

Brandon Smith-Saxon

Baltimore, Maryland 21216

443-934-0995 • bsmithsaxon0301@outlook.com

Robotics Automation Developer

5+ years of experience leading and delivering complex Robotic Process Automation (RPA) projects for both private and public enterprises. Expertise in designing and deploying enterprise-grade RPA solutions, mentoring teams, and driving automation initiatives with advanced knowledge of UiPath, Power Automate, and other automation technologies. Adept at implementing best practices, managing large-scale deployments, and ensuring successful integrations with existing systems.

Key Skills:

RPA Development (UiPath, Power Automate, Blue Prism), Robotics Process Automation Lifecycle, Solution Architecture, Enterprise Automation, Process Optimization, Workflow Automation, Leadership & Mentoring, Agile Methodology, Stakeholder Engagement, Process Documentation, Automation Strategy

TECHNICAL PROFICIENCIES

RPA Tools: UiPath Studio, UiPath Orchestrator, Power Automate, Automation Anywhere, Blue Prism

Languages & Frameworks: .NET, C#, JavaScript, PowerShell, Python

Environments: RPA Project Development, Solution Architecture, Business Process Automation, Cloud (AWS, Azure)

Methodologies: Agile (Scrum, Kanban), ITIL, Continuous Integration/Continuous Deployment (CI/CD), Test-Driven Development (TDD)

PROFESSIONAL EXPERIENCE

RPA Developer – Remote

Transec LLC, Baltimore, MD (10/2023 – Present)

Focus: Leading enterprise-wide RPA initiatives and optimizing business processes through automation.

Key Achievements:

- Spearheaded RPA projects using UiPath Studio and Orchestrator, managing the full development lifecycle from requirements gathering to deployment, for key business operations.
- Developed and optimized complex automation workflows, reducing manual intervention and driving operational efficiencies across various departments.
- Led the automation of high-impact processes, improving operational productivity by 40% and significantly reducing error rates.
- Provided strategic guidance to junior developers, conducted code reviews, and facilitated knowledge-sharing sessions to improve team capabilities and ensure adherence to best practices.
- Established RPA governance policies, ensuring compliance with internal standards and regulatory requirements.
- Integrated RPA solutions with enterprise systems and third-party applications, automating multi-step processes.

RPA Developer / Business Analyst – Remote

Hudson Logistics, Baltimore, MD (06/2022 – 03/2023)

Focus: Collaborated with teams to build and deploy RPA solutions, while driving the adoption of citizen development models.

Key Achievements:

- Successfully onboarded and trained business analysts and developers on Power Automate and best practices for RPA development.

...Continued...

Brandon Smith-Saxon

Page Two

- Worked with **cross-functional** teams to define and implement the **technical infrastructure** required to support the **RPA** strategy within Hudson Logistics.
- Designed and deployed several **RPA** solutions, automating routine tasks and improving productivity.
- Identified and resolved defects within existing **RPA** projects, optimizing performance and **scalability**.
- Led teams in the **development** and implementation of **RPA** applications, ensuring smooth project execution and alignment with **business** needs.

RPA Developer / IT Analyst II – Remote

John Deere, Johnston, IA (04/2022 – 05/2022)

Focus: Driving **RPA** adoption and helping **design automation** solutions for financial operations.

Key Achievements:

- Worked closely with **business** and **IT** teams to **design** and deploy **RPA** solutions to streamline workflows, reduce manual work, and improve data accuracy.
- Provided training on **RPA best practices**, ensuring alignment with John Deere's **automation** strategy and helping develop a **self-sustaining citizen developer** model.
- Supported enterprise-wide initiatives to enhance the **RPA infrastructure**, ensuring **scalability** and performance in live environments.

RPA Developer – Remote

Transec LLC, Baltimore, MD (10/2018 – 04/2022)

Focus: Full-cycle **development** of **RPA** bots, from **design** to **deployment**, across a variety of industries.

Key Achievements:

- Developed and documented **RPA best practices** and **process** workflows using UiPath Studio, ensuring all solutions were efficient, structured, and scalable.
- Led **RPA** projects that involved extracting and manipulating data from various sources (e.g., CSV, PDF, **web** pages) using advanced scraping techniques (OCR, Native, Full Text).
- Deployed and monitored bots through UiPath Orchestrator, optimizing performance and troubleshooting issues in real time.
- Created **automation** solutions for Excel-based processes, utilizing activities like Read Range, Append Range, and Color Range for enhanced productivity.
- Collaborated with stakeholders to identify **automation** opportunities, ensuring solutions met **business requirements** and resulted in significant cost savings.

Cybersecurity Analyst (Research) – Remote

Transec LLC, Baltimore, MD (02/2018 – 10/2020)

Focus: Conducting **security risk** assessments and providing solutions to mitigate vulnerabilities in enterprise systems, including **RPA** solutions.

Key Achievements:

- Conducted **intelligence analysis** on emerging **security** threats, ensuring the secure **deployment** of **RPA** bots and adherence to cybersecurity protocols.
 - Collaborated with **IT** teams to ensure **RPA** solutions were secure, scalable, and aligned with **best security practices**.
 - Assisted in vulnerability **management** and patch **management**, addressing **security** concerns related to **RPA infrastructure** and systems.

TECHNICAL PROFICIENCIES

Systems MS Word, MS Excel, MS Project, MS Outlook, UiPath Studio, UiPath Orchestrator

Software: PowerShell, C++, Threat Connect, NCIC Navigator, Power Automate

Environments RPA Project Development, Implementation and Deployment, Enterprise Threat &
: Vulnerability Assessment, Law Enforcement Crime Research

Additional Experience

Technical Analyst, Awdt Solutions; **Engineering Coordinator**, Painite Consulting, Laurel, Maryland

Professional Development

High Technology Crime and Investigations Associations (HTCIA)

National Criminal Investigative Services

UI-Path Training

Microsoft Power-Automate Training
