Summary

I am a Seattle-based **developer** who was provided extensive individual training and experience at a start-up. My assignments were plentiful and diverse, spanning from Drupal modules to handle JSON objects to a JAXB XML parsing and reclassification system to an UIMA **web** service spanning the entire **data** set to writing custom R scripts to handle CSV **data** from **Amazon**'s MTurk. I am **best** equipped to work with **Java** or PHP but also have hands-on experience with HTML/CSS, Javascript, JQuery, and Postgre/SQL.

Working directly with the founding team, I was successful operating independently but also did very well in a fast-paced, **agile** environment. I have excellent communication skills and look forward to taking the next steps in the industry and in my career.

Technical Skills

- **Java**
- PHP
- R
- Ubuntu
- OSX
- Eclipse
- TextMate
- UIMA
- CXF
- Tomcat
- **Data** Analysis
- **Data** Extraction
- Machine Analytics

Relevant Experience

Poplicus Inc.
Seattle, WA

July 2011 – March 2012

Developer (promoted from Intern in November 2011)

*Multiple projects completed reporting to CIO at a start-up emphasizing self-**management**, trust, and accountability.*

- Solo construction of an engine/**architecture** utilizing **Apache**'s Unstructured Information **Management Architecture**
- Analyzed, extracted, and stored differing **data** points from many differing XML sources
- Deployed work as **web services** using **Apache**'s CXF
- Wrote scripts to both parse **data** in CSV files from **Amazon**'s MTurk and to write any number of static **web** pages including the MTurk feedback

- Constructed additional MA **architecture** using various high-level OO tools and procedural work flows to glean even more information from the aforementioned XML sources

Personal Projects

- Plagiarism detector at <http://github.com/zb>
- **Web development** proof at <http://aristgame.com> - example/password

University of the People
Pasadena, CA

September 2009 – Present
Computer Science, Bachelors Degree (Online Courses)
