

BRIAN FRAZIER

Dallas, TX | 720-837-8099 | briankf@gmail.com

Professional Summary

Seasoned **software testing** and **automation** professional with extensive experience in designing and implementing comprehensive test **automation** frameworks to enhance **software** quality and efficiency. Proven expertise in developing **automated** test scripts, Greenfield projects, streamlining **QA** processes, and applying CI/CD practices to reduce time-to-market. Collaborative team player with strong communication skills, adept at working with developers, product managers, and stakeholders to align **testing** strategies with business goals.

Professional Experience

First Bank – Lakewood, CO

Automation Analyst Lead

Nov 2022 – Present

- Developed a robust client API **testing** suite for the WireTransfers Payments system, validating Kafka message streams.
- Streamlined **testing** processes
- Created and executed Java (Rest Assured) **Automation framework**, Playwright (**JavaScript**), integrated with Jenkins, GitLab, and SonarQube.
- Validated APIs using real and mocked data.
- Conducted manual/**automated** tests using Postman scripts/collections, and Swagger for API/schema validation.
- Collaborated with **Delivery** Teams and **Testing** Centers of Excellence to devise policies and best practices, and **integration testing**.
- **Automated** SQL queries to validate front and back in data for accuracy.
- Debugged API and Kafka errors using DynaTrace logs.
- Conducted release performance **testing** using JMeter.

Engine – Denver, CO

Senior Software Automation Engineer

Apr 2021 – Nov 2022

- Built and enforced an **automation testing framework** for Hotel Engine's **web** portal using Selenium WebDriver IO, Mocha, Chai, Axios, Playwright, and TypeScript/**JavaScript**.
- **Automated** SQL queries to validate front and back in data for accuracy.
- Optimized test suite performance and reduced test failures from 230 to 0 by tuning CircleCI containers.
- Validated APIs using real and mocked data.

- Integrated CircleCI, TestRail, GitHub Actions, and Slack Bots into the **framework**.
- Tested data integrity within AWS S3
- Conducted release performance **testing** using JMeter.

Angi – Denver, CO

Software Test Engineer

Apr 2019 – Apr 2021

- Developed **automation testing** frameworks for **web** and RESTful API/Microservices using Selenium, TypeScript, Mocha, Playwright, and Cypress.
- **Automated** SQL queries to validate front and back in data for accuracy.
- Built and maintained end-to-end **automation** frameworks integrated with Jenkins.
- Tested data integrity and performance within AWS S3
- Enhanced code quality through peer code reviews and feedback.
- Conducted release performance **testing** using JMeter.

Apex Systems (Client: Raytheon) – Colorado Springs, CO

Automation Test Engineer Consultant

Nov 2018 – Apr 2019

- Improved **automation** infrastructure and increased **testing** coverage by reviewing and enhancing test procedures.
- Collaborated in daily Scrums to ensure alignment with project timelines and objectives
- **Automated** SQL queries to validate front and back in data for accuracy.
- Developed and maintained **automated** test scripts using Cucumber, EggPlant, Java, TestNG, and JUnit, ensuring repeatable and consistent results.
- Streamlined **testing** processes, driving efficiency and reducing **testing** cycle time.

Angi – Golden, CO

Load and Performance Engineer

Mar 2016 – Nov 2018

- Designed and deployed load **testing** frameworks for RESTful API/Microservices using Node.js and BenchRest, saving results to a MongoDB.
- **Automated** SQL queries to validate front and back in data for accuracy.
- Migrated Selenium Java regression tests to NightWatchJS and maintained the **framework**.
- Created a reporting portal that displayed results from the DB.
- Created UAT tests using CasperJS

Qwinix Technologies (Client: Dish Network – SlingTV) – Englewood, CO

QA Automation Engineer Consultant

Jan 2016 – Mar 2016

- **Automated** smoke tests and other test cases using Selenium, Maven, Applitools, Cucumber, and Jenkins.
- Created SDLC artifacts, including test plans, defect reports, and test progress reports.

Adtheorent – Jacksonville, FL

Senior **QA** Analyst

Jan 2015 – Dec 2015

- Established **QA** processes and conducted various **testing** types, including sanity, system, and regression **testing**.
- Tested data integrity within AWS S3
- Built an **automation framework** using Selenium WebDriver IO and shell scripts.

Additional Experience

- **Payspan (now part of Zelis) – QA Analyst II (2014 – 2015)**
- **Interactive Resources** – Performance Test **Engineer** Consultant (2013–2014)
- **Jeppesen** – Senior **Software** Test **Engineer** (2009–2013)
- **Lockheed Martin** – Staff **Software Engineer** (2008–2009)
- **Symantec Corporation** – Senior **Software** Test **Engineer** (2001–2008)
- **Quris, Inc.** – Senior **Software** Test **Engineer** (2000–2001)
- **Abacus-Direct Corporation** – Junior **Software** Test **Engineer** (1999–2000)
- **Excel Professional Services, Inc.** – **Software** Test **Engineer** Consultant (1997–1999)

Education

Bachelor of Science in Electrical Engineering

Southern University, Baton Rouge, LA

Technical Proficiencies

Technologies

JAVA | **JavaScript** | TypeScript | SQL | Python | CasperJS | Junit | TestNG | Selenium WebDriver IO | NodeJS | Mocha |Cucumber | Vue.**js** | Cypress | Playwright | XCUI Test | EggPlant | Applitools | Maven | and Gradle

Operating Systems

UNIX | AIX | Windows (Various flavors) | LINUX | and MAC OS

Interfaces/IDEs

X-Windows | Open Windows | Common Desktop Environment | Xcode | Appium | Eclipse | IntelliJ Idea | WebStorm | VSCode | SQL Developer

Applications

Microsoft Office Suite (all versions) | FrameMaker | ClearCase | Perforce |
Rational Visual Test | Silk Performer | Radview WebLoad | HP Quality Center |
JIRA, QuickTest Pro | Rational Performance Tester | JMeter | LoadRunner |
Microsoft SQL | Git Hub | Bamboo | Circle CI | and Jenkins
