

Highlights

- An enthusiastic and resourceful Agile .Net Developer with **5+** years of experience looking for the right opportunity to build a long term career and grow along with the organization by utilizing my knowledge in software development
- Strong experience in implementation of Object Oriented Languages **C#** and Sound knowledge of **OOP** characteristics like Abstraction, Encapsulation, Inheritance and Polymorphism for best practice
- Experience knowledge of **.Net Framework 4.6 and Microsoft Visual Studio.NET 2017** to design and develop **ASP.NET applications**
- Excellent experience with **MVC (5.0/4.0) and View Model patterns** in creating and managing Views, Partial Views, View Models, **Web APIs** using **ASP.NET MVC**, Custom Error Pages
- Excellent knowledge of **ASP.NET MVC** applications development using **Entity Framework** and UI in Razor View Engine.
- Experience on **RESTful API's**, Design patterns **MVC5(RAZOR)** code-first initial developments, MVC5 controls, AJAX controls
- Solid experience in **SQL Server** Database design and programming: writing Stored Procedures, Functions, Triggers, Views, and Joins, performing **T-SQL** Query Optimization and Performance Tuning
- Experience in **ADO.NET** components such as Data Connection, Data Command, Data Readers, Datasets and Data Adapter as a part of ADO.NET to access and update database in ASP.Net environment.
- Experience in working with Object Relational Mapping (**ORM**) using **LINQ** to Objects, **LINQ** to **SQL** and **LINQ** to **XML**, **LINQ** for Entity Framework and its applications in REST Web API
- Strong experience in working on user interface applications using **HTML**, **HTML5**, **CSS**, **CSS3**, **JavaScript**, **JQUERY**, **AJAX**, **JSON**, **XML** and **Bootstrap**.
- Experience in Microservices.
- Experience in rendering **AJAX** features for building Rich Interactive Applications using Ajax Control Toolkit along with **JavaScript**, **JQuery** and **JSON**

Technical Skills

Programming Languages	C#
.NET Framework	ASP.NET, MVC 5/4, .Net Core 5/6, Entity Framework, ADO.NET, ASP.NET Web API, LINQ, IIS 10
Scripting Languages&tools	JavaScript, Ajax, HTML 5, CSS 3, JQuery, JSON, Kendo UI, Angular 13
Database Management Systems	MS-SQL Server 2016/2013/2008.
Development Tools	Microsoft Visual Studio, Visual Studio Code, TFS.
Unit Testing Framework	NUnit.

Education

Master in Business Administration **2017**
Alexandria University - Alexandria, EG

Bachelor of Science in Computer Science & Statistical Mathematics in Computer Science & Statistical Mathematics **2015**
Alexandria University - Alexandria, EG

Professional Experience

Gainwell technologies (GA-USA)

Jan 2022–Sep 2024

.NET Developer

- SPBM Ohio online portal (Medicaid health insurance)
 - 1-Analyze requirements and Design and implement C# classes and methods in .NET Core 5.0 Handle user input validation, data processing
 - 2- Create Razor Pages and Integrate Kendo UI components for enhanced interactivity and data visualization.
 - 3-Utilizes CI/CD pipelines to deploy code in different environments.
 - 4-Developed Azure Service Bus queues to pass messages between different Microservices.
- MaineCare Health PAS Online Portal

responsible for Production Support and new requirements based on Angular 13 and SQL server.
- Idaho Medicaid Program

responsible for Production Support and new requirements based on Asp.net Webform, ASP.NET Web API and SQL server.
- Prims Connect website
 - 1-Analyze requirements and Design and implement C# classes and methods in .NET Core 6.0 Handle user input validation, data processing
 - 2- Create Razor Pages and Integrate Kendo UI components for enhanced interactivity and data visualization.
 - 3-Utilizes CI/CD pipelines to deploy code in different environments.

TECHNO SOFT

Jan 2018 - Nov2021

.NET Developer (Smart Engage Team)

Serving as a core contributor within the company's dot net team, playing a key role in the design and implementation of development projects with a strong focus on Web-based applications and databases.

Achievements:

- Scheduling, monitoring and adjusting project resources as needed for successful project completion.
- Working with multiple departments to align resource requirements in support of the implementation schedule.
- Deploying, monitoring, and optimization of .NET services.
- Collaborating with software development team to ensure infrastructure conformity with application features and functionality.
- Participating in design of platform as a whole including the ASP.NET 5.0 web site and web services.
- participate in designing and integrating with Smart Care products to save costs, implemented Smart Engage product tailored for customers globally .

Environment : C#, ASP.NET,ASP.NET MVC, Entity Framework, ASP.NET Web API, HTML, CSS, JavaScript, JQuery, LINQ, SQL Server 2017, Visual Studio 2015 and Git.

.NET Developer (Voltage Team)

- Analyzed legacy applications documents provided by the product team regarding Voltage/Pkware implementation.
- Performed application analysis and created application flow documents.
- Finalized and analyzed the Voltage and Pkware impact approach for file transfer server and RDM Uploader Applications.
- Analyzed scope of Voltage/PKWare implementation and reviewed code to identify the sensitive data access points.
- Integrated Voltage framework and performed code/database changes (modify tables and creating stored procedures) for core functionality & required configuration changes.
