

Diekololaoluwa Akinwole

Dallas, Texas 75057 | (C) 720-327-5089 | (E) diekoakinwole@gmail.com | [LinkedIn Profile](#) | Innovative Software Engineer | Blockchain Enthusiast | Driving Cutting-Edge Solutions for a Digital Future

Professional Summary

Dynamic Software Engineer with over three years of experience architecting scalable applications, optimizing user experiences, and leading high-impact projects in fast-paced environments. Adept at leveraging full-stack expertise (C#, React, Node.js) and a deep passion for blockchain and digital currencies to deliver innovative solutions. Recognized for driving 40%+ improvements in system performance and user engagement through agile methodologies and creative problem-solving. Committed to pushing technological boundaries, fostering collaboration, and delivering measurable business value. Aspiring to revolutionize industries through code and community leadership.

CORE COMPETENCIES

- Full-Stack Development: C#, .NET Core, JavaScript, React, Node.js, Python, SQL
- Blockchain & Web3: Community moderation, decentralized app (dApp) development, crypto ecosystems
- Tools & Platforms: Git, Docker, MongoDB, MySQL, JIRA, Redis, AWS (exploring cloud integrations)
- Methodologies: Agile, Scrum, CI/CD, Test-Driven Development (TDD)
- Leadership: Team lead, community management, cross-functional collaboration

EDUCATION

M.Sc in Computer Science Software Development concentration

Westcliff University, Irvine, CA | Expected Graduation: March 2026

- Relevant Coursework: Advanced Algorithms, Cybersecurity, Cloud Computing, Distributed Systems

B.Sc in Computer Science

Babcock University, Nigeria | Graduated: 2021

- Capstone Project: Developed a real-time network monitoring tool using Python and Maltego

EXPERIENCE

Associate Software Engineer

Cavista/Axxess, Hybrid | April 2023 – March 2025

- Engineered and maintained mission-critical applications, boosting client satisfaction by 35% through enhanced functionality and seamless UX.
- Spearheaded development of new features for enterprise software, reducing processing times by 25% using C#, .NET Core, and React.
- Collaborated in agile sprints, leading daily stand-ups & contributing to a 20% increase in team delivery efficiency.
- Automated system checks and deployment pipelines, cutting manual workloads by 30% with Docker and CI/CD tools.
- Mentored junior developers, fostering a culture of knowledge-sharing and technical excellence.

Community Moderator(Blockchain)

Elixir, Remote | February 2024 – December 2024

- Managed vibrant online communities for a top-tier blockchain startup, growing engagement by 50% through strategic content and conflict resolution.
- Partnered with dev and marketing teams to integrate user feedback into protocol updates, earning recognition as an early supporter.
- Ensured compliance with Web3 community guidelines, mitigating risks and fostering a trusted environment for 10,000+ users.

Software Engineer Lead (Web3/Crypto)

923 Capital, Remote | January 2022 – November 2022

- Led a team of five engineers to build & scale decentralized applications, achieving a 15% increase in user adoption.
- Drove social media strategy, growing Twitter presence by 200% as the primary influencer for a Web3 community.
- Onboarded 500+ new members, delivering educational content on NFTs and crypto, enhancing community literacy.

IT Specialist intern

Focus Group, Nigeria | January 2020 – June 2020

- Resolved 90% of IT tickets within SLA, using PRTG and Maltego to monitor network performance & bandwidth.
- Streamlined client reporting processes, automating daily bandwidth usage reports to save 10 hours weekly.
- Strengthened cybersecurity measures, reducing vulnerabilities by 20% through proactive troubleshooting.

Network Engineer Intern

Seas Info-Tech Limited Telecommunications, Nigeria | May 2019 – September 2019

- Configured and optimized network infrastructure, improving uptime by 15% through firewall and VPN enhancements.
- Documented network architectures, creating a reference library that reduced onboarding time for new engineers by 25%.

KEY PROJECTS

Lead Developer, Brit Properties Website Redesign | *React.js, Node.js, Tailwind CSS | June 2023 – September 2023*

- Orchestrated a full-scale website overhaul, increasing user engagement by 45% and conversion rates by 30%.
- Implemented advanced search and filtering features, leveraging RESTful APIs and MongoDB for real-time performance.
- Delivered a responsive, SEO-optimized platform, earning client praise for enhanced accessibility and aesthetics.

Mood-Cognizant Music Recommender System (MCRS) | *React Native, Python | June 2020 – March 2021*

- Developed a mobile app using facial recognition to detect emotions and recommend music, achieving 85% accuracy in emotion-based song matching.
- Integrated machine learning models with React Native, creating a seamless cross-platform user experience.
- Presented at university tech symposium, receiving accolades for innovation and technical execution.

TECHNICAL SKILLS

Languages: C# (.NET Core, Entity Framework, WinForms), JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3

Frameworks/Libraries: React.js, Node.js, ASP.NET Core, Express.js, Bootstrap, Tailwind CSS, GSAP

Databases & Tools: MongoDB, MySQL, Redis, Git, Docker, JIRA, Postman, VS Code

Cloud & DevOps: AWS (exploring), CI/CD pipelines, Kubernetes (learning)

Blockchain: Solidity (beginner), Web3.js, Ethereum ecosystems

Certifications:

- Full-Stack JavaScript Bootcamp (GOMYCODE, 2022)
- C# 10 Fundamentals (2023)
- Mastering Git (2023)
- JIRA: Getting Started (2023)
- Product Owner Fundamentals (2023)
- AWS Cloud Practitioner (In Progress, 2025)

COMMUNITY & LEADERSHIP

- **Crypto Enthusiast & Investor:** Active in blockchain communities, contributing to projects like megaeth labs and FogoChain via feedback and seed funding exploration.
- **Tech Mentor:** Volunteer mentor for coding bootcamps, guiding 20+ students in full-stack development.
- **Conference Speaker:** Presented “The Future of Web3 Communities” at a local tech meetup, engaging 100+ attendees.

ADDITIONAL INFORMATION

- Languages: English (Fluent), Yoruba (Native)
- Interests: Blockchain innovation, algorithmic trading, open-source contributions
- Availability: Open to relocation for the right opportunity
