

FRED DOWNING

WORK EXPERIENCE

Erie Insurance Group (Contractor) | Erie, PA
Dec 2015

Jan 2015 –

Kofax Developer

- Updated **Kofax** document validation scripts to execute an alternate set of business rules for those claims identified as belonging to a new claims processing **system** while continuing to use the legacy business rules for all other claims.
- Created a new batch class that introduced an alternate work flow for claims identified as Worker's Comp.
- Refactored the code in the validation scripts into discreet functions and moved as much as possible into DLLs to eliminate code duplication.
- Added Claim, Claimant and Adjuster objects to the DLLs that parsed the **data** from **web** service lookups then reworked the existing code to return lists of these objects rather than arrays.
- Created a WinForms **application** for use by administrators and developers to query the **Kofax** catalog and return information about the batch classes, document classes, export connectors and index fields. This **application** was a vast **improvement** over the standard admin module since it allowed users to view multiple object definitions at the same time, thus making comparisons much easier.
- Wrote the technical **design** documents for the projects.
- Wrote **developer** guides for all of the new deliverables and the refactored code modules.
- Provided **Kofax** mentoring to full-time staff.

Key Skills/Technologies:

VB.NET, C#, SOAP, Requirements Gathering, Document **Management**

Wells Fargo N.A. (Contractor) | Charlotte, NC
Dec 2014

May 2014 –

Kofax Developer

- Developed new and updated existing **Kofax** custom modules, panels, work flow agents and menus.
- Created new and updated existing **Kofax** Batch classes.
- Assisted with deployment and initial testing.
- Provided **Kofax** expertise where needed.

Key Skills/Technologies:

VB.NET, C#, PL-SQL, **Windows Services**, Requirements Gathering, Document **Management**

Wells Fargo N.A. (Contractor) | Des Moines, IA
2014

August 2013 – April

Kofax Developer

- Assisted with the **migration** from the organization's **Kofax** Capture 7.5 environment to **Kofax** Capture 10 as part of the larger **Windows 7 migration**.
- Developed an auto-validation custom module and accompanying administration **application** so that Stress, Performance and Load (SPL) testing scripts could perform end-to-end testing of batches that normally used the validation module.
- Created custom utilities to assist with managing test volume for SPL testing. Utilities included staging test volume, managing import of test volume at constant or variable rates during testing and cleaning up post-test **data**.
- Provided test **data** volume support to the SPL testing team throughout the testing process.
- Modified various **Kofax** related legacy **applications** to function properly in **Windows 7**.

Key Skills/Technologies:

Team Foundation **Server**, VB.**NET**, **C#**, **WCF**, **WIX**, **T-SQL**, **PL-SQL**, **Windows Services**, Requirements Gathering, Document **Management**

Ga Department of Labor (Contractor) | Atlanta, GA

January 2010 –

August 2013

Kofax Developer

- Created **Kofax** batch classes, document classes, and form types.
- Performed KTM form training using the KTM Project Builder
- Configured and customized the **Kofax IBM** Content Manager Export connector.
- Designed and created **Kofax** custom validation panels using VB.**NET** 2010 for use in various **Kofax** Capture 9.0 scanning projects.
- Developed **Kofax** custom modules to handle document manipulation tasks between various queues.
- Developed solutions to take advantage of KTM 5.0's separation, classification and **extraction** features.
- Developed **Windows Services** to perform **Kofax** related tasks that couldn't be managed with custom modules, e.g. auto-import tasks, **Kofax** service monitoring.
- Developed **web services** to replace various **client**-side driver prerequisites (especially ODBC drivers).
- Converted panels written in VB 6.0 to VB.**NET**
- Developed strategies for deployment and automatic updating of custom panels.
- Provided **production** maintenance of **Kofax servers** and **services**.

Key Skills/Technologies:

VB.**NET**, **Visual Basic** 6.0, **Microsoft IIS** 8.0, **IBM DB2**, **MS-SQL Server** 2008R2, **IBM** Content Manager, Requirements Gathering, Document **Management**

Centers for Disease Control and Prevention (Contractor)| Atlanta, GA

May

2002 – Sept 2010

Programmer II

- Took over development and administration of the branch's 40 user, 1.2 GB MS-Access **database**.
- Rebuilt the **database** structure to bring the **data** model up-to-date with the branch's accelerated growth and comply with division specifications regarding normalization and naming conventions.
- Migrated the **database** to **MS-SQL Server** 2000.
- Redesigned the **client** interface to better reflect the branch's laboratory information processes.
- Developed integrated utilities for processes such as project **management**, patient sample tracking, bench QC, blind QC and calibrator materials **management**; instrument and method **management**; and project reporting mechanisms.
- Developed and deployed a VB.**NET** WinForms / **MS-SQL** 2005 **application** for requisitioning, ordering and budget **management**.
- Worked with research chemists to develop **data** handling and import routines for new or revised analytical methods.
- Developed custom **analysis** utilities for new analytical methods.
- Monitored laboratory processes for changes in work flow and evaluated the impact of those changes on the **database**.
- Implemented automated methods for communicating with the division's sample results **database**

- Analyzed **data** flow processes and made recommendations for changes as methods became obsolete or inefficient.
- Migrated the Nutritional Biomarkers Branch analytical results **database client** from MS-Access to a WinForms **application**.
- Used ActiveReports to reproduce reporting functions from MS-Access.

Key Skills/Technologies:

MS-**SQL Server** 2000+, **Visual** Studio **.NET** 2005, VB.**.NET**, ADO.**.NET**, MS-Access 97+, VBA, MS-Excel 97+, ActiveReports 6.0, business **analysis**, and requirements gathering.

EDUCATION

Louisiana State University | Baton Rouge, LA Bachelor's Degree, December 1998
BA in English, emphasis on Creative and Technical writing

TECHNICAL SKILLS

T- SQL	Advanced	Kofax Capture 7-10	Expert
MS-Access	Expert	Kofax Transformation Modules 5.0	Advanced
VBA	Expert		
VB. .NET / C#	Expert		
WinForms	Expert

Work History

Total Work Experience: 25 years

- **Software Developer** Erie Insurance Group
Jan 01, 2015
- **Software Developer** Wells Fargo
Aug 01, 2013
- **Software Developer** Ga Department Of Labor
Jan 01, 2010
- **Software Developer** Centers For Disease Control And Prevention National
Jan 01, 2000

Education

- **Bachelors** | Louisiana State University

Skills

- **business analysis** - 15 years
- **documentation** - 12 years
- **microsoft sql server** - 12 years

- **transact-sql** - 12 years
- **visual basic .net** - 10 years
- **content management** - 6 years
- **document imaging** - 6 years
- **document management** - 6 years
- **kofax capture** - 6 years
- **c#** - 5 years
- **web services** - 5 years
- **windows services** - 10 years
- **ibm db2** - 4 years
- **visual basic** - 15 years

Work Preferences

- Desired Work Settings: No Preference
- Likely to Switch: False
- Willing to Relocate: False
- Work Authorization:
 - US
- Work Documents:
 - US Citizen
- **Security** Clearance: False
- Third Party: False
- Employment Type:
 - Full-time
