Technical Skills:

Proficient in English and Spanish. Ability to speak and write both languages.

Hardware/**Software** Proficient on:

- MS Office365, **Azure Active Directory**, Exchange admin centers.
- **Windows** 10-11, Mac OS X Maverick-Sequoia
- **Microsoft** Exchange/Outlook 2007-2016
- **Microsoft** Server 2008, 2012, 2019, and 2022.
- Mobile OS (iOS and Android), Avaya, Cisco, Yealink, and Teams phones.
- DCs, **Active Directory**, GPO, DHCP, **DNS** and WDS.
- AWS and Box **cloud** services. Sonicwall Netextender VPN, Global Protect, Palo Alto and Sophos Firewalls.
- MAC, DELL, HP, TOSHIBA, LENOVO, **MICROSOFT** and ASUS devices.
- EPSON, HP, BROTHER, LEXMARK, RICOH, CANON and DELL printers.
- Adobe Creative **Cloud** (Acrobat Pro, Id, Ai, and Ps)
- Belkin, Netgear, and Cisco routers. WAPs Aruba Virtual Controller. Ubiquiti – UniFi.
- **IBM** Servers, **IBM** SAN Storage, Powervault Datastore HP Thin Clients. TrackIt, Jira, FreshService, and Service Desk, Ticketing Systems.
- VMWare Vcenter5, 6 and 7. **Microsoft** Terminal Server. Splashtop Business (remote) Anydesk, Gotoassist and Teamviewer.
- Barracuda Email Archiver, Mimecast, Veeam, **Quest Backup**, Sonicwall, Synology NAS, Drobo.
- JAMF, Netskope, Sentinel1, Self Service, Okta, Duo, Bitlocker, LAPS, Auvik, Solarwinds, PRTG, PDQ Deploy/PDQ Connect, Automox, and SCCM. IIS, Apache, and NGINX website proxy exp.
- McAfee Endpoint Protection, Cortex Palo Alto protection, Huntress, **Windows** Defender, Rapid7.

Work Experience:

Jul. 2023 – Feb. 2025

Total Warranty Services

Boca Raton, FL

Lead **Infrastructure Engineer.**

- ❖ Responsible for designing and maintaining network documentation, including network diagrams in Visio, and troubleshooting guides.
- ❖ Implementation of IPSec tunnels with Failover between **data** center and multiple remote sites.
- ❖ Datacenter network appliance transition migration from former MSP to own cage. (FWs, Switches, 4 Dell hosts, Powervault datastore, Synology NAS, Datto NAS). PDUs (power distribution unit) redundant implementation, as well as DIA and WAN configuration for a Sophos Firewall.
- ❖ Configuration and deployment of ESXi hosts, iDRACs and firmware upgrades.
- ❖ Created and configured network settings in Sophos Firewall using proven industry best-practices, including documentation and diagram templates in Visio.
- ❖ Implemented DMZ network for our SFTP server, including vlan config in Aruba switch, nic physical adapter isolation in ESXi host, and vlan gateway in Meraki.
- ❖ Configuration, administration, and deployment of new and existing vlans in Meraki for an MDF/IDF environment.
- ❖ vCenter migration from 7 to 8, followed by 4 ESXi host upgrades.
- ❖ Administration, and configuration of VMs in a Vcenter8 environment.
- ❖ Configured Power BI Desktop for seamless publishing to Power BI Service, including service accounts creation for both O365 and **Active Directory** (with necessary SQL file permissions) and **Microsoft** On-Premises **Data Gateway** integration for secure in-house SQL database accessibility and real-time **data** connectivity.
- ❖ Deployed and configured Duo Multi-Factor Authentication (MFA) for VPN access, enhancing **security** by implementing strong user authentication and access controls.
- ❖ Configured and managed Sophos Firewall, including VPN/IPSec tunnel setup and P2P Comcast integration, ensuring secure and reliable network connectivity between sites.
- ❖ Implemented and optimized an additional SQL Server instance, managing SQL SSRS, SSMS, and SQL Server **Data Tools** (SSDT) to enhance database performance, reporting, and administration.

- ❖ Integrated and configured Automox, PDQ Deploy/Inventory and PDQ Connect, an agent-based patch **management** solution, enabling remote device inventory **management**, automated **software** deployments, and custom package distribution for improved IT efficiency and **security**.
- ❖ Supported and maintained Sharepoint Online and OneDrive for Business **security** access, and file sharing permissions.
- ❖ Implemented MS 365 **Security** policies such as Conditional Access, MFA, SSO, and Geo location traveling access for a variety of apps such as: Duo, MS **Office**, TalkDesk, Rapid7, and Knowbe4.
- ❖ Automated benefits administration system (CentrallyHR) API workflows into Power Automate, streamlining processes for new hires, terminations, job changes, and FMLA notifications, enhancing HR efficiency and ensuring timely communication.
- ❖ Utilized Power BI to streamline workflows and improve reporting.
- ❖ Configured and managed **Microsoft** Entra ID features including Custom Roles, Dynamic Groups, and Entra ID Connect/Sync; **Microsoft** Teams meetings and collaboration settings.
- ❖ Generated SSL certificate CSR, managed key encryption in EasyDNS, and handled SSL certificate renewals, deploying certificates across VPN, file server, and FTP servers to ensure secure **data** transmission and compliance with **security** standards.
- ❖ Managed MS Intune for Mobile Device **Management** (MDM), compliance policies, and **Microsoft Windows** Defender,
- ❖ Implemented PRTG Network Monitor, including deployment and configuration of sensors, to proactively monitor network performance, ensure system uptime, and detect potential issues in real-time.
- ❖ Administered Datto **backup** solutions, overseeing file restores, **disaster recovery** (DR) processes, and **backup** configurations via host **management** to ensure **data** integrity and business continuity.
- ❖ Managed Rapid7 **cyber security** solutions, including vulnerability scanning, threat detection, and incident response, to strengthen network **security** and proactively mitigate potential risks.

