To obtain a project-based role where I can participate in successful implementations, applications, processes, and **best practices** utilizing expert planning and communication.

PROFILE SUMMARY

- Over 7 years of successful **Workday** implementation experience: Functional and Technical
- Over 5 years of experience as a **Workday** Test Lead.
- Over 5 years of experience as a **Workday Reporting** Lead.
- Over 10 years as a **Business** Analyst.
- Over 10 years of successful PeopleSoft implementation experience.
- Expert knowledge of HR, Payroll, Benefits, Recruitment and Talent **configuration** and **practices**.
- Strong understanding of HR and Payroll structures
- Completed implementations within many industries including Higher Education, Health, Private, **Government**, Media and Union and Non-union Healthcare
- Conducted Parallel testing and Go Live Support
- Trained end users on new systems and processes
- Exceptional written and spoken communication skills.

TECHNICAL EXPERIENCE

- **Workday** Certifications in HCM, Talent, Advance **Reporting**, Launch
- **Workday**: Compensation and Benefits
- PeopleSoft: HCM, Benefits, Payroll, Time and Labor and Recruitment
- Oracle and ICIMS
- Experience with MS word, excel, JIRA, Power Point and Smartsheet

EDUCATION AND PROFESSIONAL DEVELOPMENT

Bachelor of Science - Xavier University

WORK HISTORY

2019 – 2025 – Accenture

Workday Reporting Analyst

- Design, development, and delivery of advanced **Workday** reports, dashboards, and analytics across HCM, Payroll, and Benefits modules.
- Collaborated with clients to gather **reporting** requirements, ensuring alignment with **business** goals and operational needs.
- Developed custom reports, including quarterly payroll analytics, workforce metrics, and operational performance summaries.
- Utilized **Workday** Advanced **Reporting** tools to create calculated fields, matrix reports, and dashboards to support executive decision-making.
- Conducted weekly meetings with clients and **reporting** teams to track progress, address challenges, and refine deliverables.
- Resolved technical and functional issues encountered during report development, ensuring high-quality outcomes.
- Provided training to end users on how to **access**, interpret, and utilize **Workday** reports for daily operations and strategic planning.
- Delivered reports that enhanced data-driven decision-making, increased visibility into key metrics, and improved overall organizational performance.

2019 - 2025– Accenture

Workday Test Analyst

- Wrote comprehensive testing strategies for **Workday** implementation projects, ensuring alignment with client requirements and industry **best practices**.
- Developed and managed detailed project plans for the testing phase, including timelines, deliverables, and resource allocation.
- Facilitated daily progress meetings with cross-functional teams to monitor testing execution and address potential bottlenecks.
- Created dashboards in Smartsheet to provide stakeholders with real-time updates on testing status and issue resolution.
- Led requirement gathering sessions with HCM and Payroll teams to design effective test scenarios and configurations.
- Coordinated and executed system **integration**, regression, and user acceptance testing, ensuring seamless transitions for all **Workday** modules.

- Troubleshoot and prototyped solutions for system errors, ensuring quick resolution and minimal impact on project timelines.
- Loaded the test scenarios into Smartsheet, ensuring accuracy and consistency in the testing process.
- Delivered comprehensive documentation and training materials to support end-user readiness and system adoption.

2019 – 2025– Accenture

Functional Workday Consultant

- Functional configuration Analyst for the Workday modules, including HCM, Payroll, Talent, Absence, Time Tracking, Compensation, and Benefits, to align with client business processes.
- Performed requirement gathering to deployment, across various industries such as healthcare, higher education, and government.
- Collaborated with clients to analyze business needs and translate them into system configurations and workflows within Workday.
- Executed data migration from legacy systems, including PeopleSoft, ensuring data integrity and seamless transitions.
- Designed and implemented custom business processes, calculated fields, and reports tailored to client specifications.
- Co-configuration sessions and workshops with clients to finalize functional setups and validate system design.
- Partnered with technical teams to troubleshoot and resolve complex system issues during testing and production phases.
- Conducted user training sessions and created comprehensive documentation to enhance client understanding and system usability.
- Monitored and ensured adherence to project timelines and deliverables, achieving on-time completion of functional milestones.

