EDUCATION:

Drexel University, Philadelphia, PA

Major: Bachelor of Science in Computer Science & Bachelor of Science in Mathematics

Minor in Information Science and Technology

Cumulative GPA: 3.6/4.00

Certified in **EPIC** Clarity/Cogito Optime, ASAP, Clinical Inpatient, Hospital Billing Report Designer / Writer / **Analyst**

Experienced in **EPIC** Report Writing in:

Hospital Billing	Professional Billing	Optime
Cadence	Registration	ASAP
ADT	Prelude	BCA
EpicCare IP	EpicCare Ambulatory	Stork

Experience with Reporting Workbench

Experience with Reporting with Cogito data warehouse

Experience in Reporting with Tableau

Experience with downtime reporting (Business Continuity Access Reports)

Experience in Siemens and IDX Centricity

Experience in designing and the architecture of business processes for Business Intelligence

Experience with Explain Plan in Toad to fine tune and improve performance for sequel statements and Hyperion reporting

Knowledge of QlikView and QlickSense

EXPERIENCE:

Mt Sinai, NY

EPIC Clarity/Cogito **Analyst / Extract Team, 7/2023 – 5/24**

- Created 16 extracts for Well Partner and validated extracts with test scripts to make sure there are no errors before sending over to Well Partner for processing
- Created 11 extracts for Vizient for accounts and billing management of accounts to vendor and created test scripts for validation before sending off for processing
- Created reports for Inpatient and **Ambulatory** for adhoc requests from end-users

University Health, TX

EPIC Clarity/Cogito **Analyst for All Module, TX, 6/2022 – 7/2023**

- Created new and converted **Epic**-Crystal reports to C-SQL reports for all modules
- Created dashboards metrics for different modules using SQL metric editor
- Used SlicerDicer to validate against reports development
- Schedule reports with batches and BOE per users need
- Created reports for **Epic**-Crystal integrations, RWB, Cogito reports for all ClinDoc, ASAP, **Ambulatory**, Inpatient and Willow
- Created extracts for **Epic** acute data module to import into data warehouse for reporting and data **analysis**
- Created reports for data **analysis** and reporting for management when needed

Owensboro Medical Center

EPIC/Cogito Report Writer, Owensboro, KY, 6/2017 – 12/2021

- Create reports for all backlogs for company for reports including Inpatient, ClinDoc, HB, PB, ADT, Cadence, Stork, Optime using Cogito data warehouse
- Create and validate reports for all modules (they have a list of backlog reports which are complicated reports) that couldn't be worked on by FTE
- Publish reports on BOE and **Epic**-Crystal reports

- Host meetings with end-users to gather specification for reports and validation of reports
- Create HRX and HGR files for reports that are EPIC-Crystal integration setup
- Schedule reports on BOE for reports distribution
- Create datalink objects to load data from Clarity to Apex using ETL and datalinks for hypertension project to monitor patients who have hypertension and on a hypertension program to help reduce their blood pressure
- Created Epic Cogito reports for ClinDoc and Optime reporting
- Created tableau dashboards for clinical reporting for management decisions making

Martin Memorial Hospital

Senior EPIC Report Writer for All Module, Tampa, FL, October 2012 – January 2017

- Create reports for all modules including Willow, HB, PB, Inpatient, Ambulatory, Optime, and ASAP
- Create specifications base on meetings with users and from there create reports base on the specifications
- Test reports in POC and move them to TST for Reporting Workbench as well as Clarity reports
- Create HRX and HGR for Clarity reports to be pushed to EPIC-Crystal Integration
- Create scheduled instances in BOE for Clarity reports to be emailed or put to a specific location for end-users
- Host meetings with end-users to gather specification for reports and validation of reports
- Create HRX and HGR files for reports that are EPIC-Crystal integration setup
- Schedule reports on BOE for reports distribution

Cooper Hospital University

EPIC Report Manager / Technical Coordinator, New Jersey, NJ, August 2009 – August 2012

