

David Gorin

Acworth, GA 30102 | 678-524-0120 | david.s.gorin@gmail.com

Summary

- Dynamic, results-oriented professional with 25+ years of experience.
- Unique blend of proven **technical** expertise with strong **organizational** and managerial **skills**.
- Application and **Infrastructure Technical Architect** that can **code**/build anything he designs either as a team leader or individual contributor.
- Unbroken history of successfully delivering mission critical business solutions to the e-commerce, **software**, IoT, financial, medical, scientific, utility, telecom, manufacturing, big data and entertainment/media communities on **cloud**, hybrid cloud, virtualization or bare metal.

Skills and Expertise

- AWS | 10+yrs
- **Java** | 26yrs
- IaC | 9yrs
- SDLC | 23yrs
- GCP | 5yrs
- **Python** 6yrs
- Containerization | 6yrs
- IoT | 5yrs
- Salesforce | 10yrs
- C/C++ 17yrs
- 12 Factor | 27yrs
- **Leadership** | 33yrs
- **Security** and **Compliance** (HIPAA, FISMA, SOC, ISO, GDPR/CCNA, PCI, CIS) | 15yrs
- **Cloud** Native and AWS Well Architected app development | 10yrs
- SRE Transformations | 7yrs
- Infra for ML/**Analytics** | 7yrs
- Mentoring/Up-skilling | 33yrs
- Cost Containment | 9yrs

Certifications

- AWS Solutions **Architect** Professional
- AWS Big Data Specialty
- AWS Certification Subject Matter Expert
- Docker Developer
- AWS **Machine Learning** Speciality - coming 5/25
- AWS **DevOps** Engineer Professional
- AWS Developer Associate
- AWS Solutions **Architect** Associate
- GCP **Architect** Professional - coming 6/25

Experience

SENIOR CLOUD INFRASTRUCTURE ARCHITECT | 11/2022 - present

Verizon Business (contract through Dexian)

- Presentations on design considerations and integrations to upper **management** and engineers.
- Analyze 3rd party products for **integration** into Verizon **security** and multi-**cloud** product lines.
- **Build code examples and production IaC for custom network management in AWS, Azure and GCP using Terraform, Python3 and GitLabCI.**
- Advise engineering teams on **cloud best practices**.
- Create **Terraform/Python/GitLab-CI** jobs to simplify private connectivity for all 3 major CSPs.
- Work with vendors and teams to design and build test harnesses that simulate real-world conditions.

SENIOR DEVOPS ENGINEER | 11/2021 - 11/2022

Clearwave Corporation

- Presentations on **cloud** native **infrastructure** and SaaS app design to upper **management** and developers.
- Creates business cases for specific **technologies** and methodologies.
- Guides developers on 12 Factor, containerized and **cloud** native techniques.
- **Designs and implements cloud infrastructure via Terraform, Python3 and AzureDevOps (DirectConnect, VPN, SSO, ECS, artifact repositories, cloud migrations, 3rd party interfaces, ASGs, security...)**
- **Creates POCs of container strategies to move C#.NET monolith to .NET Core micro services using EKS and ECS.**

SENIOR ENGINEERING MANAGER | 06/2021 - 10/2021

NCR Digital Banking

- Designed and implemented squad model and ticket/project **management** process for all of SRE.
- Organized squads and assigned leaders.
- Redesigned entire ingress model, including Kubernetes (GKE) to compensate for GCP networking gaps (CloudFlare, GCLB, GKE, nginx ingress controllers).
- Designed and wrote all the utilities used to migrate banks from on-premise, fail them over and enable/disable features in CloudFlare (Python3)
- Took over entire SRE department when manager departed suddenly (40+ employees and contractors).
- Implemented **Architecture** Review Board with **Infrastructure** and **Enterprise** architects to centralize design approvals and gain economies of scale.

SENIOR CLOUD ARCHITECT | 11/2020 - 06/2021

First Republic Bank (contract through Taos Mountain)

- **Architect** and Product Owner for AWS AMI CI/CD pipelines (Jenkins/Spinnaker) including promotion approvals and inline **security** testing.
- Coach teams to integrate agile processes in **DevOps**.
- Report directly to CIO.

- Form and up-skill new SRE team.
- Utilize Spinnaker for custom **machine** image and container building and support inline **security** scans.
- Assist Ansible and Ansible Tower team in zero-downtime **deployment** of script fixes after an error was propagated to 140+ servers.

SITE RELIABILITY ENGINEERING LEAD | 01/2020 - 11/2020

Equifax Data Fabric - Keying and Linking

- Manage a team of 6 engineers.
- Spearhead **compliance**, including FedRAMP/FISMA-moderate.
- Implement **code** for inline **compliance** checking (Python3, Boto).
- **Architect** and implement fault tolerance and **high availability** for my segment and assist other segments in **best practices** and techniques to meet business SLAs.
- Mentor developers and SRE's on **cloud** and **high-performance** computing concepts.
- Develop and implement standards for logging, SLA tracking, audit and monitoring.

