English ★★★★★

Project Manager with over 13 years of experience in planning, executing, and successfully delivering technology projects, including 5 years specializing in Salesforce. Expert in project management methodologies, including PMI and Agile, with a proven track record of leading multidisciplinary teams and achieving strategic objectives on time and within budget.

- Design, implementation, and closure of projects with measurable results.
- Supervision of teams of up to 10 members, fostering a collaborative and results-oriented environment.
- Skilled in timely risk identification, proposing mitigation plans, and executing them effectively.
- Strong communication with stakeholders at various levels and cultures, ensuring strategic alignment and clear objectives.

Work History

2024-03 - present	PROJECT MANAGER SENIOR <i>NESPON SOLUTION</i> • I led the implementation of Salesforce Industry for the travel product in an insurance company. • Thanks to the success of the travel project, I spearheaded the design and implementation of new opportunities, including the implementation of Salesforce Industry with a separate Angular front end for the mobility product in the same insurance company. • I coordinated teams of up to 10 people managing two projects simultaneously. • I led the development and implementation of base libraries and a Salesforce managed package to standardize integration processes with external services across all company products.
2022-01 - 2024-02	PROGRAM MANAGER PARA WALMART CHILE <i>AMARIS</i> • Delivered constant visibility into the program's status, achieving synergy between the Operations and Tech areas. • Standardized the Ways of Working (WoW) across 12 programs, enabling better decision-making when prioritizing inter-program topics. • Facilitated communication among different teams to prevent risks from materializing.
2021-09 - 2022-01	PROJECT MANAGER SALESFORCE <i>VASS</i> • I implemented Salesforce projects in different types of companies, under both Methodologies (Waterfall, Agile), controlling the budget, tracking activities, sending invoicing to customers and human resources management. • I Implemented improvements and new projects in Service Cloud for the client Enel. • I performed follow-up and support management for the solution of inconveniences. • I prepared new requirements in Service Cloud, for different customers.
2021-03 - 2021-09	PROJECT MANAGER COLOMBIA <i>FREEWAY CONSULTING</i> I led Salesforce implementation projects with clients in Chile, Mexico, Costa Rica, Peru, and Guatemala across Sales Cloud, Marketing Cloud, Service Cloud, CPQ, and Community, carrying out the following activities: • Business analysis and AS-IS process evaluation. • Designing solutions for TO-BE processes.

- Project management and administration.
- Salesforce implementation solutions.
- Client negotiations.
- Proposals for tool optimization based on business needs.

2016-01
- 2021-02

IT PROJECT COORDINATOR

UNIVERSIDAD DEL ROSARIO

- I Led the Salesforce Community implementation project for the student portal, centralizing access to various services offered by the university to students.
- I Led the Salesforce Service Cloud implementation project for the different services provided to students at Universidad del Rosario.
- I Led the Salesforce EDA (Education Data Architecture) implementation project for the CRM at Universidad del Rosario, aiming to achieve a 360-degree view of the student.
- Product Manager for the design, development, and implementation project of the institutional app, improving the service experience for all user groups at Universidad del Rosario with features such as appointment scheduling, video calls, chat and request registration, grade inquiries, and schedule consultations.
