OBJECTIVE & SUMMARY:

I am seeking an opportunity to join an organization's cybersecurity or technology program where I can apply my **IT** security knowledge and skills to enhance the company's defenses against adversaries and attackers. As a quick learner, I aim to contribute my technical expertise and business acumen to be an asset to any team and organization.

CERTIFICATIONS & SKILLS

CompTIA Security+ Certified, CompTIA Network+ Certified, CyberArk Defender & Sentry Certified, **Microsoft** Azure, Splunk power user level experience (Pluralsight), Control-M Configuration Manager, **Customer** Focus and **Center** of excellence orientated, Python upper beginner level experience, **Bilingual** Proficiency | **Spanish** - Professional Working Proficiency | Korean - Limited Working Proficiency, Issue Resolution, Verbal & Written Communication, Accounting File **Management**, Data Analysis, Sales Operations Collaboration

WORK EXPERIENCE

Southern Company, Atlanta GA.

IT Infrastructure Operations Intern

May 2023 – Present

- Architected and implemented a comprehensive system visualization using **Microsoft** Visio, mapping Control-M and Autosys, including other **software** integrations across 15+ servers, improving executive decision-making
- Developed and launched an interactive IOC Batch Team website portal that streamlined team communications, increasing process visibility by 60%
- Led a cross-functional team in developing innovative strategies focusing on AI-driven solutions to reduce energy costs for low-income households and then executed a demo utilizing an AI chatbot to the Chief Information Officer Martin Davis

PROJECTS

CyberArk Identity & Access **Management Lab Personal Project**

Self-Directed Technical Implementation

- Architected and deployed a complete CyberArk Privileged Access **Management** (PAM) infrastructure across 5 virtual machines, implementing core components including Vault, Password Vault Web Access (PVWA), Central Policy Manager (CPM), and Privileged Session Manager (PSM)
- Demonstrated advanced network configuration by establishing a multi-VM environment with custom IP addressing schemes (192.168.1.x), DNS configuration, and gateway setup, ensuring proper communication
- Engineered virtual infrastructure using VMware, a **software** that creates a representation of a **computer's** **hardware**
- Applied infrastructure-as-code principles by systematically organizing installation files and maintaining consistent naming conventions (WIN-VAULT, WIN-CPM, WIN-PSM, WIN-PVWA) for enhanced maintainability

EDUCATION

Georgia State University Graduate, Atlanta, GA.

BBA, **Computer** Information Systems - **Management** Information systems

EXTRACURRICULAR ACTIVITIES (Leadership Experience and Involvement)

Piedmont Central Community **Service Club, 4 Projects Atlanta, GA.**

Volunteer

April 2019 - September 2024

- Mentored 25-32 inner-city kids and assisted with 2 bike repairs
- Other Interests: Golf, Cars (BMW & Acura), Stocks, Calisthenics

Kevin Lewis

- Dacula, GA, US