- Created reports and managed the reporting team in EPIC Clarity report developments and make sure users get the reports they needed
- Managed and configured all the Meaningful Use EP (Eligible Providers) and EH (Eligible Hospitals) reports and successfully attested both EP and EH for Cooper Hospital
- Developed, test, and verified data accuracy of report development life cycle
- Gathered requirement from user groups and create functional and technical documents for report writers to develop reports
- Developed reports base on document gathered as well as verify the data accuracy of all reports that are produced by report writers
- Managed the Clarity BOE administrator and make sure all reports are scheduled and are coming out to users on a regular basis

Rady Children's Hospital

EPIC Report Writer / Analyst, San Diego, CA, May 2009 – August 2009

- Gathered user requirements and turning those requirements into Crystal, Reporting Workbench, as well as KB SQL reports
- Oversee the hospital's application's operations to meet the user's needs on an accurate and timely basis for reporting purposes
- Created reports for ADT, Cadence, Prelude and Hospital Billing modules
- Verified reports with end-users and publish reports to test and production
- Scheduled reports through Crystal Enterprise
- Formulated, analyzed and applied reporting expertise and other methods of reporting using Crystal and Business Objects InfoView to develop, interpret and provide reports to assist with decision-making, policies and other corporate functions

Cedars Sinai

Report Technical Team Lead, Los Angeles, CA, October 2008 – March 2009

- Architect the design of Business Objects reports as well as universe for the reporting team

- Coordinated and developed operational and analytical reports for the enterprise in the course of the **EPIC** Revenue Cycle and core Clinical projects using both **software** (Crystal and Business Objects)
- Created reporting workbench for Resolute HB, Cadence, ADT and Prelude
- Created BCA reports for the department
- Installed and troubleshoot Business Intelligence products
- Ensured that all reports are developed and have gone through all phases of report development including QA, User Acceptance Test (UAT), Unit Testing using established CSMC (Cedars Sinai Medical Center) standards and architecture base on business requirements and/or design documents
- Functioned as a member of a multi-disciplinary and multi-departmental team that develops technical policies, procedures, documentation, performs report design, creation, maintenance, and configures vendor **software** and reporting environments
- Functioned as a technical resource, escalating issues and problems as necessary to management and/or vendor
- Created custom reports in Hyperspace, Crystal, Reporting Workbench and Text for Revenue Cycle and Clinical projects
- Created VBA applications to help streamline the processes for users
- Created login page in VBA that allows **EPIC** users to pass through security to go into **EPIC** system
- Updated current Brio reports into Crystal XI reports
- Managed messages and fields sent via hl7
- Extracted and load data from master files (sources are from varieties of engines and hl7 messages) into Clarity

University of Texas Medical Branch (UTMB)

Senior **EPIC** Clarity Report Writer (Clinical Reporting), Galveston, TX, April 2008 – May 2008

- Created reports base on doctors' directions and requirements
- Created anticoagulation report, this pulls all patient that qualifies for anticoagulation with their lab results ideally to be with 24 hours
- Created report that shows admit order data by emergency department arrival date and time
- Created report that shows the average wait time for a bed to be available
- Created report that shows discharge orders by service
- Created report that shows average length of stay by disposition for completed visits
- Designed Business Objects reports for users

Children's Hospital of Philadelphia

Senior System **Analyst**, Philadelphia, PA, October 2005 – May 2007

- Served as a **EPIC** Resolute Hospital Billing / Professional Billing / Cadence / ADT / Registration Report **Analyst** / Designer/Writer for **EPIC** project (one of the biggest project at Children's Hospital)
- Created multiple VBA applications to automate a number of processes for the Billing, Collection, Cash Posting as well as Customer Service departments (Business Office processes)
- Automated programs to run on a daily basis via a batch night process using VBA
- Built complex crystal reports for Resolute Hospital Billing and other applications from Clarity database
