PROFESSIONAL SUMMARY

- Former IT Consultant at **Capgemini** brings **Six+** years of work experience on the table. Result oriented and offers rich technical experience in Business Process Management and innovation. **Awarded** for delivering high-value projects for global clients.

TECHNICAL SKILLS

- Tools:** Kofax TotalAgility (KTA), **Documentum (ECM)**, ENCOG (Machine Learning Tool), Business Process Management Framework (BPM), Enterprise Content Management, Eclipse, Git hub
- Programming & Testing:** **ASP.NET, C#, .NET, Java, Python**, JavaScript, **MVC, AJAX, AngularJS, WCF**, Web Services, SOA, XML, R, HTML, CSS, **Unit Testing, HP Quality Center** (Quality Assurance)
- Version Control:** Team Foundation Server (**TFS**), SVN
- Databases:** Microsoft **SQL** Server, T-SQL, Oracle, Relational Databases, **NoSQL, MongoDB**, Data Structures
- Statistical & Visualization Software:** SAS, R, Tableau
- Microsoft Office:** Microsoft Word, Microsoft Excel, Microsoft PowerPoint, Microsoft Access and Microsoft Outlook

SOFT SKILLS

Strong Verbal Communication, Presentation Skills, Leadership and Problem Solving Skills, Detail Oriented Approach and Proficient Team Management. Work Independently

CERTIFICATIONS

Amazon Web Services (**AWS**) – Cloud Computing Services and Apache **Spark** with **Scala** (Expected Jan 2018)

EDUCATION (Dual Masters)

M.S in Information Systems, Big Data & Analytics, Georgia State University , Atlanta, GPA 4.0/4.0	<i>Jul 2017 - Jul 2018</i>
M.S in Information Technology, Web Development, University of Mumbai, India, GPA 3.7/4.0	<i>Aug 2010 - Aug 2012</i>
B.S in Information Technology, University of Mumbai, India, GPA 3.7/4.0	<i>Aug 2005 - Aug 2008</i>

PROFESSIONAL EXPERIENCE

CEPRIN, GEORGIA STATE UNIVERSITY, ATLANTA

July 2017 – Present

Application Developer

- Developing www.arunrai.usa and other applications for the CIS department using Bootstrap and ColdFusion.
- Performing Web data extraction for Business and Technology news using Python. Performing Data Mining for keyword matching and generating reports and graphs using Tableau.

CAPGEMINI, INDIA, (<https://www.capgemini.com/>)

July 2015 – June 2017

Technical Lead - .NET 4.5, C#, MVC, jQuery, AngularJS, Kofax Total Agility, MS SQL Server 2012, Oracle, WCF

Certificate Center Solution, Willis Tower Watson –

- CCS is the BPM and .NET based Certificate Management Solution for Brokerage House.
- Implemented Agile Scalable Framework.
- Developed front-end web pages using .NET, C#, AngularJS, jQuery, API and WCF.
- Designed Workflows and Business Processes in Kofax TotalAgility (KTA) Business Process Management Tool.
- Developed database in MS-SQL, with T-SQL queries. Create schema, write Stored Procedures, Functions, Triggers, Query optimization.
- Merged Web Application, Database with BPM workflows using BPM connectors. The convergence of technologies provided optimum performance to the BPM projects. The solution was asked by the KOFAX vendor to consider it as a product change.

Market Driven Income, Willis Tower Watson -

- MDI is the BPM based, workflow intensive, application to derive brokerage and other incomes.
- Implemented SOA architecture to connect to external multi-platform applications.
- Replaced SharePoint with Documentum ECM tool.
- Integrated Documentum (ECM) with Web Applications using WCF services. Documentum (DFS) technology was new to the team, self-trained and developed .NET tools to connect to Documentum and consume its functionalities like upload, download, update, move and update metadata.
- Performed Full Software Development Lifecycle (SDLC) from design, development, testing all the way through testing, training and production customer support.

Quest, Grant Thornton

- Quest Solution is Encog, artificial Intelligence, based Client Engagement Solution.
- Modified web pages and process workflow using .NET, C#, and jQuery.

