EXPERIENCE

Workday, Pleasanton - *Product Manager, HCM & Platform*

2021 - May 2025

- Leveraged domain expertise in Workday HCM to define **product strategy** and enhance workforce management solutions, aligning features with business priorities and user needs.
- Conducted **customer interviews**, **market research**, and **journey mapping** to uncover pain points, validate hypotheses, and guide **product discovery** and **prioritization**.
- Delivered APIs and integration capabilities that empower customers and partners to build tailored solutions.
- Adept at leading outbound products initiatives, **design partner groups** (DPG), **early adopter** (EA) programs, define **Go-To market** (GTM) and drive adoption strategy.
- Defined and maintained **product roadmaps** using insights from **Mixpanel**, user feedback, **competitive analysis**, and **cost-benefit evaluations**, improving **product-market fit** and **business outcomes**.
- Owned the **End-End Product lifecycle**, from **discovery** through launch and iteration, executing the HCM platform roadmap to optimize organizational structures, workforce planning, and compliance reporting.

- Collaborated cross-functionally with Engineering, UX (via **Figma**), and QA teams to deliver high-impact features for **PEO** and **HRIS** platforms—reducing manual verification by 50% and increasing engagement by 28%.
- Led **beta testing** programs, incorporating early customer feedback to iterate quickly and reduce time-to-market risk.
- Delivered compliance-focused features (e.g., E-Verify, I-9 reporting), reducing HR workload by 40%, enhancing accuracy, and improving regulatory compliance, directly boosting customer retention.
- Championed **Agile development** processes, **defined MVPs**, **prioritized backlogs** using business impact and user value, and managed delivery through **Jira** workflows and rituals.
- Aligned executive stakeholders through **OKRs**, quarterly roadmap reviews, and ongoing communications to ensure visibility and delivery on strategic business goals.

Workday, Pleasanton - *Sr. Quality Assurance Engineer | Integrations Lead*

2014-2021

- Responsible for creating End-End Hire workflow, setup benefits , maintain regulatory & compliance system, create inbound & outbound integrations
