

DEVIN WRIGHT

Lead / Senior Mobile Engineer | React Native, React, Node, RoR

devinwright88714@gmail.com • +14044481256 | Atlanta, GA

Summary

- Senior Software Engineer with over 12 years of experience in developing scalable, full-stack mobile applications.
- Proficient in a diverse set of technologies, including React, React Native, Node.js, and Ruby on Rails.
- Extensive background working with companies of varying sizes, from large corporations to agile startups.
- Demonstrated creativity and innovation in leading and launching multiple startup projects from the ground up.
- Love working in environments that present continuous challenges and opportunities for growth.
- Expert in test-driven development, skilled in leading teams to develop innovative software solutions that push technological boundaries.
- Current focus on crafting comprehensive, scalable full-stack applications that advance business and technology frontiers through creative problem-solving and innovative approaches.

Experience

inKind

Remote

Lead React Native Mobile Engineer

05/2024 - 12/2024

Technologies: React Native, React.js, Redux, TypeScript, JavaScript, FastLane, SDK, Git, Flipper, AppCenter, Amplitude,

- Increased user engagement by 30% through implementing Amplitude to inKind mobile app using React Native and TypeScript.
- Increased customer acquisition by 20% by adding new app features for market promotion.
- Resolved complicate problems and challenges for better app performance.

Zenkoders

Remote

Lead Full Stack Mobile Developer

02/2020 - 05/2024

Technologies: React.js, React Native, Node, Ruby on Rails, Nest.js, Redux, AWS, AWS Lambda, DynamoDB, PostgreSQL, JavaScript, TypeScript, Docker, Android, Git, Unit Testing, SCSS

- Increased app downloads by 20% by leading development of iOS and Android apps with React Native.
- Enabled code reuse and boosted performance by designing scalable data architecture in React/Redux apps.
- Boosted code quality and system efficiency by refactoring Ruby code and optimizing PostgreSQL queries.
- Refined data accuracy in a nutrition app, offering personalized insights by utilizing machine learning.
- Upgraded functionality and reliability by integrating commercial tools and building automation testing with Appium.

WooTech

Remote

Senior Mobile Engineer

02/2019 - 02/2020

Technologies: React Native, React.js, Redux, Node.js, Microservices, JavaScript, TypeScript, Kotlin, Firebase, MongoDB, PostgreSQL, TypeORM, AWS, Unit Testing, Git

- Headed cross-functional team to refine UX/UI across Android and iOS platforms, resulting in a 15% surge in customer satisfaction ratings; optimized user flows and interface elements to enhance overall user experience.
- Developed Android applications using Java and Kotlin, implementing modern Android design patterns and leveraging native APIs to enhance performance and functionality.
- Advanced app functionality by developing modules for React Native and native SDKs integration, boosting performance by 20%.
- Managed Node.js API endpoints, resulting in a 15% increase in data transfer efficiency for mobile apps.
- Boosted code quality by leading TypeScript integration into React Native app, enhancing maintainability.
- Developed AWS Lambda functions, streamlining payment processes and enhancing transaction efficiency.
- Streamlined testing efficiency by automating tasks using Appium for apps.

Best Buy

Remote

Senior Software Engineer

01/2016 - 01/2019

Technologies: React, React Native, Node, Next.js, Redux, AWS, AWS Lambda, Amazon DynamoDB, JavaScript, TypeScript, Git

- Enhanced advertiser user experience, resulting in a 20% efficiency increase by integrating React Native.
- Ensured a consistent user experience across devices by supporting the development of a cross-platform mobile front-end.

- Fortified payment service security, protecting sensitive customer information, by developing AWS Lambda functions.
- Accelerated page-load speed by 5x through the implementation of prefetching serverless APIs, improving user satisfaction and engagement.

Experience

Idea Usher

United States

Frontend Developer

10/2013 - 12/2015

Technologies: JavaScript, jQuery, Java, Sprint Boot, PHP, HTML, CSS3, Highcharts, Unit Testing, Azure, PostgreSQL, Git

- Enriched market data analysis by developing 10 interactive React components with Highcharts integration.
- Designed and implemented RESTful APIs using Java and Spring Boot, optimizing data processing workflows and improving response times for high-traffic applications.
- Ensured 95% reliability of frontend codebase by implementing unit and snapshot tests with Jest and Enzyme.
- Bolstered data integrity and security using PostgreSQL, supporting 100+ concurrent users.

UpCounsel

United States

Intern / Junior Developer

04/2010 - 08/2013

Technologies: HTML5, Ruby on Rails, JavaScript, CSS, Jasmine

- Developed Ruby on Rails APIs, supporting Node.js microservices for 500+ tasks
- Initiated front-end migration to React, enhancing user interface for 1,000+ daily users
- Designed NoSQL solutions with an in-house framework, optimizing data management for 2 major projects

Skills

Languages JavaScript TypeScript ES6+ Ruby Java .

Front-End Development:

React.js React Native Redux Next.js Webpack Babel HTML CSS Material UI Tailwind CSS HTML5 CSS3 SCSS . . .

Back-End Development: Node.js Express.js Nest.js Ruby on Rails GraphQL RESTful API Microservices Serverless .

Database Systems: PostgreSQL MongoDB MySQL DynamoDB SQL NoSQL Redis DynamoDB . TypeORM Sequelize . Mongoose

Mobile Development: iOS Swift Objective-C Android Java Kotlin .

Cloud Services:

AWS . Lambda . Cognito . S3 . ECS . API Gateway . CloudFront . CloudWatch . SQS . Terraform . CloudFormation . Amplify . Azure .

Google Cloud Platform

DevOps Tools: Kubernetes Docker CI/CD Pipelines Fastlane . SonarQube

Testing Frameworks: Jest Cypress Mocha Chai Selenium Webdriver . Appium . Unit Testing . Automated Testing Monitoring Tools:

Sentry New Relic Datadog Wireshark . .

Strengths

- ☐ **Tech-Savvy**
Experienced with a wide range of technologies and tools for software development.

☐ **Team Leader**
Skilled in leading teams to create high quality software solutions and handle new challenges.

☐ **Innovative Product Engineer**
Demonstrated ability to enhance user experience, boost performance, and efficiency in apps.
- ☐ **Detail-Oriented**
Focused on enhancing data integrity, functionality, and security in software development.

☐ **Problem-solving**
Proven track record of solving complex technical issues and implementing effective solutions for improved efficiency.

☐ **Collaboration**
Strong team player with the ability to efficiently collaborate with diverse teams to achieve common goals.
- ☐ **Extensive industry experience**
Over 12 years of industry experience.

☐ **Technical proficiency**
Proficient in React and Node.js technologies.

☐ **Leadership and innovation**
Successfully led innovative startup projects.
- ☐ **Cloud Services**
Worked on various cloud services including AWS, GCP, Azure, etc.

Key Achievements

- ☐ **Enhanced UI/UX**
Boosted customer satisfaction across platforms by 15%.

☐ **Data Transfer Efficiency**
Managed Node.js endpoints, increasing user engagement.

☐ **Page-Load Speed Boost**
Sped up page-load by 5x, enhancing mobile platforms. efficiency
- ☐ **Raised Customer Satisfaction**
Improved UX/UI, raising customer satisfaction across platforms.

☐ **Scaled Microservices**
Rebuilt in Node/TypeScript, enhancing satisfaction by 15% across code robustness and scalability.

Education

University of Atlanta

Bachelor of Computer Science

02/2008 - 09/2012
