## Professional Summary

---

- A results-oriented Middleware Engineer with over twenty years of experience in Middleware Engineering, Professional Services, and Pre-Sales.
- Experienced as a Lead Implementation Engineer across a spectrum of Financial Services, Education, Health, Telecom, and Insurance industries.
- Possesses a strong ability to identify gaps and deliver best practice solutions using cutting-edge technology.
- Working as a Technical Lead Delivery Engineer, I have provided project management, team management, and solution design and delivery.
- As an infrastructure delivery liaison to various Application Development teams, I've worked directly with business partners on requirements gathering and infrastructure delivery solutions using automation and cloud technology.
- Expertise spans Tivoli, Oracle WebCenter, Amazon Web Services, MuleSoft, and Venafi Systems, among other cutting-edge technologies.
- An excellent communicator.

## Professional Experience

---

**January 2024 – Current**

**Independent Consultant**

**System Administrator**

- Led project management for network redesign, security, and architecture at Carouthers & Associates Law Firm.
- Implemented VPN setup for remote work, enhancing employee productivity.
- Conducted vulnerability management and remediation, ensuring data security.
- Upgraded Windows Server across all offices for improved efficiency.

**Enterprise Content Management Consultant and Trainer**

- Implementations, upgrades, and conversions to provide optimal performance.
- Client assessments to develop and refine project scopes, plans, and requirement documents.
- Middleware Application and Systems Engineer (Linux, Windows, Weblogic, Websphere, Tomcat, and Apache) support.
- Oracle WebCenter 12c (Content Management, Sites, Portal, Content Delivery) installation and Administration, and Training.
- Amazon Web Services (AWS) and Cloud Computing Services Administration.

**Teachers Insurance and Annuity Association of America (TIAA)**

**June 2021 – December 2023**

**Technical Lead Engineer (Web Technology Services/Production Delivery Services)**

- Provided Project, Demand, and Resource management.
- Professional Services and Delivery team lead for implementations, upgrades, patching, and troubleshooting.
- Application development teams' liaison for requirements gathering, infrastructure support and upgrades, and migration strategies to support the Oracle WebCenter 11g/12c infrastructure (Content Management, Content Delivery, Sites, Remote Satellite Server, and Community Gadgets Server).
- Application support for various in-house and vendor applications (WebCenter, TeaLeaf, Google Search Appliance, Mobius/ASG ViewDirect...), ensuring acceptable and consistent levels of performance through optimization.
- Amazon Web Services (AWS) and internal Cloud Computing Services Administration.
- Middleware Application and Systems Engineer (Linux, Windows, Weblogic, Websphere, Tomcat, and Apache) support.
- System and Application data performance analyzation and tuning; utilizing Wily, Dynatrace, Splunk, and Tivoli monitoring tools.
- Vulnerability Management and Remediation.
- Kong Version 2.8.1.4-enterprise-edition API Manager.
- MuleSoft Anypoint Platform API Manager.
- Venafi Trust Protection Platform for Security Certificate management.

**COX Enterprises, Inc.**  
**March 2020 – May 2021**

**Systems Administrator (Business Platform Services)**

- Provided guidance and support to the team of administrators performing support, maintenance and configurations on Linux and Windows server platforms supporting Oracle Integration Cloud, SOA Suite and Business Process Management (bpm), Oracle Service Bus (OSB), Oracle WebCenter Content, Portal, and Enterprise Capture.
- Worked directly with Developers, Business Partners, and Quality Assurance teams to successfully deploy and validate code, and solutions throughout the SDLC, while maintaining application stability.
- Provided installations, upgrades, and configurations of Oracle Content Management, Document Management, and Oracle's Identity Management suite applications in the DEV, QA, and Production environments on Linux and Windows platforms.
- Provided implementation, maintenance, and support of the Enterprise Portal; Windows-based Internet/Intranet applications and sites; Identity Management; and 3rd party applications in the Cox Enterprises Corporate Information Systems portfolio.
- Led the quarterly patching efforts and the development of solutions to automate daily maintenance activities and routine tasks.
- Developed and published procedures "Run Books/Operational Playbooks" on instructions, upgrade guidelines, and patching procedures.
- Analyzed existing processes to identify and implement automation to increase productivity where applicable.
- Led engineering team on SOA 12.2.1.4 application upgrades and re-platforming efforts to Linux REHL 8 project.

**Teachers Insurance and Annuity Association of America (TIAA)**

**September 2011 – January 2020**

**Technical Lead Engineer (Web Technology Services/Production Delivery Services)**

- Provided Project, Demand, and Resource management.
- Professional Services and Delivery team lead for implementations, upgrades, patching, and troubleshooting.
- Application development teams' liaison for requirements gathering, infrastructure support and upgrades, and migration strategies to support the Oracle WebCenter 11g/12c infrastructure (Content Management, Content Delivery, Sites, Remote Satellite Server, and Community Gadgets Server).
- Amazon Web Services (AWS) and internal Cloud Computing Services Administration.
- Middleware Application and Systems Engineer (Linux, Windows, Weblogic, Websphere, Tomcat, and Apache) support.
- System and Application data performance analyzation and tuning; utilizing Wily, Dynatrace, Splunk, and Tivoli monitoring tools.
- Application support for various in-house and vendor applications (WebCenter, TeaLeaf, Google Search Appliance, Mobius/ASG ViewDirect...), ensuring acceptable and consistent levels of performance through optimization.
- Lead ASG/Mobius Content Management implementation and administration engineer for the SEC 17A3 Remediation Project,

