, WA Senior Product Manager, Shopping Cart & Checkout, 07/2012 –09/2013**

Business, product, and customer experience owner, worldwide for Shopping Cart, High-Upsell Cart and Checkout, across desktop, smartphones and tablets. **Remote teams:** China, Japan, Germany and UK

- Agile product ownership of product roadmaps - partnering with multiple teams of designers, software engineers, and architects to define, build, launch and grow new retail experiences for customers, using UX Research and Data Insights
- Conversion optimization for Recommendations, Shopping Cart, High Upsell Cart, and Checkout Pipeline
- Coordination of localization and translation for global product launches (Japan, China, Germany, Spain)
- Business ownership of forecasting and management, and operational planning
- Innovation and leadership to drive ideas and strategy from conception to execution

**Dell - Austin, TX, Senior Product Manager, Global Business Strategy & Development, 12/2011 - 06/2012**

- Designed and Launched Mobile Customer Care App (Android, IOS)
- Designed and Launched Design and launch of QR Code Management platform
- Designed Cloud-based platform to consolidate EDI-based communications with large retail partners (BestBuy, Walmart, etc.)
- Collaboration across internal/external teams in product definition, UX/design, vendor management and agile development
- Translation and localization for global product launches (Japan, China, Germany, France)
- Led cross-functional groups to ensure on time delivery, launch, and service operations

**Cox Communications (MVNO) - Atlanta, GA, Product Development Manager, 04/2008 - 12/2011**

Responsible for the design, development and launch of Cox Wireless service from ground up. Part of founding team that led the initiative from developing the mobile strategy, ideation, requirements, completing business analysis, negotiating with partners & vendors, working with cross-functional teams and launching the service.

- Launched the Cox Marketplace, a multi-channel App Store, enabling App purchase from the handset and Web.
- Launched Over-the-Top (OTT) video and music services
- Responsible for multi-Digital Rights Management (DRM) architecture, which consisted of PlayReady, WMDRM, and ecosystems
- Led cross-functional teams (vendor, IT, customer care, sales, legal) in full life cycle of design, development, deployment testing, and launch of all Mobile Entertainment services, including, App Store, Digital Music, Mobile Video, music, and games.
- Deployed and launched mobile application ecosystem. Mobile Apps procurement, content distribution, strategy and licensing, as well as building and managing business relationships with content partners (Disney, NBCU, CBS, Weather Channel).
- Conducted market research and defined product strategy, roadmap, and requirements (BRD, PRD, Wireframes).
- Contract negotiation Platform Vendors, App Developers, Content Providers, and Device OEMs (Kyocera, Samsung, Motorola)

**Comcast - Philadelphia, PA, Senior Wireless Consultant, 10/2007 – 04/2008**

- Performed product planning and cost analysis for media & entertainment services in support of wireless launch
- Wrote requirements, RFIs and managed vendor procurement process
- Key focus areas: Mobile Entertainment and Mobile Search

**Helio - Los Angeles, CA, Senior Technical Product Manager, 01/2006 — 10/2007**

- Agile discovery, design and development of Mobile Apps, Content, and Digital Rights Management (OMA, WM DRM, SK DRM)
- Architected and launched Multi-Digital Rights Management (WMDRM, SKDRM) platform for mobile and PC
- Deployed platforms for distribution of digital music (OTA, Streaming), license acquisition, online and mobile music portals.

- Integration of Mobile Search (Yahoo), User-Generated Content (Google, YouTube, Blogger, Flickr, etc.) and Social Networking
- Authored and published DRM white papers to Content Providers (Universal Music Group, Warner Music Group, EMI, Sony/BMG, DISNEY, MTV, VHI, FOX, etc.) to gain approval for content licensing and distribution
- Coordination and logistical planning with music labels, TV Networks for content procurement and system interoperability
- Deployed an XML-based workflow system for encoding, transcoding, and ingestion of content and metadata

**Boeing, Commercial Aviation Services - Denver, CO, Product Development Manager, 01/2003— 12/2007**

- Developed and launched the Integrated Airline Operations Center (IAOC), delivering on time over under budget
- Global & Domestic Deployment and Integration of Flight Planning & Tracking, Weight & Balance, Crew Management for major airlines, including American Airlines, US Airways, Frontier Airlines, British Airlines, Ryanair, KLM, Korean Air
- Led product and roadmap definition, software development, product releases, customer delivery, and negotiated SLAs with various offshore teams (Germany, UK, India)
- Wrote business plan, business case, performed market research, workshops, and focus groups with large airline customers

**Glenayre Technologies - Atlanta, GA, Senior Product Manager, Video Services, 01/2005 — 12/2006**

- Design and launch of a Mobile Video Portal (H.324M, H.323, H.245, H.264, RTSP, SIP) for 3G Carriers in EMEA markets
- Product roadmap definition, market strategy, design, agile development (SCRUM), release and launch planning
- Evaluate market opportunities, identify target markets, author business and financial plans
- Program management, and coordination across various functional groups (Sales, Marketing, Legal, Engineering)

1998 – 2002 (Details available upon request)

- DHL, Scottsdale, AZ, Product Development Manager, Pricing, Tariffs & Taxes
