Lynnwood, WA |mekonnen.yergalem@gmail.com | (206) -981 -7317, US Citizen

SUMMARY

Experienced **Web Developer** and Tester with expertise in analyzing, designing, developing, **testing**, and implementing **web** and mobile applications, particularly in Python, Django, Wagtail, and C# .NET. Skilled at collaborating with cross-functional teams to deliver high-**quality** solutions while ensuring functional and performance requirements are met. Proactively seeking a challenging role to leverage broad application **development** and **testing** experience.

SKILLS

- **Programming Languages & Frameworks:** **Java**, C#, Python, JavaScript, React, Angular.js, Node.js, Django, Wagtail, ASP.NET
- **Web & Mobile Development:** HTML5, CSS, Bootstrap, Android Studio, Kotlin, **Java**, Firebase
- **Databases & Data Technologies:** SQL Server, MySQL, MongoDB, PostgreSQL, Oracle, JSON, Beautiful Soup
- **Testing & Automation:** **Selenium** WebDriver, TestNG, Cypress, Postman, **JUnit**, Espresso, **JIRA**, ServiceNow
- **Cloud, DevOps & CI/CD:** AWS (EC2, S3, CloudWatch), **Azure**, **Docker**, Jenkins, Git, GitHub, Bitbucket
- **Development Methodologies and Others:** **Agile (Scrum)**, Waterfall, **Microsoft** Office 365, and SharePoint.

EXPERIENCE

HHS Office of Inspector General through SHARPMIST LLC| MD | February 2023 – February 2025

* **Web Developer**

- Developed and maintained dynamic **web** applications using Django (Python **web** framework) and Wagtail CMS, ensuring scalable and user-friendly content **management**.
- Migrated over 6,000 records from a legacy **web** platform to a modern Wagtail CMS, ensuring accurate and complete content transfer.
- Wrote Beautiful Soup scripts to automate **data** extraction; manually created JSON files for content that required manual migration.
- Created and executed test plans and test cases for UI and backend features
- Conducted end-to-end **testing** of UI and backend features for migrated content, ensuring responsive design, **data** accuracy, and functional integrity.
- Used AWS tools to validate error logs and resolve production issues/
- Improved content workflows in Wagtail CMS, reducing publishing errors and boosting team efficiency.
- Developed **automated** test cases using Cypress, improving test coverage and reducing regression **testing** time by 30%.

Nano Link **Data** Analytics Training & Consultancy Center | Seattle, WA | 06/2022 – 01/2023

* **.NET Developer**

- Developed business logic components for a 3-tier application using C# and SQL Server.
- Engaged in unit **testing**, integration testing, and API **development** with ASP.NET Core.
- Followed **Agile methodology**, attended daily **scrum** meetings, and updated user stories.
- Collaborated closely with the **development** team

Chaperone | April 2022– June 2022

*Full Stack Developer- Intern

- Developed and tested React-based web applications to process and visualize user data.
- Designed and implemented RESTful APIs for seamless data communication.
- Performed mobile application testing and cross-platform UI validation.

African Owned | September 2021– December 12/2021

*Android Engineer-Intern

- Collaborated within the team to develop an Android mobile application for African-owned businesses, addressing client-defined requirements.
- Engaged directly with the client to gather detailed requirements and translate them into actionable development tasks.
- Utilized Android Studio, Java, XML, and Firebase to develop core application functionalities.

Microsoft | Redmond, WA| Aug 2015 – March 2015

Web & Game Tester

- Performed functional, UI, regression, and cross-browser testing for both web and game applications
- Developed and maintained test cases and detailed bug reports in Jira, contributing to efficient sprint planning and improved issue resolution turnaround time
- Validated performance, hardware/software compatibility, and multiplayer features to ensure optimal stability and a high-quality user experience

PROJECT & ACADEMIC EXPERIENCE | January 2020 – June 2022

North Seattle College, Seattle, WA

- Developed an image classification system (coyotes vs. dogs) using machine learning.
- Built a chatbot application with Flask, Docker, and Python-based NLP models, utilizing 3rd-party APIs to enrich conversational data and provide real-time updates
- Designed and developed a dating application using Android Studio, Java, and Firebase.
- Created a patient log and symptom tracking system using React, MongoDB, Express, and Node.js.

Government Communication Affairs office | Addis Ababa, Ethiopia | October 2011 - October 2013

*Software Tester

- Performed comprehensive manual functional testing on applications to ensure adherence to specified requirements and user workflows.
- Conducted thorough functional testing to validate the integrity and reliability of government news websites, ensuring accurate and timely information dissemination.
- Utilized Jira for bug tracking, test case management, and reporting.

EDUCATION

- Application Development |BAS| North Seattle College |June -2022 | GPA: 3.6
- Computer Science| BAS| Addis Ababa University |June- 2008

CERTIFICATIONS

Java SE 7 Programmer | August -2016
