PROFESSIONAL SUMMARY

Senior DevOps Engineer with 10+ years of experience architecting and managing cloud-native platforms, automation, CI/CD, and infrastructure as code across multi-cloud environments (AWS, Azure, GCP). Proven leadership in DevSecOps, container orchestration, data engineering support, and driving enterprise transformation through modern infrastructure practices.

CERTIFICATIONS

Certified Kubernetes Administrator (CKA), January 2024 - January 2027

HashiCorp Terraform Associate, July 2021 - June 2024

PROFESSIONAL EXPERIENCE

Senior DevSecOps Engineer (Senior Consultant)

Deloitte, LLC | September 2020 – Present | Fort Lauderdale, FL

- Architect and manage multi-tenant cloud infrastructure across AWS, Azure, and GCP, ensuring scalability, performance, observability, resilience, and cost optimization.
- Lead DevOps integration for data engineering pipelines using Azure Databricks (Bronze/Silver/Gold), Unity Catalog, and CI/CD frameworks.
- Automate cloud infrastructure provisioning with Terraform, including data lakes, storage, and networking for secure, high-availability environments.
- Develop scalable, containerized data transformations using Docker, Kubernetes, and Azure Kubernetes Services.
- Implement robust CI/CD pipelines using GitHub Actions, Azure DevOps, ArgoCD, and Jenkins, accelerating deployments and reducing release errors.

- Manage Kubernetes clusters and service deployments; enhance observability through Prometheus, Grafana, and centralized logging solutions.
- Spearhead cloud migration and modernization projects, including subscription migrations and deployment of secure Kubernetes-native applications.
- Build automation and validation frameworks in Python to optimize infrastructure workflows, data validation, and reporting.
- Collaborate with security teams to enforce Zero Trust architecture, implement RBAC/MFA, and maintain compliance with internal and client requirements.
- Mentor junior engineers, promote best practices in cloud-native DevOps, and contribute to knowledge sharing across teams.

Terraform DevOps Engineer

Sigital Consulting, INC (PwC)

March 2020 – September 2020 | Fort Lauderdale, FL

- Designed, developed, documented, tested, and debugged new and existing configuration management (Terraform) infrastructure as code.
- Implemented monitoring for cloud services to maximize uptime and performance.
- Created ephemeral Jenkins for developers to test code via Kubernetes clusters and microservice Docker containers.
- Developed CI/CD pipelines for building, deploying, and scanning containers and application artifacts.

Azure DevOps Lead Engineer / TFS Admin

Amano McGann, INC

August 2018 – March 2020 | Livingston, NJ/Fort Lauderdale, FL

- Led a 24/7 cloud analytics operations team, supporting Azure, Azure DevOps/Team Foundation Server, Jenkins, TeamCity, and IBM UrbanCode Deploy.
- Created and maintained Terraform modules for virtual machine deployment.
- Engineered custom applications in PowerShell to facilitate build requests and automated build processes.
- Trained teams on Azure DevOps CI/CD pipelines and mentored interns.

**DevOps Lead Engineer / Terraform, AWS, Azure, Azure DevOps, TFS
Admin**

Capital Confirmation, Inc

June 2015 – August 2018 | Delray Beach, FL

- Developed Azure DevOps Pipeline solutions for provisioning AWS environments and application deployments.
- Led a 24/7 web operations team, supporting Azure DevOps, Team Foundation Server, Jenkins, Octopus Deploy, and IBM UrbanCode Deploy.
- Implemented CI/CD pipelines using Azure DevOps and PowerShell.

EDUCATION

DeVry University

Bachelor's in Information Technology, Specialization in Management Information Systems