Apr. 2022- Jul. 2023

Florida Peninsula Insurance

Boca Raton, FL

Senior Sys. Admin.

- ❖ Lead the design and deployment of new IT projects including but not limited to Bitlocker, Mimecast, 2FA(Duo), and LAPS.
- ❖ Monitors performance of IT systems to determine cost, productivity levels, and to make recommendations for improving the IT **infrastructure**.
- ❖ Help define IT **infrastructure** strategy, **architecture**, and processes.
- ❖ Analyze business requirements by partnering with IT consultants across the organization to develop solutions for IT needs.
- ❖ Assess vendors and develop test strategies for new hardware and **software**.
- ❖ Refine and document crucial **security** policies and guidelines.
- ❖ Ensures servers hosting applications/websites meet **security** protocols industry standards (TLS), SSL certs are up to date, and performance optimized.
- ❖ Problem-solving and documentation of current and new servers on a virtual (VCenter) and physical environment.
- ❖ Performs and oversees continuous system health checks, user administration, and application of patches and upgrades.
- ❖ Ensures compliance with **security** standards, policies, and guidelines.
- ❖ Conducts daily business Veeam **backup**, and Auvik network/storage monitoring.
- ❖ Installs configure and troubleshoots GPOs and administrative templates.
- ❖ Performs **Azure Cloud** and server environment implementation and steady state maintenance.
- ❖ Ensures timely and accurate completion of assigned duties and responsibilities by preparing and implementing learning documentation to team members to meet the project leadership expectations.
- ❖ Create, maintain, and test **cloud** virtual servers in **Azure**.

Jan. 2014- Apr. 2022

Echo Design **Group**

New York, NY

System Administrator.

- ❖ White-glove support to Executives and all Senior level employees.
- ❖ Implementation and administration of users, computers and objects in an **Active Directory** environment.
- ❖ Manage User Accounts on **Windows** Server 2008-2019 (creation, deletion and

- ❖ permissions)
- ❖ Perform off-site home **office** support for Executive staff.
- ❖ Manage workflow and service requests through TrackIt (Ticketing system)
- ❖ Purchasing of front and back-end hardware through different vendors (CDW, APPLE, Amazon, CTI and Monoprice)
- ❖ Installation, support and configuration of network printers.
- ❖ Develop strategies for resolving issues and prevention for future occurrences.
- ❖ Perform cross platform audits of **Active Directory** objects and user permissions.
- ❖ Developing of organizational units (OUs) in **Active Directory**.
- ❖ Manage **Group Policy** Objects (GPOs) and user **security** throughout **Active Directory**.
- ❖ Provided support for MS Exchange on-prem and Exchange Online. Created email accounts, distribution lists and public folder access through **Microsoft Exchange System Manager**.
- ❖ Configuration and administration of **DNS**, DHCP, **Active Directory** with strong focus on Domain Controllers maintenance, including **Windows** server 2008, 2016, and 2019.
- ❖ IP Address Reservation in DHCP **architecture**.
- ❖ Support and maintain video meeting and video conferencing solutions. These include Zoom, Teams, Skype/Skype for Business, Webex, Splashtop and Polycom.
- ❖ Manage SPAM and Virus protection on Mimecast and Office365 Admin center to ensure **security** and safety of environment.
- ❖ Perform hardware operations and emergency repair of systems.
- ❖ Monitor and maintain system backups and report failures. Perform regular and on-demand **data** recoveries.
- ❖ Maintenance and administration of Cisco telephone system.
- ❖ Administration and support of **Office** 365 Tenant, **Office** 2011 (Mac), 2013, 2016, and MS Exchange policies.
- ❖ Routing Policies configuration on Firewall devices and VPN administration.
- ❖ Assist the IT Project Manager in researching, evaluating and recommending system technologies to support business requirements.
- ❖ Create and maintain **cloud** virtual servers in an AWS (Amazon Web Services) environment. Administration and support of Office365 E1, E3, Shared Mailboxes, Teams Phones.
- ❖ Interface with users and provide technical support where needed. Including Test and troubleshoot printing and **software** issues on the Mac/**Windows** platforms.
- ❖ Create, maintain and/or document Network procedures.
- ❖ Creation of VMs, Clones and Templates. Monitor and support/maintain vSphere 6.0 environment.
- ❖ ADR (Apple Remote Desktop) monitoring and **software** deployment for Mac computers.
- ❖ Imaging/re-imaging end user laptops (Mac and PC) using WDS/Acronis and SCCM.

Nov. 2012- Nov. 2013

Cybertek Support

North Lauderdale, FL

System/Network Engineer Self-Employed

- ❖ Provided PC and Client/Server tech support for small to medium sized businesses.
- ❖ Diagnosing, troubleshooting and resolving client issues with hardware maintenance, installations and upgrades via telephone and remote.
- ❖ Provided overall assistance on a daily basis.
- ❖ Performed diagnostics and troubleshooting of system issues. Maintained equipment inventory list up to date.
