Objectives

Software Development Engineer In Test (SDET) 6+ years in software testing. Strong experience in general IT knowledge, manual and automation testing of applications. Solid skills in SDLC & STLC, project management and Waterfall & Agile.

Technical Skills

Languages : Java, HTML, CSS, Gherkin
Test Framework : Selenium, Junit, TestNG, Cucumber
Processes : Agile-Scrum, Safe Agile, Waterfall
IDE : Eclipse, IntelliJ
Build and Integration Tools : Maven, Jenkins, Postman,
Project Management : JIRA, JIRA-XRAY, ITrack, Jira Align
Version Control : GIT/GitHub, Bitbucket
RMDBS : MySQL, Oracle
Cloud : AWS, Azure
Design Patterns : Singleton, Page Object Model

Professional Summary

- Experienced in **SDLC** , **STLC**, and **Waterfall**, **Agile** methodologies.
- Proficient in the field of **Information Technology** , specializing in **Software Quality Assurance** Testing, proficient in testing web-based applications.
- Managed and executed test cases and logged defects in defect reporting tool using **JIRA** , **ITrack**.
- **Designed** , **developed**, **proceed**, and **improved Test Scripts** to add **Test Cases** , **Test Scenarios** , and features for **BDD** and **DDD** using **Java** Object-Oriented Programming concepts.
- Experienced in using automation tools like **Selenium**, **Junit**, **TestNG** , **Cucumber**, **Maven** , **Postman**, **Rest API** , **Jenkins** to test Web Applications for **Functional** and **Regression** Testing.
- Good knowledge in **Continuous Integration** and **Jenkins** to run the tests in **AWS**, **Azure**, **Parallel Testing** with **Selenium Grid**.
- Performed **Cross - Browser** and **Compatibility Testing** to assess whether the web applications are working as desired in different **environments**.
- Basic knowledge and self-learner about **Mobile Testing**, **Karate API** and **Serenity BDD**.
- Strong analytical and critical thinking skills, **organizational**, and **communication** skills.
- **Excellent collaborator** with active participation in meetings with **testing**, **development teams**, and **clients** , open **mind to changes** and very fond of **innovations**.

Experience

CYDEO Senior SDET - Program Lead

May 2022 - Present

- Running test scenarios from scratch by using **Cucumber with Java**.
- Analyzing requirements, creating test scenarios for Testing.
- Managing development and maintaining automated testing framework for **CRM application**.
- Implementing **Page Object Model** based on a **Data-Driven Development (DDD)** and **Behavioral-Driven Development (BDD)-Hybrid Framework**.
- Generating test automation results on **Cucumber HTML Report**.
- Using **Jenkins** to schedule running **Smoke** and **Regression** testing.
- Data verification and validation by using **SQL** to query data from database.
- Using **Postman** to run **API** tests manually and automate by using **Rest Assured Library with Java**.
- **JIRA** as a tool for test management and bug tracking.
- **GIT / GITHUB** for version control system.
- Following Agile methodology, attending scrum ceremonies such as Daily Stand - up meetings, Sprint Planning , Sprint Grooming , Sprint Demo and Sprint Retrospective .

AT&T SDET

March 2021 - May 2022

- **DB testing, DB Migration testing**.
- Collaborating with developers and quality engineers to enhance **Sanity and Solution** coverage and maintain the automated regression suite.
- Manual test case creation, review, and execution using **Zephyr**, using **Git** and **Bitbucket** as a version control system · Running test scripts in **Ginger Automation Tool**.
- Mentoring junior QAs, working with **API** testing.
- Experiencing in interacting and coordinating test activities amongst multiple teams.
- Validating the results of the submissions in **Kubernetes** and **Camunda** , also using **Kafka** .
- Validation and integration testing of **microservices**.
- Actively participating in Agile development, testing, and **CI/CD** methodologies.
- Working in the **E2E** and **Enterprise** Testing Team.
- Migrating to **Azure** from **AWS** .

Transcend Hub SDET

February 2020-March 2021

- Designed and developed **Behavioral-driven Development (BDD)** and **Data-driven Development (DDD)** as a **Hybrid** Automation Framework from scratch using **Selenium**.
- Run **Regression** and **Smoke** test on **Jenkins** for **CI/CD**.
- Read and wrote data from external sources (Excel, CSV etc) via **Apache POI**.
- Developed and maintained **Automation Test Scripts** for **UI, Backend** and **API Testing** .
- Had experience with **Postman** for Manual **API Testing** and used **REST Assured Libraries** with Java to automate **API Web services**, reported bugs by using **JIRA** .
- Run tests in parallel using **Selenium Grid** for **regression testing** .
- Connected to Database by using **JDBC** to query Database with **SQL** for data verification and validation.

- Automated test scenarios from scratch by using **Cucumber** with Java.
- Responsible for developing and maintaining automated testing framework for **CRM** application.
- Developed and implemented **Page Object Model** based on a **Data-Driven Development (DDD)** and **Behavioral-Driven Development (BDD)-Hybrid Framework**.
- Generated test automation results on Cucumber HTML Report .
- Used Jenkins to schedule running Smoke and Regression testing, assertion methods from TestNG .
- Responsible for data verification and validation by using SQL to query data from database · Using Postman to run API tests manually and automate them by using Rest Assured Library with Java.
- Hands on experience with GIT / GITHUB for version control system.
- Had experience on mobile testing with IOS and Android devices

TIMAS PUBLISHING, Istanbul / Turkey November 2015 - January 2018 Quality Assurance/Test Automation

- Performed Manual testing and Automation testing for entire e-Commerce website · Analyzed requirements, functional specifications and test cases for Testing.
- Developed and generated test scripts to perform functional , smoke and regression testing.
- Used Microsoft Excel to write test cases for Manual Testing.
- Experienced Postman for manually API Testing and created automation scripts for Automated API Testing using Rest-Assured libraries.
- Worked on Continuous Integration process using Jenkins.

Education

- Bachelor of Education –Uludag University, Turkey

Certifications

- PSM I – Professional Scrum Master I Certification
- Life Coach – ICF International Coach Federation
- Education Coach – CCE International Coach Federation (Continuing Coaching Federation)
- Salesforce Certified Administrator
- Salesforce Certified Platform Developer I
- Salesforce Certified App Builder
- Harvard Leadership Principles