**Independent Consultant****November 2007 – September 2011****Enterprise Content Management Consultant and Trainer****Mobius/Allen System Group ECM and Kofax Ascent Capture; Southern Farm Bureau (Jackson, MS); Sallie Mae (Indianapolis, IN); State of Alaska (Juneau, Alaska); Shaw Industries INC (Dalton, GA); QBE Reinsurance Corp (New York, NY); AgFirst (Columbia, SC); Morgan Keegan (Memphis, TN); Texas Farm Bureau (Waco, TX)**

- Mobius ViewDirect Implementation engineer and subject matter expert for implementations, upgrades, conversions, and training.
- Client assessments to develop and refine project scopes, plans, and requirement documents.
- Interfaced with various internal departments and external vendors to ensure accurate and timely service implementation.
- System architecture, and technical strategies development, to assure the successful installation and configuration of Mobius/ASG ViewDirect and Kofax imaging products.
- Installation and integration of J2EE Application servers.
- FileNet and Documentum conversion projects.
- Onsite and remote client training on ASG ECM applications, custom applications, and knowledge transfer on Kofax Ascent Capture.

**Mobius Management Systems****March 2004 – October 2007****Senior (ECM) System Engineer and Trainer**

- Dedicated engineering representation and subject matter expert knowledge for client engagements supporting Mobius/ASG Document Management applications.
- Client assessments to gather data, define project scope, develop project plans, build requirement documents, and review proposals.
- Mobius/ASG ViewDirect for Networks professional services implementations, upgrades, and migrations.
- Service implementation management and delivery of Mobius/ASG Document Management applications.
- Support integration projects with PeopleSoft, SAP, Kofax Ascent Capture, email archiving, and web management applications.
- Custom development of client JAVA based Web Interfaces used with Mobius/ASG Flexible Content Presentment application.
- Onsite and remote formal client training on Mobius applications. Development and delivery of corporate training material and class requirements for end user and administrator training courses.

**Avalon International****September 2003 – February 2004****Network Engineer**

- Solution Architect for existing information technology environment to support customer's changing technology requirements.
- Project management of network design, security, and architecture.
- Network performance monitoring, backup, and transition strategies from legacy network and applications.
- Installation/migration to Exchange 2000 email from vendor hosted email system.

#### **Systar, Inc.**

**August 2000 – April 2003**

##### **Technical Account Representative**

- Technology liaison between clients and the company's marketing, development and Professional Services teams. Bridged the gap between clients and the company's sales, professional services, and development teams.
- Relationship management included proactively updating clients and sales personnel on service status and conducting customer onsite visits.
- Project management, training, and technical support to clients for the B2B (business-to-business) technology solutions, and Application and System Monitoring solutions across a variety of industries.
- Engineering sales support of Business Process Performance Monitoring (BPPM) and Application Utilization, and Capacity Planning software to the U.S. sales team.
- Product and applications support for Systar/Axway sales organization through assistance on sales calls, product demonstrations, technical presentations, architecting solutions, and response to Request for Proposals.
- Enterprise Architect for BPPM solutions.
- New account qualification, proposal development, product demonstration, and pilot implementations on various platforms.
- Fostered a smooth transition from sales to implementation through effective communication and documentation.
- Established long-term account relationships.
- Interfaced with internal departments to ensure accurate and timely service implementation,

#### **Advance Integrated Solutions, Inc.**

**August 1998 – August 2000**

##### **Senior Tivoli Consultant**

- Tivoli TME 10 Framework Project Manager, and Tivoli TME 10 lead implementation engineer (Distributed Monitoring, Software Distribution, NetView for UNIX and Windows NT, and User Administration).
- Technical sales support, product demonstrations, and the drafting of proposals for Tivoli TME 10 solutions.
- Project management, architectural designs, installation, integration, and support for various UNIX and Windows platforms in LAN and WAN environments.

#### **Technical Skills**

- 
- 
- **Operating Systems:** Windows/Linux/AIX/Solaris/HP-UX.
  - **Databases:** Oracle, SQL, MSDE.

- **ECM/BPM/Workflow/Imaging:** Oracle WebCenter Sites 11g/12c, Oracle SOA Suite and Business Process Management, Oracle Service Bus, Oracle Integration Cloud, Autonomous Oracle Integration Cloud, Oracle HTTP Server, Oracle Identity and Access Management, ViewDirect Content Manager, Business Process Manager (BPM), Kofax Ascent Capture, OmniVision, BusinessBridge.
- **Software/Tools/WEB/Languages:** Splunk, Wily, Dynatrace, WebSphere, BEA WebLogic, Tomcat, JBOSS, IIS, Apache, Visio, HTML, JAVA, Visual Basic, WWW HTML, Shell scripting.
- **Networks/Protocols/Tools:** Multi-Protocol Routers, Bridges, and Switches, ISDN, Frame Relay, Windows Remote Access Service (RAS), ATM, and T1 TCP/IP, DHCP, IPX/SPX, NetBEUI, NetBIOS, SNMP, RMON, NFS, AppleTalk, DLC, and SNA, Ethernet, Fast Ethernet, FDDI, Token-Ring, Active Directory.

## Education & Certifications

---

### **Education:**

Mississippi State University  
Bachelor of Science Computer Engineering

### **Certifications and Courses:**

Oracle WebCenter Sites 11g for System Administrators, Fatwire 7.6 Administration  
Puppet Fundamentals for System Administrators  
Mobius View Direct, and Document Direct for the Internet  
Mobius Flexible Content Presentation, and Total Content Integrator  
Kofax Ascent Capture 7.0-9.0 Certified Solutions Specialist & Kofax Advanced Forms  
Tivoli Management Environment  
Systar BusinessBridge Consultant/Developer, Systar OmniVision Administrator
