

PRIYADARSHINI BELGAUMKAR

#2103, 100th DR SE, Lake Stevens, WA, priya.belgaumkar@gmail.com (425-588-1638)

Employment: I have 15+ years of experience in building distributed, high volume, scalable, enterprise ready **e-commerce** solutions for clients such as Petco.com, Costco Wholesale, T-Mobile, Follett, Lindt, Cencosud, JdSports, Linde, DavidJones, Fastshop, Forever21, Kohls & eBay.

Proficient in JAVA, Spring MVC, Spring Boot Microservices, REST, SOAP, JSP(JSTL), Struts, JavaScript, React, Python, JSON, XML, CSS, HTML, SQL. Well versed with design patterns, Microservices, SOA & MVC architecture. Experience working with AWS S3, Lambda, Jenkins and serverless architecture. Well versed with GIT, JIRA & Agile (SCRUM) methodology. In depth knowledge of IBM WebSphere Commerce **product** V7/V8/V9.

Certifications

- Azure Fundamentals AZ-900
- Infosys Certified Spring Boot Professional
- Infosys Certified Spring Rest Professional
- Infosys Certified Digital Commerce Professional
- Infosys Certified IBM WebSphere Commerce Professional
- IBM WebSphere Commerce Developer Version 7
- IBM WebSphere Commerce Administration Version 7
- Sun Certified JAVA Developer Version 5

Petco.com (Litmus7 Lead Technical Consultant)

Dec 2021-till date

I am working on Petco.com site in the OPS SQUAD team as a HCL Commerce version 8 consultant. I am working in OPS SQUAD team to improve production experience for customers (e.g. PayPal integration, back-end performance improvement for social-sign-on, etc.). I have also developed new features including implementing solr search facet, commerce composer content refresh and search integration with Constructor.

Costco Wholesale (Infosys Technical Architect)

Feb 2020-Sep 2021

I worked on the Verified Me project for Costco Canadian online ecommerce site which consisted of two phases - phase1 was to block customers without memberships from placing orders online, while phase2 was to verify customers using a third-party service called SecureKey. The technology stack is based on **WebSphere Commerce, JSTL, jQuery, SOAP & Rest webservices**. I was part of the user story grooming sessions, technical discussions on design, functional testing & discussion with the external SecureKey team for understanding the verification process. I converted user stories into low level designs, implemented them by modifying JAVA commands, Struts, JSTL, Bootstrap CSS, jQuery and integrating with SecureKey using REST APIs for verification.

T-Mobile (Wipro Technical Architect)**Jan 2019- Feb 2020**

I worked on the development of DASH (Digitally Assisted Sales Hub) application which helps customer service representatives browse rate plans, devices, features, accessories and place orders on behalf of clients. The technology stack is based on **Spring Boot Microservices, IBM WebSphere Commerce V8 B2C, JAVA, REST, SOAP, Redis Cache and Angular**. WCS is used for orders and promotion processing, while Redis cache holds the catalog data displayed on the UI. The UI is a SPA application based on Angular and Spring Boot microservices that communicate with external systems for validation such as credit check, device, SKU, sim, address etc. I worked on the design and **implementation** of creating a new architecture/process for migrating catalog dataload & promotion process by leveraging WCS, Spring Boot Microservices, AWS S3 and Lambda. As part of this **implementation**, I worked on the creation of new WCS commands for dataload(scheduler) & customization of existing order and promotion commands. Apart from this, I also worked on validation of device, SKU, sim, address etc. using spring boot checkout microservice.