2019 – 2025– Accenture

Workday Talent Consultant

- Configured and deployment of Workday Talent Management solutions, including Annual Performance Reviews, Succession Planning, and Employee Development.
- Designed and modified business processes (BPs) to streamline performance review workflows and enhance organizational talent strategies.
- Developed custom employee review templates and rules tailored to align with client-specific goals and HR policies.

- Created calculated fields and custom reports to support performance **management** processes and analytics.
- Led requirement-gathering sessions with stakeholders to ensure talent solutions met organizational needs and **compliance** standards.
- Designed and executed comprehensive test plans to validate the performance review **process** and resolve **configuration** issues.
- Delivered end-user training sessions and developed detailed **documentation** to support talent system adoption and **process** efficiency.
- Partnered with clients to analyze gaps in existing talent **management practices** and recommend **Workday**-driven solutions.
- Ensured successful project delivery within scope, budget, and timeline, contributing to enhanced workforce engagement and development outcomes.

2019 – 2025 – Accenture

Workday Payroll Consultant

- Spearheaded the technical design and implementation of **Workday** solutions across key modules, including HCM, Payroll, Benefits, and Absence, Time Tracking, Compensation.
- Collaborated with clients on data mapping for Payroll implementation to ensure seamless transitions.
- Configured tenants with data elements such as Earn Codes, Paygroups, Deduction Codes, and Eligibility Rules.
- Supported payroll evaluation processes to ensure accurate and successful runs.
- Conducted parallel testing to validate payroll results and ensure alignment across systems.
Assisted Client with data mapping for Payroll Implementation
- Configured tenant with data for Earn Codes, Paygroups, Deduction Codes and Eligibility Rules
- Assisted Client with evaluating the payroll to ensure that Payroll ran successfully.
- Assisted parallel testing to ensure that payrolls matched.

2019 – 2025 – Accenture

Technical Workday Consultant

- Performed technical design and implementation of Workday solutions across various modules, including HCM, Payroll, Benefits, Absence, Time Tracking, Compensation and Talent.
- Participated in the data conversion processes, including mapping and migration from legacy systems such as PeopleSoft, ensuring data accuracy and consistency.
- Created and maintained custom integrations, calculated fields, reports, and dashboards to meet client-specific requirements.
- Executed data loads using Workday EIB (Enterprise Interface Builder) and custom tools, ensuring successful tenant configuration.
- Partnered with functional teams to troubleshoot complex system issues and provide innovative solutions during testing and production phases.
- Developed and delivered advanced Workday reports, analytics, and dashboards for stakeholders' decision-making needs.
- Created technical documentation, including system specifications and user guides, to ensure seamless knowledge transfer and operational support.
- Ensured project success through rigorous testing, defect resolution, and adherence to project timelines and deliverables.

2018 - 2019 – University of Rochester/ University of Rochester Medical Center

PeopleSoft / Workday Independent Contractor/Consultant

- Assisted client with creating conversion scripts to move from Peoplesoft to Workday
- Assisted with data mapping for data conversion team.
- Created data mapping to send data to 3rd Party systems.
- Created Custom PeopleSoft Application Engines reports for HR and the Payroll department.
- Developed documentation on new configuration and/or new processes.

2017- 2018 - University of Georgia Athens Ga.

PeopleSoft Independent Contractor/Consultant

- Participated in Data Mapping for the implementation of PeopleSoft: HR, Benefits and Payroll
- Resolved Production Support Issues for HCM (Human Resources, Payroll and Benefits).
- Assisted client in running the PeopleSoft Payroll **process**.
- Case **management** of Canadian payroll issues, errors & new functionality using Service Now.
- Led requirements gathering session with payroll team on new **configuration**, managed team testing and conducted co-**configuration** sessions.
- Troubleshooted & prototyped solutions for system errors and issues.
- Developed **documentation** on new **configuration** and/or new processes.

2016- 2017 South Coast Hospital Bedford Ma

PeopleSoft Independent Contractor/Consultant

- Met with End Users to discuss the new PeopleSoft implementation (HR, Benefits and Payroll)
- Created test plans for System Testing, Regression Testing and User Acceptance Testing.
- Created CI(s) to populate the PeopleSoft HCM and PeopleSoft Payroll with Legacy Data.
- Tracked and updated defects in Quality Center.