TECHNICAL PRINCIPAL | 12/2018 - 12/2019

Contino

- Project for Verizon Business - AWS/Kubernetes **migration** for 6 on premise, monolithic applications for a major telecomm company.
 - Managed a team of 5.
 - Worked with teams to create **cloud** native architectures for each app.
 - Designed and helped build shared **services** (centralized logging [ELK], Federated IdAM, CI/CD pipelines for both IaC and applications).
 - Worked with **compliance** team to translate **security** requirements into **cloud** implementations.
 - Designed governance gateway to integrate **compliance** checks into build pipelines.
- Project for DealerTrack (Cox Automotive) - **Code quality analysis** and **improvement** and non-prod environment dynamic configuration for one of the largest auto dealer SaaS companies in the US.
 - Managed a team of 7.
 - Performed full SDLC assessments for two of the ten engineering teams.
 - Worked with **DevOps** team to automate environment **management**.
 - Taught **best practices** to teams for defensive **programming**, branching/merging strategies, test coverage and input validation.
 - Worked with Q/A for configuration **management** automation of test environments.

CLOUD SOLUTIONS ARCHITECT | 01/2018 - 12/2018

TekStream Solutions

- Project for Chick Fil A - AWS Cost Optimization for a major fast food corporation
 - Built custom tooling to analyze **infrastructure** utilization and identify areas of concern.
 - Conducted interviews with key teams to identify apps that were not properly leveraging **cloud** resources.
 - Made recommendations, supplied tools and mentoring to allow **customer** personnel to effectively reduce costs.
- Project for MarketingOne - Design and script (**Software** Defined **Infrastructure**) production grade, scalable, fault tolerant Kubernetes cluster in AWS without using EKS due to **customer** requirement

- Determined **best** technology stack options and presented them to **customer** with pros/cons for each.
- Tested resulting cluster for optimal fit to their requirements.
- Wrote a template engine and associated kops and **Terraform** templates to generate cluster from a standard **Java** properties file.
- Documented the tools and procedures to maintain clusters including deployments and modifications.
- Project - AWS **Cloud** Audit for a small marketing firm
 - Reviewed all **security** and **infrastructure** for AWS **best practices**.
 - Wrote up findings and provided recommendations and mentoring for remediation of **problem** areas including a stepwise approach to make progress with very limited personnel.
- Project - Training and Mentoring
 - Created and presented numerous Lunch and Learn sessions on AWS topics for TekStream **Delivery** personnel.
 - Created training materials and student exercises for custom AWS **Cloud** Practitioner Certification for a large **customer**. Materials emphasized their **best practices** and favored AWS products.
 - Frequent speaker at AWS Atlanta.
 - Taught Internet **Security** and **IT** Career Options at a local **high** school.
- Project for **State** of Florida - Migrate **state** retirement portal from datacenter to AWS
 - Designed the complete AWS **infrastructure**.
 - Worked with stakeholders to map out lift and shift and future **cloud** first strategies and costs.
 - Assisted with the actual **migration** of the **database** (**Oracle** 12c) and app servers.
 - Created and implemented mandated disaster recovery logic and procedures.
- Project - TekStream AWS **Infrastructure**
 - Responsible for the design and implementation of all TekStream **infrastructure** in AWS including **security**, cost containment and SOC I and SOC II **compliance**.

CLOUD SOLUTIONS ARCHITECT | 12/2016 - 12/2017

The Weather Company - an IBM business

- Responsible for **cloud** first app **architecture** and cost containment for the entire **enterprise**.
- Provided recommendations and mentoring to development, **analytics** and **DevOps** teams.
- Provided cost optimization tooling and processes that cut AWS spending in half in less than 6 months.

LEAD CLOUD ARCHITECT | 06/2016 - 11/2016

Chick Fil A Corporate (contract via TekSystems)

- Designed and built near real time stream loader from DynamoDB tables to RedShift (DynamoDB, DDB Streams, KCL, Redshift, S3, **Java**).
- Created processes and automation for deploying mission critical apps to specific **availability** zones and regions (AWS CLI, AWSConfig, JSON, custom environment **analysis** applications, AWS Linux).

LEAD CLOUD ARCHITECT | 04/2016 - 06/2016

Candid Partners

- Project for CocaCola - Designed and built real-time streaming producer and consumers for **RESTful** API calls of the CCNA consumer gateway (Kinesis, KPL, KCL, **Java**).
- Project for CocaCola - Created log files to S3 archiving process (logrotate.d, SED, AWS S3Client, AWS Linux)

- Project for Kind Bars - Evaluate **security** posture of their **cloud infrastructure** and recommend remediations.

CLOUD AND AWS ARCHITECT | 03/2015 - 03/2016

Teradata Marketing Applications

- Assisted **software** teams in architecting solutions for **Amazon Web Services**.
- Defined standards.
- Created ROI presentations for utilizing AWS components versus traditional datacenter.
- Created proof of concept projects for utilizing AWS and other public/private **cloud technologies**.
- Researched and recommended **best practices** for utilizing **cloud** for application development, **deployment** and support.