IBM Labs, Bangalore (Lead Consultant)**Aug 2016- Sep 2018**

1. **Follett** is an Illinois-based company that provides a variety of educational products to schools, colleges, and public libraries through its subsidiaries. This project is a FOAK migration of B2C site www.bkstr.com from **IBM WCS V7 to V8, V8 to V9**. Headless commerce with UI implemented in Angular, node JS for orchestration, and Adobe AEM as content **management** system. Involved in conversion of legacy WCS code into REST services and **implementation** of new enhancements. Test Driven Development (TDD) approach followed which involved developing unit test cases & soap UI unit test suite first and then developing code. Use of Docker for test environments. **I was responsible for delivery of Member subsystem REST services which included artifacts such as test cases, soap UI unit test suites, design documents & code (REST handlers, commands & data beans). Did hands on development as well as led junior team members.** Features worked on include Financial Aid Accounts, Financial Aid schools, Registration, Address, Password reset, Session, Merge Cart, Save for later.
2. **Lindt** is a Swiss chocolatier and confectionery company which has around 300 stores worldwide and revenue of 3.5 Billion Swiss franc. This project aimed at launching online **B2B/B2C** stores for its brands **Lindt, Ghirardelli & Respective** on **IBM WCS V8** platform for the US geography to increase its online sales. I played a pivotal role in the successful launch of www.ghirardelli.com & www.lindtusa.com. I worked on the design & **implementation** of sales **cloud CRM integration, commerce composer widgets, store locator(jQuery), yotpo ratings, SOLR search features, coupon dataload customization, dynacache, address list (delivery to 1000 addresses) which involved creation of multiple wcs schedulers to name a few.** Also worked on FOAK mod pack migration that required troubleshooting, follow up on PMRs with the **IBM product** team.
3. **Cencosud** is the largest retailer in Chile and third largest retailer in Latin America. (www.paris.cl) is its chain of department stores selling apparel electronics and home furniture

in Chile. The client wanted to migrate its current paris.cl site to **WCS V8** to leverage performance improvements and new features of V8. Delivery of design was owned by **IBM** labs. As a technical lead, I was responsible for successful delivery of macro and micro designs. Worked on design of commerce **composer widgets for PDP, warranty services, payment installments, social sign on gigya integration, SOLR filter query customization, gift registry REST service and shopcart customization.**

Valtech India (Senior Technical Leader)

July 2015 – July 2016

4. **Linde-BOC** The Linde group is a supplier of compressed and bulk gases, chemicals and equipment to large enterprises around the globe. E-channel is its **B2B** site built on **WebSphere Commerce V7 FEP7**, which is used by its enterprise clients to place bulk orders online. I worked as a technical lead, provided solutions to the clients by analyzing new requirements, assessed feasibility of new solutions, and created POCs. Worked on estimation and design documentation, **implementation**, unit testing & defect fixing. Worked on customization of **order enhancements, bazaarvoice integration, dynacache optimization, recurring order (POC) & google analytics.**

IBM Labs, Bangalore (Senior Consultant)

Sept 2010 – July 2015

- Worked on building many high-volume e-commerce and order **management** backend solutions for clients across the globe. Mainly customized **IBM** Smarter Commerce suite of products such as **IBM WebSphere Commerce V7(FEP3 -FEP7)** and **IBM Sterling Order Management System** to create innovative B2C, **B2B** solutions. Involved in client facing projects right from requirement analysis, design, development, testing, to application support and maintenance. Also, was involved in creating proof-of-concept to determine the feasibility of the proposed high-level solution in the earlier stages of the project **lifecycle**. The products used are based on REST, SOAP, SOA, JSTL, JAVA, EJB, Struts, JSP, XML and Object-Oriented Methodology. During my tenure at **IBM** worked for clients such as **www.kohls.com(OMS)**, **www.davidjones.com(WCS V7)**, **www.jdsports.com(WCS V7)**, **fastshop.com.br (WCS V7)**, **forever21.com(WCS V7)**.
- Besides handling projects, presented sessions in various public technical forums such as **IBM** ISTC 2017, **IBM** Tech Forum 2012, delivered training sessions on **IBM** WebSphere Commerce V7, V9 micro services.

MindTree Ltd. (Senior Engineer)

Sept 2006 - Sept 2010

- **eBay.com (eBay, USA):** Worked as a Developer on enhancements to Feedback System, 'Sell Your Item'(SYI) flow, 'Cross Border Trading' feature.
- **www.avis.com (Avis, USA):** Worked as a Technical Lead on 'Prepay' feature which encourages clients to prepay while renting cars from www.avis.com site.

Additional Experience and Awards

- **Manager's** choice award for successful Ghirardelli launch 2017
- Conducted a lab session on **IBM** WebSphere Commerce XC microservices in ISTC, 2017.
- **IBM** Technical Eminence Award 2012

- Presented 'e-bazaar' at IBM Tech Forum 2012. This is a B2C ecommerce solution developed by tailoring IBM WebSphere Commerce to Indian retail markets.
- Presented Session on Integration of IBM WebSphere Commerce and IBM Sterling Order Management System on the World-Wide WebSphere User Group in 2012.
- MindTree Spot Award 2008 for client eBay.com(marketplace)

Education

- Bachelor of Engineering - Computer Science Major (Sept 2002 - June 2006), VTU Belgaum.
