Strategic GRC Analyst | 7+ Years of Experience Driving Third-Party Risk Management, Cybersecurity Compliance, and Enterprise Risk Reduction Across Regulated Industries

Summary of Accomplishments

- Managed third-party risk programs covering over 1,000 vendors, resulting in a 30% reduction in onboarding delays.
- Ensured compliance with key frameworks (SOC 2 Type II, ISO 27001/27701, FedRAMP, CMMC), maintaining 100% audit readiness.
- Presented detailed TPRM findings to senior leadership, enabling data-driven decisions on vendor risk exposure.
- Automated audit data processes, reducing manual reporting time by 40%.
- Enhanced internal security awareness training, increasing employee participation by 25% year-over-year.
- Evaluated and mitigated third-party vendor risks, improving vendor compliance scores by 15%.
- Conducted security and privacy policy reviews, improving alignment with regulatory requirements (HIPAA, GDPR, CCPA).
- Developed incident response strategies and business continuity plans that improved recovery time objectives by 20%.
- Supported internal/external audits, contributing to zero critical findings across two consecutive audit cycles.
- Collaborated across business units to drive GRC initiatives, improving enterprise risk posture and cross-functional compliance efforts.
