SUMMARY: Business Intelligence Analyst with 6+ years at Amazon, ASU and Accenture; specializing at informed decision making with KPI-driven dashboards and cloud. Expert in SQL, ETL automation, statistics with exposure in AI, ML.

EXPERIENCE

Amazon.com – Transformed global Supply Chain analytics at Top 10 Forbes G2000

Seattle, WA

Business Analyst, Amazon Retail

Jun 2024 – Present

- **Cross-Functional Collaboration:** Built an executive “Page 0” dashboard for 33 global supply-chain KPI metrics in WBRs and MBRs reports. Partnered with leadership, PM, Engineering and Finance teams to translate metrics and develop ETL/ELT pipelines using SQL aggregations which unlocked \$3.5M in Compliance savings. Eliminated manual preparation time for business reviews.
- **Process Optimization & Deep-dive Insights:** Developed regex computed Redshift SQL workflows to flag underperforming associates and verify 30-day training via weekly data insight reports. Partnered with Project Manager to craft targeted strategies that saved 20% of staff hours and boosted compliance efficiency.
- **Identifying Bottlenecks & Workflow Standardization:** Analyzed takt time vs cycle time data trends to surface “ghosted labor hours” misuse and built SQL query with dashboards to reflect anomalies. Produced executive-level reporting and authored a whitepaper with a 135% productivity lift and a 59.8% gap closure.
- **Data Modelling Tool & Scalable Solutions:** Constructed a scalable Excel glidepath tool with real-time scenario modeling. The tool auto-calculated monthly targets, YTD values, with adaptable visual charts, which was deployed for 43 different goals specific KPIs.
- **Statistics:** Partnered with the Data Science team to develop regression models and perform quantitative statistical analyses.

Cloud Analytics Engineer, AWS – Leading Global Cloud Infrastructure & Supply-Chain Platform

Aug 2022 – May 2024

- **Stakeholder Advisory & Prioritization:** Advised on complex SQL data slicing, aggregation, and designing KPI-driven cloud analytics infrastructure; partnered with 100+ supply chain stakeholders and triage weekly ad hoc requests that cut 35% of critical incidents.
- **Infrastructure Deployments:** Refactored complex SQL statements with joins and window functions; Troubleshooting logical errors and replicated analytical cloud service environments (EC2, VPC, IAM, and S3) with network and storage settings.

Datacurate Technologies – Partnered with Sri Lanka’s leading business to deliver enterprise data solutions

Mumbai, India

Associate Consultant

Feb 2020 – Jul 2021

- **KPI Requirements Gathering & Dashboard Storytelling:** Brainstormed with Product Managers, Engineers, and Scientists to identify invalid and missing data; engineered 20+ KPI metrics across 100M+ Oracle records, implemented data-validation logic with Tableau Dashboards and Excel visualizations to help launch data validation campaigns.
- **ETL Pipelines & Reporting Automation:** Constructed KPI cleansing pipelines leveraging analytical tools; DataFlux Studio (Define & Capture, Clean, Transform, Dashboard, Reports). Automated 16 SAS data-quality jobs and analysis reports with a Python script. Developed dashboards and reports to surface anomaly trends, reducing data discrepancies by 40% with remediation efforts.

Accenture – Reimagined analytics and digital transformation to Fortune 500 clients

Mumbai, India

Associate Application Developer

Jun 2018 – Jun 2019

- **Data Warehousing & Monitoring:** Developed end-to-end performance dashboards, integrating complex SQL data from multiple sources to track cost vs. revenue variances. Configured and Implemented ERP Solution.

AWARDS

- **Galaxy Award (3x Monthly):** Top NA-region performer among 200+ peers with 98% accuracy and 4.9/5.0 CSAT.
- **Secured \$500K contract:** Facilitated executive workshops and translated complex business problem into scalable solutions.

TECHNICAL SKILLS

Data Analysis & BI: AWS, S3, EC2, VPC, SQL, NoSQL, SAS, ERP, SQL, Kafka, Big Data, Azure, GCP, LOD, table calculations

Tools & Scripting: Redshift, Tableau, QuickSight, Power BI, DataGrip, ETL, Python, Excel, Git, Jira, ML, VM, Statistics, Linear regression

PROJECTS

FC Testing Performance Analysis: SQL & Dashboard | github.com/akashprasad96/FC-testing-Whitepaper-synthetic-data

Glidepath Simulation Tool: KPI Modeling & Forecasting | *Scenario-planning Excel VBA model* | github.com/akashprasad96/Glidepath

EDUCATION & CERTIFICATIONS

Arizona State University, MS in Business Analytics, 2022 | **NMIMS**, BTech in Electronics and Telecommunications, 2018

Tableau Desktop Specialist | **Microsoft** Azure Fundamentals | **AWS** Certified Cloud Practitioner | **SAS** Data Tool and Management
