PRINCIPAL PROGRAM MANAGER | STRATEGIC OPERATIONS LEADER | PEOPLE-FIRST INNOVATOR

Strategic and solutions-oriented leader with 10+ years of experience scaling programs, streamlining operations, and driving cross-functional alignment across global teams in fintech, insurance, education, and nonprofit sectors. Recognized for building scalable systems, transforming data into strategic insights, and delivering enterprise-wide impact through a people-first lens.

Core Skills:

Program & Project Management
Executive Support & Strategic Advisor
Cross-Functional Leadership

Employee Experience Strategy
Data-Driven Decision Making
Vendor Strategy & Headcount Planning

Experience:

Vice President, Strategic Finance & Operations | Chief of Staff | CITIBANK 2022 – Present

Serve as a trusted advisor and operations leader to Citi's executive technology teams, delivering enterprise-level impact across headcount planning, vendor strategy, and organizational effectiveness. In this capacity:

- Partner cross-functionally to transform resource planning, financial forecasting, and executive reporting processes across technology, risk, third party partners and HR domains.
- Manage multimillion-dollar budget and global headcount strategy across Wholesale Lending Tech
- Oversaw end-to-end vendor lifecycle management-from onboarding to risk assessment and renewal, ensuring alignment with strategic objectives and reducing third-party risk.
- Streamline project cadence and communication channels to accelerate high-impact initiatives and ensure compliance.
- Develop enterprise-wide people engagement programs, improving morale and collaboration by 23% globally.
- Lead internal career mobility efforts, aligning org design with long-term workforce and tech delivery goals.
- Direct end-to-end planning of Data Solutions Rising Leaders program and Citi's HBCU Alumni cohort; overseeing talent development, executive sponsorship engagement, and culturally responsive campaigns that drove an increase in employee network participation and visibility.

Assistant Vice President, Program Management & Process Optimization | CITIBANK 2019– 2022

Led enterprise initiatives within Citi's technology and business enablement teams, applying a systems-thinking approach to streamline operations and scale internal solutions. In this capacity:

- Launched Citi's first global hackathon, engaging 2,000+ employees and producing 200+ innovations.
- Developed team knowledge systems and digital platforms to reduce communication friction and increase productivity.
- Closed major audit gaps by implementing policy documentation systems; aligned governance models across Waterfall, Agile, and Hybrid approaches.

Process Improvement & Operational Analytics | GEICO 2017 – 2019

Led Lean Six Sigma initiatives across customer experience, licensing, and compliance operations. Partnered with cross-functional teams to uncover process inefficiencies and implement measurable, data-driven solutions. In this capacity:

- Spearheaded Kaizen workshops that optimized mobile quoting UX, increasing customer retention by 15% in Q1 2019.
- Led bundled insurance product development, which was implemented in future product roadmaps.
- Transformed raw operational data into actionable insights through dashboarding, forecasting, and segmentation, directly informing leadership decisions and contributing to measurable improvements in retention and regulatory compliance.

Instructional Leadership & Inclusive Design | FAIRFAX CO. PUBLIC SCHOOL, VA

2014 – 2017

Designed and executed inclusive instructional strategies in a high-needs, Title I academic setting, aligning cross-functional educators to drive measurable gains in student achievement. Led technology integration, collaborative planning, and differentiated instruction to support SPED, ESOL, and IEP learners. Integrating educational technology to modernize the Algebra I learning experience

- Designed and led inclusive instructional models in high-needs academic environments, leveraging data, collaboration, and innovation to drive student achievement and educator alignment. Contributions included:
- Integrated educational technology to modernize the Algebra I learning experience
- Facilitated team-based planning and instructional design for diverse student populations (SPED, ESOL, IEP)
- Led cross-functional collaborative teaching teams to improve subject-level performance
- Surpassed state exam benchmarks for Algebra I, contributing to school reaccreditation and district-wide instructional improvement.

Reporting & Operational Forecasting | ASSURANT SPECIALTY PROPERTY

2011 – 2014

Supported core insurance operations through performance reporting, process analysis, and capacity planning. Partnered with business leaders to improve efficiency and visibility across internal teams. Creating executive dashboards and forecasting models for resource and capacity planning

- Provided strategic reporting, data analysis, and process design for executive teams across insurance and operations units. Served as a bridge between business needs and systems insights by:
- Built executive dashboards and forecasting tools to support resource planning and optimize staffing across operations. Standardizing weekly and quarterly performance tracking for C-suite visibility
- Led Six Sigma process mapping initiatives adopted as site-wide onboarding and training resources
- Designed reporting frameworks that linked operational KPIs to strategic outcomes

Nonprofit Leadership:

Co-Founder & Vice President | PROJECTS 2 PASSPORTS (501C3) – DALLAS, TX

2024 – Present

Launched a youth-focused nonprofit that provides global education, cultural immersion, and leadership development for underserved girls. Lead strategic partnerships, donor engagement, and curriculum design. Successfully built brand credibility, secured foundation funding, and expanded reach through community events and international programming.
