HEALTHCARE IT CONSULTANT/PROFESSIONAL

I am top-performing Healthcare IT Professional! My experience working in/with multiple **Health Information Exchanges (HIEs)** has enabled me to gain both depth and breadth with various interface engines, messaging protocols, **development** languages, and an overall understanding of challenges that are faced by organizations in regard to healthcare **integration**. I have successfully implemented/interfaced with various ambulatory, acute, and state registries.

Additionally, I effectively implemented interfaces while serving in all critical roles such as **project management**, interface analyst, interface developer, and interface/customer support (both client facing and internal).

I have also been the application owner for IBM's Initiate product. This is an Enterprise Master Patient Index (EMPI) which is responsible for assignment of a unique ID for patients (and other entities) and also proactively identifying data quality issue sent to the **health information exchange**. Owning this application enabled the **integration** of many HIE functions and I created custom SQL **reports** which were used by **management** to better understand issues and report trends to external leaders.

AREAS OF EXPERTISE

- APIs (REST/SOAP)
- Interface Engine
- FHIR
- HL7 2.7 Certified
- HL7 Interface **Development**
- IBM Initiate Master Data Service (MDS)
- Java
- JavaScript
- **Microsoft** SQL Server
- Mirth Certified (Mirth Connect)
- SmileCDR
- Team **Management**
- Training
- Test Procedures/Scripts
- Windows/Linux/Unix

PROFESSIONAL EXPERIENCE

ARMROCK LLC, REMOTE

September 2017 – PRESENT

SENIOR HEALTHCARE CONSULTANT & INTEROPERABILITY SPECIALIST

- Developed HL7 Interfaces to integrate various physician practices and **Health** IT organization
- Negotiated with technical staff and created interface **documentation**
- Developed migration plan for moving organization from older interface Engine to Mirth Connect
- **Lead** migration of over 1000 interfaces to Mirth Connect from older **system**
- Mentored and trained Interface staff on Mirth Connect
- Developed FHIR resources to **exchange** various clinical data
- Performed FHIR mappings from clinical data to FHIR resources
- Created ETL processes in SMILECDR to ingest CSV files
- Worked to connect various physician immunization feeds to Immunization Registries across the USA utilizing v2.5.1

NORTHROP GRUMMAN, REMOTE

OCTOBER 2016 – AUGUST 2017

HL7 INTERFACE DEVELOPER

- Served as consulting expert to elicit and understand data requirements from epidemiologists, analysts, and data managers from various public health entities
- Assessed application and integration functionality as needed to ensure project quality and compliance with CDC and HHS standards
- Developed new interfaces in Mirth to receive HL7 data from external clients and integrated with various downstream systems
- Trained team on HL7 Mirth/Interface functionality
- Provided key input in architectural design for integration with various systems

PHILIPS, REMOTE

JUNE 2015 – AUGUST 2016

TECHNICAL CONSULTANT

- Developed HL7 interfaces for ORU, ORM, and ADT messages for the integration with internal/external products
- Evaluated customer technical environment and proposed solutions to optimize Philips software/hardware software solution within customer environment.
- Developed implementation and project plans and defined interface implementation deliverables
- Provided technical training to clinical staff for Philips ECG software

PATIENTSAFE SOLUTIONS, REMOTE

2014 – APRIL 2015

INTERFACE ENGINEER

- Developed HL7 interfaces (via Mirth Connect & proprietary Java Interface engine) for various HL7 interfaces for mobile application
- Served as 2nd tier support and resolved interface/application issues with Java & JavaScript
- Guided Hospital decision makers and clinical representatives (nurse and pharmacy management) through process for implementing the application into their environment
- Developed implementation and project plans and defined interface implementation deliverables
- Trained other Interface Engineers on interface implementation and on system architecture

SIEMENS MOBILEMD/TEK SYSTEMS, REMOTE

2013 – 2014

TECHNICAL ANALYST CONSULTANT

- Analyzed ambulatory and acute HL7 messages for integration into MobileMD Health Information Exchange (HIE)
- Developed real-time HL7 interfaces with Mirth Connect
- Troubleshoot issues with real-time HL7 feeds in interface engine and SQL Server related to HL7 messages and interoperability projects

HEALTHBRIDGE, BLUE ASH, OH

2011 – 2013

TECHNICAL LEAD/HL7 INTERFACE DEVELOPER

- Developed and maintained HL7 interfaces (ADT/LAB/RAD/TRAN/IMMUNIZATION/CCD) based on real time HL7 transactions
- Led team of Interface Analysts and Contractors implementing new EMRs
- Administered interface engine and resolved support issues with vendors/customers
- Developed Architecture for new Mirth Interfaces
- Created and implemented new infrastructure for Patient Identity with IBM MDS
- Developed custom Java applications utilizing IBM Initiate Master Data Service(MDS)
- Maintained SQL Server database for IBM Initiate Master Data Service (MDS) application
- Generated custom SQL Server reports to run analytics on HIE populations
- Integrated with various formats/protocols via interface engine such as flat file, HL7, Web services, etc..

MEDPLUS, MASON, OHIO

2009 – 2010

HL7 INTEGRATION ENGINEER

- Designed/Coded **Integration** applications using Ensemble and custom Java Interface Engine
- Assisted with maintenance of **integration** infrastructure including routine support, upgrades, problem diagnosis and performance tuning
- Implemented **integration** applications with customers assuring successful **integration** of external client **information system**

PROCTER & GAMBLE, CINCINNATI, OHIO

2006 – 2009

SYSTEMS DEVELOPER

- Developed **software** for Clinical Studies using Java
- Provided support/maintenance for applications developed in Java
- Created **documentation** and trained users on **software** operation
- Gathered requirements from users

EDUCATION**Bachelor of Science, Business Administration (Management Information Systems), The Ohio State University, Columbus, OH**
