

LEONARDO GALVEZ

NETWORK ENGINEER

PROFESSIONAL SUMMARY

Dynamic Network Engineer with a proven track record at Ameris Bank, enhancing network performance and scalability through SD-WAN deployment. Expert in Cisco hardware and network troubleshooting, I excel in team leadership and project management, achieving a reduction in downtime while optimizing complex infrastructures. Passionate about continuous learning and innovation.

EXPERIENCE

Network Engineer

March 2020 - October 2024 | Ameris Bank, Atlanta, GA

- Led the deployment of an enterprise SD-WAN solution, improving network scalability and performance across multiple locations
- Spearheaded the enterprise rollout of SolarWinds Orion, improving network monitoring capabilities and significantly reducing downtime
- Served as the Subject Matter Expert (SME) for the IT asset management project, streamlining inventory tracking processes and achieving cost savings
- Designed and managed a high-availability network infrastructure supporting 500+ devices, ensuring consistent uptime and reliability
- Collaborated with cross-functional teams to implement advanced routing protocols and optimize network performance

Healthcare IT Field Technician

August 2017 - March 2020 | Brooksource, Atlanta, GA

- Installed and configured EMR systems across 15 healthcare facilities, improving data accessibility and reducing downtime
- Executed large-scale deployments of desktops, laptops, and printers, ensuring smooth integration with existing infrastructure
- Trained staff on network operations, security protocols, and software usage, improving overall efficiency and user proficiency

Network Administrator

January 2016 - February 2017 | Ventureforth, Inc., Atlanta, GA

- Managed Active Directory, VMware servers, and Windows Server 2008/2012 for 50+ users and 100+ devices
- Configured SonicWall TZ 215 firewalls, Cisco Meraki MS320-48 switches, and Barracuda load balancers
- Oversaw VPN, network event logs, and backup software (Arcserve), ensuring system reliability and security
