

Cameron T. Chardukian

Experienced Frontend Engineer

American frontend engineer with **5** years of experience specializing in **React**, **TypeScript**, and **JavaScript**. Proven track record of building robust and **accessible user interfaces**. Diverse domain knowledge from **Fortune 100 fintech** to European software solutions consulting. **AWS Certified Solutions Architect Associate**.

TECHNICAL SKILLS

Frontend

React.js, TypeScript, JavaScript, Redux, Next.js, NextAuth, SASS, HTML5, CSS3, Tailwind CSS, Webpack, WCAG, a11y

Principles & Methodologies

Agile, Scrum, SOLID Principles, OOP, Test-Driven Development, SDLC, PWAs, SPAs, Mobile First & Responsive Design

Backend & Cloud

Node.js, Express.js, GraphQL, REST, Java, Headless CMS (Strapi), MongoDB, SSO, AWS (EC2, S3, CloudFront)

DevOps, Testing & Tools

Docker, CI/CD, Vercel, Railway, GitHub Actions, Jenkins, Postman, Jest, React Testing Library, Cypress, SonarQube, Git, Jira, Plausible Analytics

WORK EXPERIENCE

Frontend Engineer

Mgm Technology Partners

09/2022 - 05/2024

One of Germany's 100 largest IT companies, Mgm specializes in providing custom software solutions and digital transformation services.

Achievements/Tasks

- Built and maintained components for Mgm's UI component library using **TypeScript**, **JavaScript**, **Jest**, **React Testing Library**, **Cypress**, **Git**, **HTML5**, and **CSS3** along with **functional-styled components** in **React**.
- Contributed to backlog grooming, sprint planning & sprint reviews, requirements gathering, demos, and stand-up meetings as an **Agile & Scrum** team member.
- Collaborated with **UX** and utilized **CSS Grid** and **Flexbox** to implement the design and **layout** of the library home page.
- Worked with **accessibility (a11y)** experts and utilized **screen readers** such as **JAWS**, **NVDA**, **VoiceOver**, and **TalkBack** to ensure all components were compliant with **Web Content Accessibility Guidelines**.
- Launched a new redesigned version of the UI library's showcase and docs with a better **UX** that provided clearer documentation of component capabilities and best practices.

Software Engineer II

Northwestern Mutual

10/2021 - 07/2022

Fortune 100 financial services company offering comprehensive financial planning, investment management, and insurance services.

Achievements/Tasks

- Implemented user stories using **ReactJS**, **JavaScript**, **SASS**, **NodeJS**, **Express**, **GraphQL**, **Jest**, **Enzyme** and **React Testing Library** while adhering to engineering best practices such as **TDD**.
- Collaborated with the Data Proxy team and utilized custom **React** components and extensive **GraphQL** querying to enable seamless input, editing, and consumption of data within a **CRM** by field representatives.
- Implemented an alerts system **microservice** that integrated across the entire platform to warn field representatives about possible outages and other timely information.
- Wrote countless **unit tests** both during feature development and to migrate from **Enzyme** to **React Testing Library** while maintaining 100% test coverage in several key codebases.

WORK EXPERIENCE

Frontend Engineer

C2C TechHub

08/2019 - 09/2021

Leading solutions provider with 100+ engineers delivering custom software development, machine learning, and project management solutions.

Achievements/Tasks

- Implemented user stories and fixed bugs using modern technologies such as **ReactJS**, **TypeScript**, **JavaScript**, **JSON**, **NextJS**, **React Router**, **EJS**, **SCSS**, **Redux**, **Redux-Saga** and **React Native**.
- Implemented mobile-first **layouts** with **pixel perfect user interfaces** while leveraging **SCSS** variables and ensuring **cross-browser compatibility**.
- Configured **ESLint** and **Prettier** in multiple projects to achieve teamwide code formatting standards.
- Worked in an **Agile** environment using **Jira** and **Confluence** and had daily standup meetings and bi-weekly sprints alongside product owners, designers, QAs, and other developers.
- Researched **React Native**, built a skeleton project, and **gave a tech talk** that led to the company establishing a **React Native** division for **cross-platform app development**.
- Created internal docs to standardize and improve the company's **code review** processes and **OKRs** which led to improved code quality, a significant reduction in bugs within the organization, and increased accountability amongst team members.
- Onboarded multiple software engineering interns and oversaw their projects, performed **code reviews**, and **held monthly 1-1s** discussing their progress and achievements.

CERTIFICATES

AWS Solutions Architect Associate (06/2023)

AWS Solutions Architect Associates excel in designing and deploying scalable, secure, and cost-effective cloud solutions on AWS. Holders of this certificate have a strong understanding of core AWS services such as: IAM, S3, EC2, VPC, DynamoDB, RDS, Aurora, SNS, SQS, Kinesis, SES, CloudTrail, CloudWatch, and Lambda.

FreeCodeCamp - Fullstack JavaScript Bootcamp (12/2018 - 03/2022)

Completed **1,800** hours of coursework, including **1,000+** lessons and **30** projects, earning **6** FreeCodeCamp certificates. Some notable technologies covered in the curriculum and projects include: **HTML**, **CSS**, **SASS**, **JavaScript**, **React**, **Redux**, **Node.js**, **Express.js**, **MongoDB**, **RESTful APIs**, **Git**, **Chai**, **Mocha**, **JSON**, and **D3.js**.

PERSONAL PROJECTS

SwiftLaunch (06/2024 - Present)

- Developed and launched a highly praised MVP-as-a-service platform with a sleek landing page built using **Next.js**, **Tailwind CSS**, and **Strapi** for the blog, **receiving commendations from a former Google Staff Engineer** for its simplicity and compelling presentation.
- Successfully deployed the platform, attracting early user interest with **150+** views, and launched a directory app MVP built in a weekend which received **2,500+** views on **℥** (formerly Twitter), establishing a foundation for continued growth and future technical content.
- swiftlaunch.dev

Software Development Book Notes (10/2019 - 08/2023)

- My notes and thoughts on **8** different books related to software engineering including classics such as **Clean Code**, **The Clean Coder**, **The Art of Readable Code**, and **Eloquent JavaScript**.
- github.com/camchardukian/Software-Development-Book-Notes

Cameronchardukian.com (02/2013 - 11/2023)

- Authored over **300** articles on productivity, time management, and psychology, with multiple articles surpassing **100,000** views.
- cameronchardukian.com

EDUCATION

Bachelor of Science in Business Administration

Thomas Edison State University

2018

4.0 GPA
