

Tesfahun Berhanu

Senior Software Engineer

Atlanta, GA

(404) 477-4086

tberhanu@berkeley.edu

OVERVIEW

- Six years of experience in solving real life problems via efficient design and implementation of scalable microservices architectures, RESTful APIs, and GraphQL endpoints.
- Experienced Backend Engineer, effective usage of Data Structure and Algorithm, System Design, Designing Patterns, OOP, SQL and NoSQL databases, Apache Kafka, AWS, and automation tools.
- Experienced Integration Engineer using MuleSoft Technology.
- Proven track record of optimizing system performance, and enthusiastic to learn new technologies.

EXPERIENCE

AT&T, remote—Software Engineer

Sept 2024 - To Date

- Migrating legacy code to modern language and frameworks.
- Admin role for Native Kafka, Confluent Platform, Confluent Cloud and Azure Event Hubs.
- Participate in junior developer training, code review and documenting best practices.

Bank of America, remote—Software Engineer

April 2021 - Sept 2024

- Designing and Developing efficient and scalable Alert Framework for the Internal Chatbot with high availability and minimal latency.
- Web scraping and automating quarterly financial reports of more than 40 plus Financial Institutions.
- Automating tedious manual process of production release using Selenium and Python Script which minimizes the manual effort by 60%.
- Implementation of a real-time data processing pipeline using Apache Kafka, enabling the analysis of 1 million events per second and driving a 30% increase in user engagement.

SKILLS

Designing, Developing, Optimizing, Testing, Debugging, Deploying, CICD Delivery, OpenStack, OpenShift, AWS, Azure, SQL, NoSQL, redis, Elasticsearch, Terraform, Grafana, MuleSoft, Prometheus, Splunk, Docker, Containerization, Airflow, Kubernetes, Kafka, Messaging Router, Confluent Platform, Confluent Cloud, Event Hubs, Linux, Automation Technology, Full Stack Engineering, OOP, Structural Programming, Salesforce Integration Engineering, System Design, Design Patterns, Machine Learning & Data Science.

LANGUAGES & FRAMEWORKS

Python, Java, Dataweave, Ruby, C, C++, Django, Flask, FastAPI, Spring Boot, Ruby On Rails, Selenium, HTML, CSS, JavaScript.

Cisco, San Jose — Software Engineer

Dec 2018 - Aug 2020

- Developing fast and reliable Security Software, Guardrails, for OpenStack and OpenShift clients all over the world company branches.
- Architected and implemented a cloud-native, microservices-based platform using Dockerization and Kubernetes, resulting in a 40% reduction in deployment time and 99.999% uptime for critical services.

EDUCATION

University of California, Berkeley, CA. — Bsc. Degree

Electrical Engineering and Computer Science (EECS)

Tesfahun Berhanu

- Atlanta, GA, US
