- When we are asked to bid on potential jobs from one of the many buildings contractors we have been excepted to bid for including Mad Dog construction, Culpepper, and Premier Fine Home Builders I go to the site and read the plans and determine the amount of the job and type up the proposal.
- We are Student Housing Solutions year-round painting contractors, and we also do the turn where we have two weeks when the student moves out that are graduating, and the new students are moving in. This is an exceptionally difficult task, but we have experienced painters that get the jobs done on time and by the standards of the customer.
- I am responsible for keeping track of every employee's hours and their pay, I also am responsible for payroll, workers compensations, as well as the insurance needed for every different contractor, we do business with as well as student housing solutions.
- Once the job is finished, I inspect it before it can be considered completed. I then start the invoice process and the accounts receivable and pay our vendors.
