

Senior Software Engineer with over three decades of expertise in developing cutting-edge enterprise-level applications. Proficient in needs analysis, data modeling, **PHP**, MySQL, and modern **web** technologies. A strong ability to architect and deploy comprehensive IT platforms, enhancing user experience and operational efficiency. Committed to leveraging analytical skills and innovative solutions to drive technological advancements and achieve impactful results.

Employment history

Senior Software Engineer,

Multipass.com, 2021 - Present

- Architected and launched comprehensive event ticketing platform integrating cash flow optimization, referral systems, and automated payment processing for promoters.
- Implemented group memberships, automated billing, improved event management efficiency.
- Integrated **e**-waivers with tickets, enhanced security, simplified user processes.
- Managed user communication via email/SMS, boosting engagement, improving customer relations.

Software Engineer,

Invertical, 2008 - 2021

- Performed needs analysis, database design, and full stack development on a custom **PHP API**.
- Consulted with creative agency on Cricket.com using CodeIgniter **PHP** framework.
- Architected and deployed full-stack social networking platforms with integrated dating features, implementing modern progressive **web**-application technologies for enhanced mobile experience.

Senior Software

Engineer, Savory Spice Shop, 2011 - 2021

- Designed and implemented touchscreen cash register using ShopKeep **API**
- Developed ecommerce site with POS integration, boosting online sales and customer engagement.
- Created intranet for inventory management, streamlining operations across 30+ locations, with vendor interface.
- Built custom **API** for interfacing with intranet, ensuring seamless data flow between systems.
- Implemented security best practices, safeguarding sensitive data and maintaining system integrity.

Consultant, City of Casper, 2007 - 2008

- Designed website and database specifications for the City of Casper (Wyoming).
- Interfaced with ten city departments to identify which aspects of their city databases should be shared online.
- Created wireframe mockups for usability feedback prior to site creation.
- Surveyed a representative sampling of the user base for site usage insights.

Senior Developer, Pharmacy Choice, RN.com, 2007 - 2008

- Part of a team of developers working on a rewrite of RN.com in ColdFusion.
- Led design team on application **architecture**, needs-analysis, database design, and development.

Senior Developer, Webkit, 2003 - 2008

- Developed backend modules for efficient website creation, enhancing client satisfaction.
- Created ecommerce engine and CMS, improving site functionality and user engagement.
- Built SEO tools with URL rewriting, boosting search visibility and traffic.
- Collaborated on content and ecommerce projects, delivering tailored solutions.
- Participated in optimization classes, refining skills for better conversion rates.

Employment history

Data Architect, Lead Developer, WolfNet Technologies, 2002 - 2007

- Led comprehensive data **architecture** redesign for MLSTfinder.com, unifying six distinct data models while implementing flexible site customization features
- Authored detailed 300-page specification for a major real estate intranet project.

Developer, WinREP, Advanced Informatics, Minneapolis, 2001

- Developed WinREP system for manufacturer-sales interface, enhancing communication efficiency.
- Built Advanced Informatics site for medical quality evaluations, improving data accessibility.
- Utilized Fusebox and DHTML for dynamic data updates, streamlining user interactions.
- Developed database applications for Qualcomm, Purina, BMW
- Built ColdFusion front end to legacy database at Hartford Life on Solaris.

Consultant, Robert Half Technology, Minneapolis, 2000 - 2001

Software Engineer, Space 150, 1998 - 2004

- Engineered databases and led development for UnitedStreaming.com, enhancing user engagement, and Fair Isaac (FICO).
- Developed ActionScript for award-winning hi-wire.com, boosting site interactivity.
- Created a system for Out-of-Home Media managing outdoor ad locations, optimizing media operations. Built JavaScript spreadsheet interface, improving financial data access and analysis.

Software Engineer, Red Oak Technologies, 1997 - 1998

- Led development of NetResponse, a streamlined trouble ticket management system, improving operational **workflow** for Netscape's intranet.
- Architected data solutions for Carlson-Wagonlit, optimizing dynamic Flash site integration.

Software Engineer, CommerceSoft, 1994 - 1997

- Developed early shopping-cart engine in Perl, later in C, for Paramount, SkyMall, HP, and other clients.
- Expanded data structure using ODBC calls to SQL Server, enhancing database efficiency.
- Provided tailored **web services**, boosting client engagement and satisfaction.

Education

Queen's University, Kingston, Ontario, Canada, 1992 - 1996

Engineering Physics, Computer Science

Skills

PHP	Laravel	JavaScript	jQuery
MySQL	ColdFusion	React Native	HTML
CSS	Git	Apache	AWS
Bootstrap	API Development	Database Design	UI/UX
Full Stack	SQL Server	Oracle	ActionScript

Additional information

Community Contributions

- Created ColdFusion coding platforms Blackbox, Blackbox 2, and CFKungFu
- Created **PHP** coding platforms Mercury Framework and Mirrors
- President of Twin Cities ColdFusion User Group (Dec 1998 - June 2001)
- Technical editor for New Riders book on ColdFusion
- Author for ColdFusion Developer's Journal

Dan Chick

- Denver, CO, US
