Full Stack Engineer | Front End Engineer | Back End Engineer

Vision-driven **Lead Developer** with over 7 years of experience writing presentation layer **code** for responsive, high-traffic, consumer-facing websites. Proficient in JavaScript, jQuery, CSS, and React JS with significant expertise in Express JS, and Node JS. Adept at leading cross-functional teams, optimizing **web** performance, and maintaining brand consistency. A strong advocate for coding standards, mentorship, and innovative solutions in **web development**.

SKILLS:

Programming: (Python | **Java** | HTML5 | CSS | UNIX | Linux | JavaScript | TypeScript | Node.js)

Libraries/Platforms: (Django | Flask | Express | GIT | **Spring** Boot | React | jQuery | Bootstrap)

Data/Databases: (SQL | NoSQL | MySQL | PostgreSQL | MongoDB)

Cloud/Technologies: (Amazon **Web Services**, Microsoft **Azure** Suite)

CI/CD: (Jenkins | GitHub Actions)

Image Rendering/Editing: (Adobe Photoshop | Illustrator | Premier | Final Cut Pro | Avid | Pro Tools | DaVinci)

PROFESSIONAL EXPERIENCE:

Software Engineer | Generative AI | Web Development

@ Scale AI, San Francisco Bay Area | Jan 2024 - Present

Skills: **Data** Science, API, Python, JavaScript, TensorFlow, SciPy, Matplotlib, sklearn, NumPy, Pandas, PyTorch

- Developed **RESTful** APIs using Express.js, integrating database operations, and optimizing routes to enhance application performance and scalability.
- Implemented middleware functions in Express.js to handle authentication, logging, and error **management**, ensuring secure and maintainable application **architecture**.
- Implemented human evaluation and reinforcement learning through human feedback during pre-training, fine-tuning, and production evaluations, increasing model performance by 25%.
- Created outcomes by building functional **code** for comprehensible customer interactions and complex definition requirements, enhancing user satisfaction by 20%.
- Collaborated with cross-functional teams to deliver high-**quality code** responses and product features, reducing time-to-market for **new** features by 15%.
- Solved coding problems and wrote robust test cases, ensuring functional **code** efficiency and effectiveness with a 40% reduction in reported bugs.
- Managed CI/CD pipelines using Jenkins and GitHub Actions, optimizing **deployment** processes and ensuring **continuous** integration and delivery.

Full Stack Developer

@ Jack Sawyer **Software**, Seattle, WA | Nov 2022 – Present

Tech Stack: React, Django, Python, MySQL, PostgreSQL, AWS

- **Lead development** of communications systems, including full-stack API **Development** with **Cloud** Computing (AWS) experience.
- Utilized **Java** Lambda, Python, and React for **development**, focusing on **data** structures and algorithm implementation.
- Boosted front-end user interaction and enhanced UX by 100% by strategically implementing cutting-edge UX design techniques and modern **architecture**.
- Designed and implemented UX optimization techniques, resulting in a 30% increase in user satisfaction ratings.
- Developed and implemented component libraries for user transactions, utilizing modern wireframes and security protocols, resulting in a 100% enhancement in transactional security.
- Enhanced **software** robustness and **data** structure integrity through rigorous unit **testing** analysis, **agile software development** methodologies, and systematic **code** reviews.
- Implemented **web** solutions leveraging AWS **services**, resulting in a 51% **improvement** in security and hosting.
- Utilized modern frameworks like React.js, Angular, and Django to develop websites, resulting in streamlined **development** processes and significant improvements in performance and scalability.

Managing Director

@ Bishop Motion Pictures, Redmond, WA | Sep 2010 - Dec 2020

Tech Stack: HTML, CSS, JavaScript

- Successfully orchestrated front-end **web development** projects by leveraging strong **project management** skills to build and **lead** highly efficient teams.
- Maintained strong relationships with 95% of financial stakeholders and government offices, fostering trust and effective communication.
- Dramatically enhanced customer experience by developing innovative **web**-based content solutions, using Adobe Creative **Cloud** to enhance REDCODE RAW files and images.
- Developed marketing solutions for multinational corporations, utilizing Photoshop, Illustrator, and Premier to reach tens of millions of customers worldwide.
- Created advertisements that doubled revenue for client markets, generating millions of USD in additional income.

JONATHAN FAUSSET

- Bothell, WA, US
