I am a **software** engineer and leader. I have experience working across teams to build elegant and effective user interfaces and robust, well-organized back end services. I am continually learning about cutting edge technologies, and I am committed to building **software** that solves real problems.

Technical Skills: JavaScript, **Node.js**, **React.js**, Redux, Angular.js, Express.js, D3.js, jQuery, C#, NuGet, .NET Core, Docker, Kubernetes, MongoDB, PostgreSQL, Leaflet, HTML, CSS, SASS, Git, Mercurial, TDD, Visual Studio, Team Foundation Server, SharePoint, Python, Java

Experience:

Software Engineer – Donnelley Financial Solutions, Bellevue, WA – April 2018 to December 2019

- Built **React** front end pages for product login and setting up federated login
- Worked on setting up federated login for our customers using Auth0 and integrating our modernized **authentication** and authorization system **with** SharePoint and our existing Azure Active Directory LDAP server
- Set up a four **node** Kubernetes cluster for local development
- Learned C# and Visual Studio to deliver bug fixes for ActiveDisclosure's legacy services
- Reviewed and cleaned up all documentation for ActiveDisclosure, established standard for minimum level of documentation for services, and collaborated across teams to compose and publish documentation for every core service
- Seen as a leader and effective communicator and worked across teams for many projects

Front End Developer (contract) – Wunderman Seattle, Seattle, WA – October 2017 to Feb. 2018

- Built 2-3 client email campaigns per week using quick turn templates achieving a **high** on time delivery rate
- Built quick turn email templates for new clients and new business segments
- Contributed to building the responsive front end of the Xbox Year In Review 2017 landing page

Front End Developer (contract) – Distelli Inc., Seattle, WA – July 2017 to September 2017

- Built and deployed new **React** front end components and features from spec sheets, working collaboratively **with** designers, back end engineers, and product managers
- Built custom Redux style reducers for state **management**
- Deployed bug fixes found in existing front end features, and refactored code of previously built components
- **React.js**, Yarn, Mercurial, Distelli

Principal Software Engineer and Founder – MyCEU, Seattle, WA – February 2017 to July 2017

- Built back end system to generate and track CEU credits and certificates
- Built front end mobile first application **with React** Native and Redux
- Using **Node.js**, Express, Docker, PostgreSQL, **React** Native, Redux

Software Development Engineer (contract) – Integris Inc., Seattle, WA – August 2016 to Sept. 2016

- Built an email verification, account registration, password reset, and email messaging system, **with** thorough unit and **integration** tests
- Used **Node.js**, Docker, MongoDB, and Express

Education:

- Code Fellows, Seattle, WA
 - Certificate in **Full-Stack** JavaScript Development, 2015
- University of Washington, Seattle, WA
 - BA Philosophy, 2008 – 2012
 - Lavin Fellow in the Lavin Entrepreneurship Program

Summary

I am a **software** engineer and leader. I focus on working across teams to build elegant and effective user interfaces and robust, well-organized back-end services. I am continually learning about cutting edge technologies, and am committed to building **software** that solves real problems and makes the world a better place. For the last year, I pursued a lifelong passion for buses and transit and worked as a city bus driver for MTS. I learned many lessons driving the bus and serving the public and will carry them **with** me into my next **software engineering** job and into the rest of my life.

Work History

Total Work Experience: 12 years

- **Alternate Clerk San Diego Metropolitan Transit System**
Feb 01, 2024
- **Bus Operator San Diego Metropolitan Transit System**
Feb 01, 2023
- **Student Bus Operator San Diego Metropolitan Transit System**
Dec 01, 2022
- **Dev Ops **Software** Engineer Wizards Of The Coast**
Feb 01, 2021

- **Software** Engineer Donnelley Financial Solutions
Apr 01, 2018
- **Front-End Developer** Wunderman Seattle
Oct 01, 2017
- **Front-End Developer** Distelli
Jul 01, 2017
- **Principal Software** Engineer And Founder Myceu
Feb 01, 2017
- **Software** Development Engineer Integris **Software** Inc
Aug 01, 2016
- **Javascript TA Code Fellows**
Jan 01, 2016
- **Special Education Paraeducator** Chautauqua Elementary School
Jan 01, 2015
- **Founder Caldwell & Spencer Bespoke**
Feb 01, 2014
- **Marketing Intern** Docusign
May 01, 2013

Education

- **Bachelors** | University of Washington
- **Code Fellows**