- Read JSON file from another server to integrate with the Web Application.
- Optimized Stored Procedures and Multi-Join SQL queries for faster retrieval and manipulation of data.
- **Version Control** - effectively managed code versioning for Dev, QA and Prod environment using Microsoft Team Foundation Server. Responsibly provided code availability with accuracy for every environment.

INFOMATICS SERVICES PVT. LTD., INDIA, (<http://www.infomatics.co.in/>)

July 2012 – July 2015

Software Developer - .NET, Microsoft SQL Server 2012, Dev Express, WCF, MVC, AJAX, VBA - BFSI Domain

- **Application Developer, Franklin Templeton** - Developed Expense Management System for managing Mutual Fund Expenses. Programing in .NET, AngularJS, MVC, ORACLE and MS-SQL with **Agile architecture** which were mobile compatible. Expertise in writing Stored Procedures, T-SQL, Indexes, Transaction Management for data management in SQL server.
- **Application Developer, Barclays Bank PLC & SBI Mutual Fund** – Developed Cashflow system and Bank Compliance solutions for Global Banks. Developed dynamic web pages and transaction workflow in Dev Express, ASP.NET, AJAX, CSS and implements Stored Procedures in MS-SQL.
- **Application Developer, Axis Mutual Fund**– Implemented Change requests for *Sales Management solution* for Axis Mutual Fund. Added more features in the web pages to track the sales lead and manage email alerts. Modified workflow of approval and rejection of sales leads. Added more reports to the application for better management analysis. Technologies used were ASP.NET, AJAX, CSS and MS-SQL.
- **Remodeling Expert, Franklin Templeton** - Replaced Excel-based model with Web Application for Franklin Templeton Investments Inc to generate business process and financial calculations for Management Fees, Commissions, AUM, Allocation and Deallocation of funds in a scheme, using ASP.NET, Microsoft SQL Server. Developed PL/SQL to generate models, reports for business intelligence.

THE SOUTH INDIAN BANK PVT. LTD., INDIA, (<https://www.southindianbank.com/>)

Aug 2009 – Mar 2011

System Development Officer- .NET, MVC, jQuery, AJAX, Microsoft SQL Server 2012, WCF – Retail Banking Domain

- Provided **Business Requirement Analysis** for Banking Check Clearing Application. Analyzed data for generating financial reports and risk summary for bridging business requirement and computer science.
- Consulting and Technical **Documentation**, System Specification Documentation, System Design and Software Design consulting and documentation, Technical Design Documentation and MIS for Projects.
- **Production Support and Maintenance** – Handled production **support tickets**, Troubleshooting bugs, debug and fix application code. Identified data abnormalities and tracked back through analysis of data and source code to identify the root cause.

UNIVERSITY PROJECTS

- **Human Resource Analytics** – Created a **Python** based model to train and predict which employee of the organization is most likely to leave the organization based on various factors like Salary, Promotions, No. of years in the organization, Satisfaction Level etc. Used various Data Analysis and Modelling libraries like **Numpy, Pandas, Matplotlib, Seaborn, Sklearn**. Applied **Random forest regression** and algorithms to achieve higher prediction accuracy.
- **E-Commerce Website** – Created an e-commerce website for a Pet store. It includes features like Product Listing, Product Detail Page, Add to Cart, Update/Edit Cart, Managing Customer Profile etc. Used HTML, CSS and **Bootstrap** to create website and **ColdFusion** and **Oracle SQL/T-SQL** for Database management.
- **Amazon Review System Improvements** – Working on a research model to analyze if the existing Amazon review system is efficient in consumer decision making. Modeling an alternate approach to rate the product at feature level than product level and apply visualization to present reviews and feature ranking of the product in more presentable way to eliminate self-selection and biased reviews on online review systems. Performing statistical analysis and **data mining** in Python and **MongoDB**.

AWARDS & INVOLVEMENTS

- Technology Innovation Award by Capgemini (2017)
- Client Appreciation for ideas, innovation and technology implementation by BA, Franklin Templeton Inc
- Scored 1st rank overall in Information Technology at Graduate Level Program
- Scored 1st rank overall in Information Technology at Undergraduate Level Program
- Appreciated for good communication skills, client presentations and team building involvements
