ABOUT ME

As an accomplished **Quality** Control Analyst, I bring proven **leadership** abilities and a strong track record of collaborating effectively with teams in dynamic enterprise environments. I am seeking a challenging position that will allow me to enhance my current **skills**. Known for my reliability and resilience, I consistently maintain a positive attitude and demonstrate a keen ability to learn quickly. Let's connect to explore how my expertise can contribute to your organization's success.

EXPERIENCE

QUALITY CONTROL ANALYST II

RoslinCT | Hopkinton, MA | Oct 2022 – Dec 2024

- Performed **quality** and analytical testing for the release of starting samples, raw materials, and finished products, ensuring adherence to industry standards.
- Executed daily purchase orders for raw materials, ensuring timely procurement and uninterrupted production.
- Reviewed Certificate of **Analysis**, **Quality**, and Production to guarantee **compliance** and optimal material disposition.
- Investigated inventory discrepancies, addressing deviations and non-conformances to enhance accuracy and reliability.

ANALYTICAL CONTROL ANALYST II

Repligen | Waltham, MA | Aug 2016 – Sep 2022

- Conducted rigorous testing of water samples in a manufacturing laboratory following production processes, ensuring quality compliance.
- Engineered customized columns tailored to client specifications, adhering to USP guidelines for optimal performance.
- Executed comprehensive system validation (IQ/OQ/PQ), along with effective calibration and preventive maintenance plan for equipment and instruments.
- Maintained electronic and paper-based records of inspection results, test methods used and other relevant information regarding quality activities.

SENIOR QUALITY CONTROL TECHNICIAN

Thermo Fisher | Bedford, MA | Sep 2014 – Aug 2016

- Conducted comprehensive analytical quality control testing on raw materials, in-process, and final products to ensure compliance and readiness for release.
- Spearheaded validation, calibration, and preventive maintenance of laboratory equipment and instrumentation, enhancing operational efficiency and capabilities.
- Championed environmental health and safety initiatives by applying ISO 14001, OSHA 18001, and sustainability principles in daily operations.
- Proactively engaged in self-development activities to enhance skills and expertise in quality control.

QUALITY CONTROL CHEMIST (CONTRACT)

Anika Therapeutics | Bedford, MA | Nov 2013 – Jul 2024

- Conducted routine Analytical Quality Control testing of in-process and final products, ensuring compliance with cGMP/cGLP standards for timely release.

- Diligently documented lab events, including deviations, incidents, and investigations, to maintain rigorous quality assurance protocols.
- Coordinated comprehensive validation, calibration, and maintenance of laboratory equipment, including UV/VIS Spectrophotometer, Viscometer, pH Meters, and balances, to uphold operational excellence.

EDUCATION

BACHELOR OF ARTS | Thomas Edison State College | Trenton, NJ | Biochemistry | 2001

SKILLS

Materials Inspection | Sampling procedures ASQ/AQL/ANSI | Product Inspection | Corrective Actions | ISO Standards | Inventory Management | Validation | Calibration | Preventive Maintenance | MS Office Suites | POMS | NetSuites | Internal Audits