SENIOR SOFTWARE ENGINEER (SDE II) | 01/2014 - 02/2015

fabric.com an **Amazon** subsidiary

- Design and development of warehouse fulfillment systems including order verification, dynamic product location switching, reactive replenishment and replenishment **analysis** (real time dashboards).
- Created new development framework used for **web** development and built first applications using **it** (**RESTful web services**, Spring MVC).
- Architected **cloud** environment for **fabric.com** main website.
- **Technologies** – **Amazon Web Services** (ElasticBeanstalk, Elastic Load Balancer, EC2, S3, SQS), **Java**, **Oracle**, Dojo Toolkit, JavaScript, Spring Framework, JSTL, JPA, Hibernate, Tomcat, JAX-RS, Maven, Gradle, Ubuntu, RHEL.

OTHER EXPERIENCE ON REQUEST

Education

- B.B.A in Computer and Information Sciences - Temple University Fox School of Business | 1983

David Gorin

Summary

Dynamic, results-oriented professional with more than 38 years of experience. Unique blend of proven **technical** expertise with strong **organizational** and managerial **skills**. Application and **Infrastructure Technical Architect** that can codebuild anything he designs either as a team leader or individual contributor. Unbroken history of successfully delivering mission critical business solutions to the e-commerce, **software**, IoT, financial, medical, scientific, utility, telecom, manufacturing, big data and entertainmentmedia communities on **cloud**, hybrid cloud, virtualization or bare metal. **Skills** and Expertise * AWS | 8yrs * **Java** | 25yrs * IaC | 5yrs * SDLC | 20yrs * GCP | 2yrs * **Python** 5yrs * Containerization | 6yrs * IoT | 5yrs * Salesforce | 10yrs * CC++ 17yrs * 12 Factor | 25yrs * **Leadership** | 30yrs * **Security** and **Compliance** (HIPAA, FISMA, SOC, ISO, GDPRCCNA, PCI, CIS) | 11yrs * **Cloud** Native and AWS Well Architected app development | 8yrs * SRE Transformations | 5yrs * Infra for MLAnalytics | 7yrs * MentoringUp-skilling | 30yrs * Cost Containment | 5yrs

Work History

Total Work Experience: 11 years

- **Senior Multi-Cloud Infrastructure Architect** Verizon Business
Nov 01, 2022
- **Senior Devops Engineer** Clearwave, Inc.
Nov 01, 2021
- **Senior Engineering Manager** NCR
Jun 01, 2021

- **Senior Cloud Architect** Taos
Nov 01, 2020
- **Lead Site Reliability Engineer** Equifax
Jan 01, 2020
- **Technical** Principal Contino
Dec 01, 2018
- **Cloud** Solutions **Architect** Tekstream Solutions, LLC
Jan 01, 2018
- **Cloud** Solutions **Architect** The Weather Company
Dec 01, 2016
- **Lead Cloud Architect** Chick-Fil-A
Jun 01, 2016
- **Lead Cloud Architect** Candid Partners, LLC
Mar 01, 2016
- **Cloud** And AWS **Architect** Teradata
Apr 01, 2015
- **Senior Software** Engineer (SDE II) Fabric.Com
Jan 01, 2014

Education

- **Bachelors** | Temple University

Skills

- **leadership** - 40 years
- **supervision** - 40 years
- **consulting** - 30 years
- **relational database** - 26 years

- **security** - 25 years
- **infrastructure architecture** - 20 years
- **compliance** - 19 years
- **amazon web services** - 12 years
- **cloud** - 12 years
- **python** - 6 years
- **gcp** - 5 years
- **terraform** - 5 years
- **azure** - 3 years
- **agile methodologies**
- **amazon web services** (aws)
- **business intelligence**
- **cloud** computing
- **enterprise software**
- **integration**
- **oop**
- **project management**
- **saas**
- **scrum**
- **sdic**
- **service-oriented architecture**
- **soa**
- **software** as a service (saas)
- **software** development
- **sql**
- **strategic planning**
- **web** applications
- **java** - 24 years
- **fedramp** - 4 years
- **salesforce.com** - 11 years
- **oracle** - 9 years
- **c++** - 9 years

Work Preferences

- Desired Work Settings: Remote or On-Site or Hybrid
- Likely to Switch: True
- Willing to Relocate: False
- Travel Preference: 25%
- Work Authorization:
 - US
- Work Documents:
 - US Citizen

Security Clearance: False

- Desired Hourly Rate: 100+ (USD)
- Desired Salary: 200,000+ (USD)
- Third Party: False
- Employment Type:
 - Full-time
 - Part-time
 - Contract - Corp-to-Corp
 - Contract - Independent
 - Contract - W2
 - Contract to Hire - Corp-to-Corp
 - Contract to Hire - Independent
 - Contract to Hire - W2
