

TAIBAT AREMU

Cybersecurity Consultant | VPC

+17702563863 toyinmiles77@gmail.com linkedin.com/in/taibat1 Alpharetta US Citizen | Clearable

SUMMARY

A selfless, motivated and dedicated cybersecurity professional with hands-on experience in Threat and Vulnerability Management. Demonstrated ability to address routine and standard problems to protect information assets through extensive projects. Skilled in digital forensics, incident response, vulnerability assessment, and stakeholder communication. Eager to contribute my quota in securing the organization's security posture.

EXPERIENCE

Cybersecurity Consultant

Verging Point Consulting

11/2023 - Present Alpharetta, United States

- Identified and documented control gaps, gave recommendations, and assisted clients in remediation planning.
- Support IT audit preparation, control evidence gathering, and interview readiness for external auditors.
- Assessed system vulnerabilities and conducted risk analysis.
- Reconstructed cyberattacks by analyzing network traffic to identify attack patterns and sources, improving response strategies and network security.
- Managed network scanning and vulnerability reporting, including analysis and remediation of identified issues.
- Handled information security incidents, including evidence collection, threat management, and documentation.

Information Security Assurance Engineer

Federal Reserve Bank of Atlanta

10/2021 - 10/2023 Atlanta, United States

- Assessed system compliance with NIST 800-53 (SAFR) controls for initial Risk Management A&A and ATO certification.
- Prepared a Security Assessment Report detailing findings, risk ratings, and the overall security posture of the Information System.
- Monitors Plan of Action and Milestones (POA&M)/Exceptions, tracking corrective actions until all deficiencies are resolved within timelines.
- Performed Security Impact Analysis on applications undergoing change management to determine security impact on the baseline.
- Conducts testing of controls during continuous monitoring to ensure the controls are correctly implemented, in place, and working as intended.
- Documented SAFR control policies and procedures for migrating legacy applications to the cloud.
- Lead quarterly touchpoints with Authorizing Officials to explain their risk postures and the status of their systems vulnerabilities.

Lead Technical Customer Support

AT&T DIRECTV | Sitel

03/2020 - 09/2021 Remote

- Proficiently troubleshoot issues and conduct thorough research to identify comprehensive solutions across our suites of services and equipment.
- Resolved escalated clients' internet and cable issues by sending signals.
- Supervised, supported, trained, and coached agents on how to navigate their applications and troubleshoot for clients.
- Scheduled meetings/technicians to troubleshoot problems and configure customized solutions tailored to meet clients' unique business needs.
- Increased customer retention by 20% by implementing personalized support strategies.
- Reduced average downtime by 30% through implementation of proactive monitoring techniques.

SKILLS

Microsoft Defender	ATO	RMF
Disaster Recovery	Forensics	SSP
Information Security	Pen Testing	
Microsoft Suite	PowerShell	GRC
Risk Assessment	NIST 800 Series	
Vulnerability Assessment	POA&M	
Customer Service	Incidence Response	
FEDRAMP	Cloud	Scrum
Threat Intelligence	IT Control Audit	

ACADEMIC PROJECTS

Cybersecurity Capstone (Advanced Threat Intelligence)

01/2025 - 03/2025

Examined current and trending issues in cybersecurity focusing on advanced digital forensics, policy and managements technology, threat intelligence through real-world projects and hands-on labs. Specifically incorporating threat intelligence into the incidence response phases.

Cybersecurity Capstone (Advanced Threat Intelligence) AI Role in Cybersecurity : Use and Risk Management)

01/2025 - 03/2025

Examined current and trending issues in cybersecurity focusing on advanced digital forensics, policy and managements or technology through real-world projects and hands-on labs. AI for cybersecurity can be considered a dual-edged sword with both benefits and risks.

Digital Forensics Technology and Practices

10/2024 - 12/2024

Used multiple digital forensic tools and technologies to investigate security breach by designing and implementing strategies for seizure, investigation, evidence handling and the analysis of client's digital artifacts, including preparing reports and presenting findings to stakeholders.

Advanced Cyber Exploitation and Mitigation Methodologies

07/2024 - Present

Practiced intrusion detection and prevention, exploitation, and mitigation using OSINT and Metasploit. Employed network security techniques, monitoring, auditing, and ethical penetration testing to address and prevent cyberattacks.

EXPERIENCE

Information Security Analyst

AOA Windstream

05/2018 - 09/2021 Remote

- Assess system **compliance** with NIST 800-53 controls for new **systems** undergoing initial **Risk Management** A&A, for Authority to Operate (ATO) certification.
- Conducted regular **risk** assessments, implemented measures per the **risk** profile, and addressed root causes following NIST 800-30 and NIST 800-37.
- Advised **business** and **IT** teams on **security best practices**, ensuring effective **risk management**.
- Identifies potential **risk** issues and recommends improvements or appropriate internal controls.

TRAINING / COURSES

CISSP Boot Camp | Mar -Apr 2025

Kennesaw State University

Cert. Scrum Master | Apr 2025

Simpliaxis INC

Mastering MITRE ATT&CK | 2024

ATTACK IQ

Cyber GRC | Mar -Apr 2023

SKILLWEED Academy

Audit Skills Training Workshop | Feb 2023

ISACA Atlanta

CERTIFICATION

CISSP Provisionally passed

CRISC Certified

CSM Certified

EDUCATION

M.S. Cybersecurity Technology

University of Maryland Global Campus

10/2023 - 03/2025 College Park (hybrid)

PGD. Project Management

Federal University of Technology, Owerri

Owerri, Nigeria

BS. Electrical Electronics Engineering

Lagos State Polytechnic

Lagos, Nigeria

ACADEMIC PROJECTS

Prevention of Cyberattack Methodologies

04/2024 - 06/2024

Designed and applied technological solutions for encryption, network **security**, firewalls, **intrusion detection**, and secure **systems** development, while practicing **software assurance**, verification, and physical and cloud **security** techniques.

Cyberspace and Cybersecurity Foundations

01/2024 - 03/2024

Applied **cyber** methodologies to architectures, services, protocols, and components. Gained an understanding of **business** continuity, **security management**, and the impact of **cyber** terrorism on national **security** in cybersecurity.

VOLUNTEERING
