Senior Engineering Manager

Customer-focused, results-driven professional with a track record of driving high-performing teams and enabling cross-functional delivery of secure, scalable consumer-grade applications

Executive Summary

- Owned program lifecycle from planning and prioritization to delivery schedule, risk mitigation and stakeholder reporting with successful roadmap execution
- Spearheaded 15+ cross-regional **scrum** teams to deliver robust, **cloud**-based consumer grade apps for millions of customers through strategic **leadership**
- Led the end-to-end delivery of scalable **cloud**-based apps with a 150% increase in NPS, supporting a ~20M user base.
- Executed product/technical strategies and result-driven **roadmaps** in partnership with cross-functional teams aligned to strategic goals
- Modernized 30+ products under Tech Council initiatives, improving efficiency, cost, and tech maturity by ~10%.
- Directed end-to-end execution of a self-directed fintech platform for a Bank LOS.
- Pioneered 3 organization-wide Hackathons to foster innovation and productization
- Strong exposure to OOPs, **engineering** standards, system design, **architecture**, **Agile** and NFRs
- Exposure with Pharmacy, Next-Gen Scientific Labs, Telecom, HR technology, Employee Time / Productivity, Experience and Credit **Management** domains

Skills

Languages & Frameworks: Java, Spring, Spring Boot, Hibernate, RESTful Web Services, Maven, TDD

Cloud Platforms: Azure PaaS, Azure DevOps, AWS (IAM, EC2, ELB, Auto Scaling, CloudFormation, CodeDeploy, SWF, SES, S3, SQS, SNS, DynamoDB, CloudSearch, ElastiCache)

System & Product Design: Microservices, Event-Driven Architecture, Messaging Systems, Distributed Systems, HA Design, Disaster Recovery, Performance, Security, Resiliency, Design Patterns, API Gateways, Distributed Caching

Tools: Splunk, App Insights, Hygieia, SonarQube, Jenkins, Git, Power BI

Databases: Azure SQL, SQL Server, CosmosDB, DynamoDB, S3, Redis

Messaging: Azure Service Bus, SQS, Kafka, Event Hub

Tech Awareness: Rest Assured, GraphQL, Cucumber, Docker, Kubernetes, React JS, Node.js, React Native, DynaTrace, Prometheus, Grafana, Azure Data Explorer, Data Engineering, AI, ML

Project & Process: Azure DevOps, Jira, Confluence, Agile Scrum, Risk Management, Release Planning

Work Experience

Walgreens - GlobalLogic Hitachi / 11/2022 - 12/2024, Redmond, US / Senior Engineering Manager

- Led multi-disciplinary, cross-regional teams to build and deliver a modernized Patient Health Adherence platform for 20M+ customers, deployed across 9500+ retail stores.
- Owned end-to-end program lifecycle from planning and prioritization to delivery schedule, risk management, release readiness, and stakeholder reporting.
- Drove backlog planning, tech designs, build, estimations and executed roadmap in partnership with cross-functional teams.

- Established success metrics (velocity, quality) and improved engineering processes to support quality and speed to market.

Walmart Global Tech / 06/2020 - 06/2022, Bangalore, India / Senior Engineering Manager II

- Built and led a 40+ member team to deliver a modernized Global Time and Attendance (GTA) platform for 1.7M users using Java and Azure.
- Managed technical prioritization, backlog planning, system architecture, engineering practices, and stakeholder alignment.
- Delivered distributed systems with ~4000 TPS for global clocking; drove Engineering Excellence initiative.
- Executed in-sourcing/location strategy, scaling a 70+ member team to accelerate delivery and optimize cost.

Walmart Global Tech / 06/2018 - 11/2020 / Senior Engineering Manager I

- Led a 25+ member engineering team delivering 5+ HR tech products to enhance associate experience.
- Managed roadmap, code reviews, tech designs, and delivery of micro-products.
- Implemented UX/UI processes and usability testing, improving NPS by +25 and increasing satisfaction by ~150%

Thermo Fisher Scientific / 10/2016 – 06/2018 / Engineering Manager

- Managed 5 cloud platform teams building Java microservices on AWS with 99.99% uptime.
- Drove roadmap alignment, engineering practices, and led 3 global Hackathons.

