PROFESSIONAL OVERVIEW

I am a software industry worker with 20+ years of hands-on experience across different roles, including: software developer, architect, consultant, scrum master, business owner, sales engineer, solutions architect, technologist, and leader. I have worked in various industries including blockchain and crypto, airline, hospitality, pharmaceutical, healthcare, energy, federal government, education, oil and gas, manufacturing, and fintech.

Most recently, I am venturing into the AI space as an AI enablement thought leader, consultant, and developer.

Technologies

- Server: Node, Java, Python, Kotlin, C#, Solidity, Rust
- Front End: JavaScript, TypeScript, React, various frameworks
- Services: RESTful / GraphQL
- Cloud: AWS, GCP, IBM, Azure
- Database: SQL Server, PostgreSQL, MongoDB, InfluxDb, DynamoDB, Big Query
- Integration: Various data integration and ETL tools
- Container: Docker, Kubernetes

Solutions

- Front-end Applications
- Middle-Backend Services
- API Development
- Web3, Crypto Currency, Blockchain
- Microservices Architecture / Development
- Streaming Data Services
- Cloud-Native Applications
- AI enabled applications

Professional Experience

Supernaut

2/24 – present
