

CRISTIAN J. AMARO

(787) 241-8507 | cristianamaro7@outlook.com | linkedin.com/in/cristian-amaro-burgos-64815816a/

Covington, Georgia, USA

TECHNICAL SKILLS

- Full-stack **web** development, REST **Web** API, Microservices, Database **design**, Unit testing, Agile SDLC
- Proficient in C#, **.NET** Core/8+, **ASP.NET MVC**, **EF** Core, LINQ, **SQL Server**, JavaScript, TypeScript
- Experienced with Razor/Blazor, **React/Redux**, **HTML5/CSS3**, GitHub, OAuth/JWT, MongoDB, **jQuery**
- Working knowledge of **Azure** (App Service, DevOps, **SQL**, Functions, Key Vault, Storage), Dapper ORM

PROFESSIONAL EXPERIENCE

Full-Stack **Web Developer** | Universal Background Screening - Remote **May 2023 - Current**

- Implemented two-factor authentication to the main identity verification portal, with OAuth, **.NET** 8, **EF** Core, and a third-party messaging API, adding an extra layer of security to reduce potential fraud
- Successfully delivered a drug screening clinic finder MVP on a tight deadline, translating **design** specifications into a fully functional responsive **interface** that received client approval for further development, using **ASP.NET** Core **MVC**, Entity Framework, Bootstrap, **SQL Server**, and **jQuery**
- Followed a Test-Driven Development (TDD) approach, leveraging Kubernetes and **Azure** for container orchestration and API **management**, supporting multiple microservices that process background screening and drug testing **information** for thousands of users within an Agile/Scrum framework

Software Engineer | NativoPlus - Remote **Oct 2018 - Apr 2023**

- Implemented a full-stack file upload feature, with chunking and validation, for an insurance claims record-keeping system using **React**, Redux Toolkit, TypeScript, and **.NET** Core. Built API endpoints, configured an **Azure** Blob Storage resource, and created tables and stored procedures in **SQL Server**
- Developed a search engine for birth professionals with filtering capabilities by service and location, leveraging Elasticsearch and designing a mobile-first **UI** using the Blazor **Server** front-end framework
- Built an event-driven serverless function, implementing task-based async **programming** and resiliency patterns, that simplified the process of creating a marketing analytics report displaying product exposure in email newsletters published each month, to determine the company's marketing influence
- Led a cross-functional team in the development of an **ASP.NET** RESTful **Web** API, and the **design** of its database schema, used to process UCC filing legal **documentation** for a FinTech Credit Union in CA
- Refactored the payment processing functionality of a birth preparation app, using **React**, Redux Toolkit, TypeScript, and MongoDB to comply with a European law that would impact the company's revenue if left unchanged, having over 50,000 **active** users in different countries, including USA, UK, and Brazil
- Configured multiple CI/CD pipelines, with YAML, for Microservices and databases in **Azure** DevOps

.NET Developer | DXC Technology - Isabela, PR **Feb 2017 - Sep 2018**

- Collaborated in the full-stack development of an **ASP.NET** Core **MVC** app that automated IT cost tracking by consolidating and processing hundreds of spreadsheets, streamlining a cumbersome task

Internship | Department of Justice - San Juan, PR **Sep 2016 - Feb 2017**

Internship | CIA Directorate of Digital Innovation - Langley, VA **May 2016 - Aug 2016**

Internship | CIA Directorate of **Science** and Technology - Langley, VA **Aug 2015 - Nov 2015**

EDUCATION

Inter American University of Puerto Rico - San Juan, PR

Master of **Science**; Open **Information Systems**, 3.90 GPA

- Designed an **appointment scheduler web** app MVP for a gastroenterology business in Puerto Rico, leveraging Blazor **Server**, **ASP.NET** Core, Role-based authorization, Entity Framework, and **SQL Server**

Polytechnic University of Puerto Rico - Hato Rey, PR

Bachelor of **Science**; Major in **Computer** Engineering, 3.71 GPA

Work History

Total Work Experience: 8 years

- Full-Stack **Developer** Universal Background Screening
May 01, 2024
- **Software** Engineer Nativoplus
Oct 01, 2018
- **.NET Developer** DXC Technology
Feb 01, 2017

Education

- **Bachelors** | Polytechnic University of Puerto Rico
- **Masters** | Inter American University of Puerto Rico

Skills

- **.net** framework - 8 years
- **asp.net** - 8 years
- **asp.net mvc** - 8 years
- **bootstrap** - 8 years

- **c#** - 8 years
- **cascading style sheets** - 8 years
- **database design** - 8 years
- **entity framework** - 8 years
- **full stack development** - 8 years
- **git** - 8 years
- **html** - 8 years
- **javascript** - 8 years
- **jquery** - 8 years
- **json** - 8 years
- **language integrated query** - 8 years
- **microsoft sql server** - 8 years
- **structured query language** - 8 years
- **unit testing** - 8 years
- **web development** - 8 years
- **.net core** - 6 years
- **agile** - 6 years
- **devops** - 6 years
- **docker** - 6 years
- **microsoft azure** - 6 years
- **scrum** - 6 years
- **microservices** - 5 years
- **oauth** - 5 years
- **blazor** - 6 years
- **linux** - 6 years
- **mongodb** - 6 years
- **node.js** - 6 years
- **typescript** - 6 years
- **amazon web services** - 5 years
- **api management** - 5 years
- **elasticsearch** - 5 years
- **postgres** - 5 years
- **react** - 5 years
- **redis** - 5 years
- **redux** - 5 years
- **sql server reporting services** - 5 years

Work Preferences

- Desired Work Settings: Remote
- Likely to Switch: True
- Willing to Relocate: False
- Travel Preference: 0%

- Work Authorization:
 - US
- Work Documents:
 - US Citizen
- Security Clearance: False
- Desired Hourly Rate: 40+ (USD)
- Desired Salary: 85,000+ (USD)
- Third Party: False
- Employment Type:
 - Full-time
 - Part-time
 - Contract - Independent
 - Contract - W2