Thermo Fisher Scientific / 05/2014 – 10/2016 / Senior Software Engineer

- Led a 10-member team delivering scalable Java microservices.
- Partnered with Product and Architecture for technical solutions.

Capgemini / 07/2010 – 04/2014 / Senior Consultant

- Lead developer for developing solutions for Volvo Connected Cars enhancing automotive tech capabilities

Mobily / 02/2009 – 07/2010 / Specialist

- Delivered mobile activation and messaging platforms for telecom systems and provided production support for high-availability systems.

NTT Data (Keane India) / 07/2006 – 01/2009 / Senior Software Engineer

- Developed solutions across healthcare and telecom systems leveraging EJB, Web services, Hibernate, and Spring.

Achievements

- Tech Council: Recognized for driving Tech Review Process and improving product maturity across HA, DR, Cloud Nativity (2020–2022).
- Engineering Excellence: Enabled efficient application development and delivery across teams (2021–2022).
- Innovation-Hackathon: Organized company-wide Hackathon “LEAP” globally three times (2016–2018).
- SAP COE: Successfully executed ‘Create COE in SAP Retail’ as part of leadership development program (2019–2020).
- Emerging Tech Ideation: 2nd winner in CTO pitch for emerging tech solutions (2018).

Certifications

- AZ-900 Azure Fundamentals
- AI-900 Azure AI (Training Completed)
- OCJP (Oracle Certified Java Professional)
- CSD (Certified Scrum Developer)
- CSM (Certified Scrum Master)
- CSPO (Certified Scrum Product Owner)

Education

Master of Computer Application, Anna University, 2003 – 2006

Summary

Customer Focused, Business Driven and People Oriented **Engineering** Leader with proven track record of delivering robust **software** solutions on time with **quality**. With 16+ years of IT experience, I have a great track record of success in working as **software developer** and Sr. **Engineering** Manager across various facets and disciplines of Product **Development** including larger portfolios. I have also gained substantial exposure in collaborating with Business Stakeholders, Product **Management**, UX and other partner teams to create impactful producttech strategies and carve out a result-oriented tech and product roadmap to deliver on-time multiple user centric consumer grade products. Passionate about growing, mentoring, coaching and supporting a diversity team (Built and led many cross functional high performing **scrum** teams from scratch with 100+ team members). I strongly believe that, great Organizations and Products are built by great teams. Strong collaborator with full commitment in organizing, planning and risk assessmentmitigation (Long track record in design, implementation, delivery and operations of many complex, scalable and distributed **cloud** based applications) - Make things happen ! Passionate about **engineering** excellence and bringing innovation inline with customer obsession (Driven and executed Tech assessments and Tech modernization roadmap efforts for many applications in line with Org techprod strategies to build highly robust systems) Overall... Be Committed, Be a Student and **Lead** by Heart ! Expertise in... **#Engineering** Excellence, **#CustomerBusiness** Engagement, **#People Leadership**, **#System Design**, **#Build High Performing Teams**, **#Operational Excellence** Passionate about... **#Engineering** Excellence, **#Innovation**, **#UX Research based Product development**, **#People Mentoring**, **#Strategic Thinking** Hands and minds on with: **#Language & Frameworks Java**, **Spring**, **SpringBoot**, **Hibernate**, **RESTFul web services**, **Maven**, **TDD** **#Cloud** **AWS** (**IAM**, **EC2**, **ELB**, **Auto scaling**, **Security Group**, **Cloud** **Formation**, **Code** **Deploy**, **SWF**, **SES**, **S3**, **SQS**, **SNS**, **DynamoDB**, **Cloud** **Search**, **Elastic Cache**), **Azure** **#System Design** **Micro services**, **Event Driven Arch**, **HA design**, **Disaster Recovery**, **Performance Testing**, **Resiliency**, **Design Patterns**, **Api Gateways** **#Observability** **Splunk**, **App Insights**, **Hygieia**, **Sonar Qube**, **#CICD** **Maven**, **Git**,
