- ❑ Integrated PDF generation utilities with Angular front end for the CIT **Project**
- ❑ Assisted with **migration** of ES-API to CACE
- ❑ Added EAPA and Court Injunction Functionality to the Mass Processing **Project** on both the UI and the backend
- ❑ Added Edit Extend and Edit Suspend Functionality to the Mass Liquidation portion of the Mass Processing **Project**
- ❑ Updated Drawback-EDI to a **Spring** Boot Application
- ❑ Updated the Drawback Application to run on **Docker** environments as opposed to Weblogic
- ❑ Added 314 Liq Cycle functionality to the Mass Processing **Project** on both the UI and the backend
- ❑ Migrated the Mass Processing **project** to the **Docker** and then CACE Konvoy environments
- ❑ Added changes for VA Modernization to the Mass Processing **project**
- ❑ Added Revert functionality to the Mass Processing **Project**
- ❑ Updated the Mass Processing **project** to handle 10k summaries
- ❑ Supported Mass Processing changes as part of the Collections deployment
- ❑ Added VA Mod Functionality to the Mass Processing **Project**
- ❑ Support the deployment of the VA Mod Functionality to **Production**
- ❑ Added Offset functionality to Mass Processing **Project**
- ❑ Supported Mass Processing changes and deployment with Collections
- ❑ Supported the Mass Processing **migration** to CACE
- ❑ Updated the Mass Processing **Project** to handle the **log4j** vulnerability
- ❑ Added the functionality to Mass Liquidate Drawback entries to the Mass Processing **Project**
- ❑ Added the functionality to Process Russian Smelt to the Mass Processing **Project**
- ❑ Updated Mass Processing to use ActiveMQ queues as part of performance enhancement
- ❑ Implemented and Supported Mass Processing Performance Enhancements
- ❑ Updated Mass Processing Security Vulnerabilities
- ❑ Support Mass Processing eCert 2.0
- ❑ Support Mass Processing O&M
- ❑ Support ES-UI, Liq Batch, Mass Processing, Statements, Doc File O&M
- ❑ Support **Migration** of Applications from Konvoy to EKS
- ❑ Update Liquidation Application to **Spring** Boot 3.0
