Robotic Process Automation Engineer/Developer

With 9 years of IT experience in the US Air Force and 20 years in the private sector, I bring a robust background in Robotic Process Automation (RPA), with a proven track record of leveraging tools like UiPath to drive efficiency and innovation. My leadership style has enabled me to successfully guide teams in implementing RPA solutions, fostering collaborative environments that align automation initiatives with organizational goals. My deep understanding of complex business processes (BPM/BPR) empowers me to anticipate challenges and devise effective RPA strategies that streamline operations and reduce costs. Committed to fostering a culture of process re-engineering, I stay attuned to industry trends, ensuring cutting-edge automation solutions. I am enthusiastic about leveraging my RPA expertise to enhance processes, mentor team members, and further organizational missions by delivering exceptional value, realizing cost savings, streamlining workflows, and eliminating waste.

Technical Proficiencies

Business Automation: Lombardi Software, IBM BPM, IBM BAW, IBM Cloudpak for Business Automation

Robotic Process Automation: Jiffy.ai, UiPath, Blue Prism, Automation Anywhere

Artificial Intelligence: Creation and hosting Ollama, Open-WebUI, API integration with ChatGPT, Grok

DBA and Server Admin: MS SQL, MySQL, Teradata, Oracle, FileNet, Unix/Linux, PowerShell, Tomcat

Internet and web development: AJAX, API, REST, SOAP, XML, HTML5, JavaScript, and Sharepoint

Software Development: Ansi C, C++, C#, Pascal, Visual Basic, PHP, Python, Agile, DevOps, and Java

Multimedia: Camtasia Suite, Adobe FrameMaker, InDesign, Audition, Premiere Pro, After Effects, Photoshop, MSOffice, PowerPoint, and ProPresenter

Cloud: Azure, VMWare, AWS, IBM Cloud, vSphere

Professional Experience

Apex Reclaimers, Papillion, NE | Owner | Jul 2023 – Present

- Spearheaded the **development** of a robust **RPA**-driven solution using UIPath, automating client outreach and engagement to recover unclaimed property, significantly increased operational efficiency and client satisfaction, aggressive processes helped to eliminate wrong info from database
- Designed and implemented **RPA** solutions using UIPath to automate client outreach, enabling scalable **communication** with potential clients by extracting data from external sources, sending personalized notifications, and managing follow-ups, significantly increasing capacity and capability

Lancesoft, Papillion, NE | **Senior IBM BAW Developer** | Jan 2023 – Jun 2023

- Trained 30 **software** devs on IBM BAW, built scalable **automation** solutions using **best practices**
- Developed legal **compliance process** on existing IBM Case Manager, transitioned to IBM BAW, **automated** case workflows and leveraged APIs to harden data handling and **regulatory** adherence
- Transitioned existing Case **Management** system to latest IBM BAW on the cloud, collaborated with devs to modernize **infrastructure**, optimize performance, and achieved over \$40K in annual savings

LPL Financial, Papillion, NE | BPM Platform Engineer | Nov 2022 – Dec 2022

- Streamlined BPM and **RPA integration** for future **requirements** in company roadmap
- Assessed multiple **software** packages acquired by company – delivered increased efficiency and preparedness for future projects by eliminating overlap, matched **best software** with project needs

4623

Orion Advisor Solutions, Omaha, NE | Sr Robotics **Process Automation** Engineer | Feb 2021 – Jun 2022

- Founded and led the **RPA** practice, managing a team of four and establishing **automation** strategies that supported the company's **rapid** growth in financial technology, including conducting **process analysis** and identifying high-impact **automation** opportunities through analytics
- Engineered eight **automation** bots using Jiffy.ai and **Python**, incorporating OCR, ICR, NLP, and **API** integrations for intelligent document processing and Salesforce **automation**, achieving annual savings of 15,700 hours and reducing the need for 7.55 full-time employees
- Directed the migration of **RPA infrastructure** to the cloud, improving **scalability**, reliability, and cost-effectiveness, as part of the organization's digital **transformation** initiatives

Perficient, St. Louis, MO | Sr. BPM/**RPA Developer** | Apr 2019 – Oct 2020

- Assisted multiple companies to implement BPM and **RPA** for **business automation** and **process management** using JavaScript, **API integration**, **Python**, PowerShell and VB Scripting. Overhauled training curriculum for newest IBM **process automation software**
- Curriculum delivered to multiple clients, trains new and seasoned developers on newest technology
- Planned and implemented **requirements** for top-3 financial institution, **automated** steps saving company millions of dollars and hundreds of manhours; Optimized and refactored to refresh code

IBM, Papillion, NE | Sr. BPM Curriculum **Developer** | Sep 2010 – Jun 2018

- Trained thousands of developers, both beginner and advanced, on IBM BPM and IBM Blueworks Live
- Deep dive into JavaScript **development** for backend and frontend. Created jump-start training videos published on YouTube and certification tests for developers, administrators, and **business** analysts
- Gained proficiency in leading **RPA** platforms, including UiPath, **Automation Anywhere**, and Blue Prism, developed practical application in diverse **automation** projects
