

Cathrin McDougall, PSM, PSPO

San Antonio, TX | 512-534-6530 | cathrinmcdougall@pm.me | [Linkedin-cathringordonmcdougall](#) | [GitHub-catatwork217](#)

SUMMARY

Scrum-certified **Product Owner** and Scrum Master with a background spanning business analysis, QA, UX, and **product** strategy. I lead cross-functional teams to deliver scalable, API-driven solutions that balance infrastructure growth with user impact. Passionate about continuous **learning**, team collaboration, and using AI and automation to optimize how we build.

TECHNICAL SKILLS

Cloud & API Platforms: AWS (Cognito, S3, IAM, AVP), Azure, RESTful APIs, Postman [v11]

Agile & DevOps: Scrum, SAgile, Jira, Azure DevOps, Confluence, PI Planning, Kanban, CI/CD pipelines, Backlog ownership, Stakeholder alignment, cross-functional facilitation, Sprint Planning, Sprint Review

Data & Infrastructure: MySQL [5.7, 8.0], Ubuntu Linux [19.04, 24.04], Windows 7,10, 11, VirtualBox [7.0.10], GitHub, GitLab

Observability & Compliance: KnowBe4, Data Security, HIPAA, SOC 1, SOC 2, WCAG [2.2], PTES, Pendo [2021-current], DR playbooks, SLA

Documentation & Governance: Disaster Recovery (DR), Upgrades (dB, platform), Backend SOAP & SFTP processes, DevOps playbooks, Release Management

Authentication & Implementation: Cognito, SSO, MFA, RBAC, ABAC, ERP-to-user mappings, Pendo

Programming & Automation: Python [3.x], Bash [4.4, 5.2], Vim [9.1], cron, Prompt Engineering, GPT [3.5, 4, 4o, o1, 4.1], GPT API, Notion API, Zapier, Whisper, Polly

Enablement: User demos, Feature Flags, Training modules, Agile transformation leadership

EXPERIENCE

Altumint, Inc. — Technical **Product Owner**, Scrum Master, Agile & Documentation Strategy

Public Safety Tech Solutions | Automated Traffic Enforcement & Vehicle Recognition Suite

Remote · Oct 2024-Present

- **8 engineering teams transitioned to Agile & Scrum delivery** by defining operating models, team ceremonies, and velocity benchmarks, accelerating cross-team alignment.
- **337% boost in delivery velocity over five sprints** by optimizing backlog scope, resolving blockers, and realigning roadmap priorities to improve execution focus.
- **Future-state permissions framework** for 3 models (ERP mappings, ABAC, federated auth) mapped and documented to guide SSO/Cognito rollout and align backlog with long-term access control strategy.
- **3 backend process flows** (Event ingestion, plate lookup processes) mapped to support AWS migration planning and enable infrastructure readiness for cross-jurisdiction scalability.

symplr — **Product Owner**, Scrum Master, Pendo Strategy & Time Clocks Integration

Healthcare | Healthcare Operations [GRC, Payer, Provider, Credentialing, Workforce, Enterprise]

Remote · Oct 2024-Oct 2024 (Contract-to-hire as of 01/22)

- **Enabled API interoperability** by translating functional requirements and business use case into User Stories in partnership with cross-pillar Engineering and leadership to resolve blockers and meet increment delivery target.
- **Devices GTM milestones achieved** by managing Time Clocks backlog, sprint/PI delivery, and aligning go-to-market readiness with cross-functional release planning.

- **43 device releases** delivered on a bi-monthly cadence by orchestrating Go/No-Go execution and cross-functional readiness, enabling stable hardware-**software deployment** across enterprise customers.
- **60 mobile service releases** executed through CI/CD pipeline optimization and Kubernetes migration, decoupling backend services (platform, device registration, notifications) to improve **deployment** speed and scalability.
- **100% of critical vulnerabilities** remediated by collaborating with SecOps and Engineering following pen test findings across device back-end infrastructure.
- **Owned Mobile & SaaS **product** backlog for WCAG compliance** by partnering with Engineering, Accessibility testers, UI/UX and leadership to set expectations and align on target delivery.
- **2 **product** lines** integrated with Pendo, enabling real-time user feedback loops and driving data-informed feature adoption.
- **4 major frameworks** (Yocto, Chromium, Node.js, Angular) upgraded on cadence with enterprise LTS cycles, resolving tech debt and reducing versioning risk.
- **3 **learning** modules developed** to onboard and train cross-functional stakeholders in Pendo & Time Clocks new **product** line.

EDUCATION

Rutgers University at New Brunswick - BA - 2011

University of Illinois at Urbana-Champaign - MA - 2015

CERTIFICATIONS

Certified Scrum **Product Owner** (PSPO I)

Certified Professional Scrum Master (PSM I)

AI Engineering - IBM "in-progress"

Linux Administration - Linux Foundation "in-progress"

Summary

Cathrin is a results-driven and adaptable **Product** Management professional with a proven track record of over 3 years in spearheading SAFe initiatives to optimize Agile methodologies and establish Program standards. She excels in advancing **product** roadmaps and achieving company-wide objectives. Cathrin's expertise lies in driving feature adoption of tools like Pendo and harnessing her proficiency in ADO, Power BI, Jira, map.io, and Excel to create impactful solutions that provide value to both teams and stakeholders. With a strong passion for delivering superior outcomes, she consistently delivers results and exceeds expectations.
